Subject: RE: URGENT - Records Request

Hi Lori,

This is the only document I have regarding the Flint Water issue. I did send an email in response to the request for volunteers on the 14th/15th of January, but I deleted that request and the email I sent to my supervisor. I also have emptied my trash folder and no longer have that information.
Not sure you need it, but the email said any emails.

Thank you,
Amanda

Dear Staff:
Please see the below urgent email regarding documents relating to the Flint Water Issue. If you have any emails or documents in your possession, we need to get the number of those documents Lori Hinkley by today. Then submit

those documents to Legal Resources by February 18th. That includes any emails in which you may have exchanged regarding the volunteer efforts.
If you have any documents responsive to this request in your possession please get your estimates to Lori Hinkley and cc me please.
Thanks you!
Katie

Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than 2:00 PM on Friday, February 12, 2016.

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on Thursday, February 18, 2016.

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is two years. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

To: Alimo, Amy (MSP)
Subject: Revised: Volunteers needed for water resource teams in Flint

Note: Dates are January 14 and January 15.

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the

ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

Good Morning,

According to information Ashley's received, we must report to the Flint EOC by 9 am tomorrow morning. The address is as follows:
Genesee County Administration Building
1101 Beach St
Flint, MI 48502

I don't have any info about parking; does anyone want/need to carpool? I've already spoken to Laura and she's going to drive herself - I didn't know where everybody else lives...

Subject: Flint water volunteets

Hi Amy

At a Saginaw City-wide neighborhood watch meeting tonight one of the groups asked if volunteers were still needed for door to door deliveries or other details. Is there an American Red Cross contact we can share with the groups for volunteering?

Thanks
Dave

Hi Lt-

We direct them to http://www.helpforflint.com/. Volunteers are processed daily by the Red Cross at their reception center which is at 1401 S. Grand Traverse, in Flint - but only after they have first visited the website for instructions.

Subject: RE: First Trinity Church - Flint Water Rally

I found a little info on the actual rally, nothing on the BLM portion but nothing is working in terms of our server connections so I am unable to forward this info. DTMB is apparently "working" on this widespread issue. As soon as I can, I will research the rally more.

Good morning Ladies,

We received unconfirmed information via the local EOC that a water rally is being planned for this morning at First Trinity church in Flint, where both Jesse Jackson and Russell Simmons are scheduled to attend. In addition, the information provided indicated that this may also be linked to the Black Lives Matter movement and that individuals in attendance may purposefully engage in civil unrest in an attempt to be arrested by law enforcement.

If you are able to find anything via social media or other outlets that may be noteworthy in helping to build a larger base of information from which to act, I'd appreciate it.

Subject: RE: First Trinity Church - Flint Water Rally

The below was found on a website, citing the rally as Baltimore news since the lead Pastor in charge is from the Empowerment Temple AME Church of Baltimore:

Baltimore Pastor Jamal Bryant Heads to Flint to Lead Environmental Justice Water Rally

by: AFRO Staff Pastor Jamal Bryant (Courtesy Photo)Jan 31, 2016

(Flint, MI) – Dr. Jamal Bryant, Pastor of Empowerment Temple AME Church of Baltimore, Maryland has assembled faith leaders, civil rights leaders, attorneys and entertainers to assist the residents of Flint, Michigan as they call for justice. Attorney Benjamin Crump will join Dr. Bryant, along with Judge Joe Mathis, attorney Phaedra Parks, business mogul Russell Simmons, Rev. Jessie Jackson, and gospel artist Deitrick Hadden, just to name a few, will meet to lead in a mid-day rally called, "The Environmental Justice Rally."

The assembled group has collected some 47,124 bottles of water.
The collection of water will be distributed among six churches: First Trinity M.B. Church, 1226 Beach Street; Cathedral of Faith Church of God In Christ 6031 DuPont Street, Christopher Martin, Pastor; Quinn Chapel AME Church 2101 Lippincott Blvd, Rev. Gerald Cardwell, Pastor; United Outreach Ministries 1429 Roosevelt Ave., LeMarcus Keels, Pastor; and Kingdom of Heaven Ministries 2430 Dutcher Road.

The rally is open to the public and will began with Flint, MI Mayor Karen Weaver giving remarks.

WHO: Rev. Jamal Bryant to leads the Environmental Justice Water For Flint Rally
WHERE: First Trinity Baptist Church, 1226 Beach St. Flint, MI 48501
WHEN: Monday, February 1, 2016, 12noon
WHAT: Environmental Justice Rally – Water Give Away for the residents of Flint

Subject: RE: First Trinity Church - Flint Water Rally

ABC 12 is reporting two different events today:

The Rickey Smiley morning Show (98.9) will hand out cases of water from 8-10am at the Lowe's at 2100 T A Mansour Boulevard. Following the distribution, Frist Trinity Missionary Baptist Church is hosting a rally at noon (12pm-1:30pm). Pastor Jamal Bryant and Reverend Jesse Jackson will be in attendance, along with Gospel singer Deitrick Hadden and hip hop artist and entrepreneur Russell Simmons.

The church's Facebook page confirms the rally happening today.

Patrisse Cullors of the Black Lives Matter movements related the FWC to "state violence" in a BuzzFeed article from 01/22/2016:

"What we're saying as part of the Black Lives Matter movement is that when our communities don't have access to clean water that is also state violence. You know, we've talked a lot about police and vigilante violence but it's a matter we have to take up as a movement."

The BLM Bay Area Facebook page does not list anything recent.

We will continue to monitor social media throughout the day.

Subject: Flint Water March

I just saw this:

Details on water crisis march with Jesse Jackson, Greg Mathis in Flint

FLINT, MI -- Several organizations are expected to come together Friday, Jan. 19 for a mile-long national march organized in part by Rev. Jesse Jackson to highlight the push for clean water in Flint.
Pastor Alfred Harris, president of the Concerned Pastors for Social Action Group, said the **march will begin at 11 a.m. Friday, Feb. 19 at the Metropolitan Baptist Tabernacle, 930 E. Myrtle Ave.**
The roughly one-mile march will run from Myrtle, up Industrial Avenue, east on Stewart Avenue, and end at the Flint Water Plant, 4500 N. Dort Highway.
Jackson announced during a Feb. 2 press conference on a class-action lawsuit seeking $150 million to help refund water bills and repair infrastructure that a "major national march" was in the works.

Organizations involved in the planned march include Jackson's Rainbow PUSH Coalition, the Michigan Legislative Black Caucus, and the Concerned Pastors group.
Jackson has appeared at several recent events in Flint, including a Jan. 17 rallyduring which he called a "disaster zone" and a "crime scene."
He said he's been in contact with Doctors Without Borders to have every home in the city tested and is working on a "broad-based coalition" for action that includes the concerned pastors and Water You Fighting For? groups.
Jackson is expected to be in attendance at the march, along with Judge Greg Mathis who made a Jan. 30 stop at Quinn Baptist AME Church to chat with resident about their legal rights concerning the water crisis.

Harris previously said the group is partnering up with Jackson who will be with them "shoulder to shoulder" in the days ahead.
"What we want to do, we want to go from bottled water to pipes to restoration," he said. "We want the citizens of Flint to be restored in all aspects of their lives."

I just checked the websites and social media of the three main groups (RPC, MLBC and CPSA) and none of them have put anything up about the march yet. I will continue to monitor this and forward any pertinent information.

Flint Water Response Team Plan
Saturday, 01.31.16 - FINAL

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Kristy Gallagher		Kristy.gallagher@redcross.org

Plan

Agency	Team Types	Mission
ARC	10 Type V	1000 HH

Resource Status

ARC

Team Type & Quantity	Type: Type V Quantity: 10 (10 ERV)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	10	10		1/31/16	8:00 am
ARC ERV	10	10		1/31/16	8:00 am
ARC ERV Driver	10	10		1/31/16	8:00 am
Team Member	20-40	20-40		1/31/16	8:00 am
Team Transport Vehicle for 2-4 Team Members	10	10		1/31/16	8:00 am
Team Transport Vehicle Driver	10	10		1/31/16	8:00 am
iPads	10	10		1/31/16	8:00 am
Hand Warmers	40	40		1/31/16	8:00 am
Distribution Kit	1000	1000		1/31/16	8:00 am

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Priority – City Sections 27, 29, 30, 31, 22, 33, 4

Secondary – City Sections 7, 1, 13

Map Support

Maps will be provided daily to provide detailed information on city sections. Teams will target specific homes not originally reached during the first two rounds of canvassing.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Four emails attached.

From: Bower, Katie (MSP)
Sent: Friday, February 12, 2016 12:56 PM
Subject: URGENT - Records Request

Dear Staff:
Please see the below urgent email regarding documents relating to the Flint Water Issue. If you have any emails or documents in your possession, we need to get the number of those documents Lori Hinkley by today. Then submit those documents to Legal Resources by February 18th. That includes any emails in which you may have exchanged regarding the volunteer efforts.
If you have any documents responsive to this request in your possession please get your estimates to Lori Hinkley and cc me please.
Thanks you!
Katie

From: Zarotney, Greg (MSP)

Subject: URGENT - Records Request
Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than 2:00 PM on Friday, February 12, 2016.

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on Thursday, February 18, 2016.

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is two years. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Rob,

Hi. I know that I have a few pages of notes (2 probably) and I probably have about 40 e-mails or so on this issue as of today.

Thanks,
Dave

Hello, Everyone.

I am following up to the email that Penny Burger, State Emergency Operations Center sent informing you that the Office of Internal Audit would be contacting you to discuss your department's expenditures related to the City of Flint Water Emergency. We have reviewed the worksheets that you submitted to Penny which summarizes the total expenditures to date. We will use these worksheets as a starting point for reviewing the Flint Water expenditures recorded in MAIN. We be contacting each of you to make arrangements for us to meet and obtain a description of purchases or services you incurred and the MAIN coding used to record the expenditures.

Our objective is to ensure that all agencies are consistent in tracking, monitoring and maintaining sufficient documentation for the Flint Water expenditures.

Carol O'Callaghan, Audit Specialist or myself, will be contacting you this week or early next week. If you have any questions or concerns you may email us or please feel free to contact me at [redacted] or Carol at [redacted]

Thank you,

Daphne Hobson
Audit Manager

Lora,

Good afternoon. I sent you 2 Business Objects queries via the new Business Objects Intelligence. Please let me know if you received them. Please utilize the script title Spend Plan – Project Number as I changed a few items after re-examining the parameters for this query. Let me know if you have any questions. Note this query breaks out the costs by Appn, Fund and then our "Spending Categories". I'll also send you an e-mail with this query too.

Thanks,
Dave

Subject: SEOC Reporting
Attachments: City of Flint Response Costs Jan_26_16.xlsx; DHHS SEOC Weekly Update 02012016.pdf; Summary Cost Template All Agency Exp 2_1_16.xlsx

Hi Sherri and Dave:

Wanted to throw a couple reports at you so you can see the information I am getting and how we are looking at it.

1) City of Flint Response Costs: This is what I pulled together with all state agency information I had as of January 26th. This was provided to Captain Kelenske. I have not completed a new report since then because I knew we were meeting with SBO yesterday and there may have been changes. This is detailed for Captain so he doesn't have to guess what is included in a summarized format.
2) DHHS SEOC Weekly Update: This is the weekly report I get from DHHS for their costs related to Flint. This includes items from their supplemental that are not SEOC related but they are incident related.
3) Summary Cost Template: This is how I modified the BCR for consistent reporting at the summarized level by all state agencies.

I would have populated the cost template with my own information but Business Objects has been hostile since our move and giving me hassles.

Thanks,
Penny

Subject: Assistance to the City of Flint
Importance: High

Good afternoon all,

PCA 28670 has been established to track the OT worked assisting with the City of Flint with the water contamination. Please continue to use Project # FLTWAT and Phase 16 to track non-OT hours to that are spent assisting with this issue, as this will help us when asked the overall impact of assisting the City of Flint.

If for some reason you run into an issue where meals, lodging, supplies, etc. are necessary for this assistance, please contact me so that I can make a decision on how to handle that cost.

Please let me know if you have any questions.

Thanks,
Dave

Sgt. Brantley,

No problem. Glad you were able to figure out some of this. I understand it can be confusing. I prefer that both the OT and non-OT hours have the Project # and Phase. The OT gets charged to the PCA 28670, however the Post Index and Standard Distribution PCA should be used for non-OT hours.

To check an employee's standard coding using DCDS, go to their time entry sheet click on the Emp Info tab (on the top after Activity, Equipment, Inventory, etc.). Then you click on the Std Distribution tab (on the bottom after General Info and Leave Balance). This tab shows you the Index, PCA, Grant, Project, etc. used for the standard coding along with the percentage charged to that Index and PCA.

Please let me know if you have any further questions. Sorry, that I now missed your phone call.

Thanks,
Dave

Good afternoon Mr. Morris,

My apologies, I was in a meeting with F/Lt. Simon.

I was able to figure out issue from yesterday. District was questioning why troops from our post was paid out of their budget. It was for the 3rd District Glock Transition and Northwood Auto Show, both of which were approved by Inspector Kanicki.

Today, I just had a question about carrying the Flint Water Emergency time. If I have this correct, we are to carry all overtime under PCA 28670. Do you also want it under Project #FLTWAT, Phase 16? Or do we just use the project and phase code for non-overtime hours?

I'm so confused....:-)

Y

Subject: RE: City of Flint Costs - January 26th

Good afternoon all,

Just want to make sure we are on the same page here. So, the Payroll PCA 28670, should only be used for the OT worked on the Flint Assistance (not for regular wages helping SEOC or EOC), correct? Also, I don't anticipate much non-payroll for the City of Flint assistance, but travel, meals, lodging, and/or supplies purchased to assist with Flint should be using PCA 28671?

I told understand Penny, I can get with FSB's folks and make sure we start getting our OT corrected and tracked. I did setup Project # FLTWAT and phase 16, so hopefully that was used and will make it easier for me to make those adjustments.

Thanks,
Dave

I was just wondering whether a Flint-specific PCA or project would help them (and us, by extension) make sure everything is accounted for and avoid surprises. (For example if we were to run an expense report in BusObj for Flint-related expenses would we get to the same numbers?) I assume that they would have established a specific coding or comfortable enough with their practices to be able to track things, but with this apparent heightened scrutiny from the SBO on us to track this, we can't be too careful.

EMHSD has a payroll and non-payroll PCA set up specifically for Flint. I have not confirmed with the other agencies how they are tracking costs. I would assume their finance people have a project set up. Do I need to confirm with them?

workbook. The first tab reflects current actual and estimated costs incurred by state agencies except Corrections who did not get their information turned in this week. The second tab contains detailed information obtained from DHHS purchasing as far as the water resources procured from Home Depot. These numbers are carried over onto the cost spreadsheet; this is just included to show you more of the detail.

The cost report details the current expenditures or estimated costs incurred. I have done this so you are able to see what types of items are being requested for this response. There are various lines within the supplemental appropriation included in this report, such as DMVA and DHHS. Costs so far are approximately $10.2 M with $8.7 M being spent on water resources since the Governor declared a state of emergency.

If I can answer any questions for you, please let me know.

Thanks and have a good evening.

Subject: RE: Direct Billing from Jimmy John's in Flint

Good Morning,

An exemption to purchase Jimmy John's for volunteers that are distributing water in Flint is approved. Please ensure that you print this email and attach it to the transaction detail in which you purchase appears.

Let me know if you estimate that the purchase will be more than $2,500.

Thanks,
Trisha

Hi Dave – If we have Jimmy John's direct bill us for food that we are ordering for the volunteers that are distributing the water in Flint, for dinner tonight, can we use the corporate office vendor ID that is in MAIN or would we have to have the restaurant here in Flint fill out paperwork?

All,

Lt. Amy Dehner has been briefed and will be responding to the Genesee County EOC as soon as possible today.

I anticipate her phone call to Inspector Bolger shortly to close the loop. Amy will provide updates today and tomorrow.

Robbin,

Good morning. I think the easiest thing to do is to get with Trisha Hampton and see if we can get an exception to use the P-card. I cc'd her on the e-mail and maybe she can give us the approval.

Thanks,
Dave

Hi Dave – If we have Jimmy John's direct bill us for food that we are ordering for the volunteers that are distributing the water in Flint, for dinner tonight, can we use the corporate office vendor ID that is in MAIN or would we have to have the restaurant here in Flint fill out paperwork?

Subject: Flint Water Crisis - FSB Response

Good morning Shawn,

I met this morning with FSB to prepare a Budget to provide assistance to the City of Flint. Based on our discussion, FSB would be requesting the following:

Budget per Pay Period:
Lieutenant OT - $16,760 (1 Lieutenant x 6 days per week x 12 OT hours per day)
Trooper OT - $72,565 (5 Troopers x 6 days per week x 12 OT hours per day)
Mileage - $2,275 (Mileage - 1 admin. vehicle driving 10 miles per day & 5 patrol vehicles driving 80 miles per day)
Total - $91,600

We went with a per pay period Budget since we don't know if our commitment will be a few weeks, 3 months, or until the end of the fiscal year? This allows that decision to be made and then the Budget to be finalized.

Please let me know if you have any further questions.

Thanks,
Dave

Sent: Tuesday, January 12, 2016 4:25 PM
To: elSulayman, Halima (MSP)
Subject: Volunteers needed for water resource teams in Flint

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for

walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

Good afternoon Capt:

To assist in the financial tracking of resources dedicated to the City of Flint in response to the water emergency the following Project Number has been established:

- Project # FLTWAT - Phase 16

This project number will be in DCDS tomorrow. Please have impacted personnel utilize this project number with their time accounting for activities in support of this detail.

Thanks...

Jim

Subject: RE: Update for FSB - City of Flint

Penny,

Good afternoon. Sorry for the delay, . Payroll did post thru January 30, 2016, so I have those updated numbers for you. Of course they aren't 100% accurate, as I have 169 regular 60 hours of regular time charged to your PCA 28670. *Overall though, I'm going to go with MSP having spent* $139,814.14.

Please let me know if you have any questions...that would all be OT and retirement (1,843.3 OT hours).

Thanks,
Dave

Hi Dave:

Can I get your updated numbers for City of Flint summary reports? I am trying to get some time out of the SEOC this week and want to make sure I have all bases covered.

Thanks,
Penny

Subject: RE: SEOC Reporting

Sherri & Penny,

Good afternoon. The first 2 reports seem to be very thorough. I like your summary template as well, however, it would require some slight modifications to the current Spend Plan Script, but I would think that the Business Objects Group could make those changes without much of a problem. I guess it just depends on if you prefer our more detailed Script or this higher level summary.

FYI – I ran a script last night on all costs charged to Project # FLTWAT and Phase 16, thus far and the total is $40,950.46 ($25,911.33 – OT & $15,039.13 – Retirement). This is thru the pay period ending January 16, 2016. Please also note that of that amount $4,523.16 was charged to PCA 28670, the remaining $36,427.30 was charged to either FSB or Office of the Director.

As Sherri mentioned, the other piece of this is separating out the timeframes. I'm not sure how we are going to write a script to do that, unless we just use a month as the cutoff date and not the actual date (payroll still will be off, since it posts after the actual days worked).

Thanks,
Dave

Subject: SEOC Reporting

Hi Sherri and Dave:

Wanted to throw a couple reports at you so you can see the information I am getting and how we are looking at it.

1) City of Flint Response Costs: This is what I pulled together with all state agency information I had as of January 26th. This was provided to Captain Kelenske. I have not completed a new report since then because I knew we were meeting with SBO yesterday and there may have been changes. This is detailed for Captain so he doesn't have to guess what is included in a summarized format.
2) DHHS SEOC Weekly Update: This is the weekly report I get from DHHS for their costs related to Flint. This includes items from their supplemental that are not SEOC related but they are incident related.
3) Summary Cost Template: This is how I modified the BCR for consistent reporting at the summarized level by all state agencies.

I would have populated the cost template with my own information but Business Objects has been hostile since our move and giving me hassles.

Thanks,

Penny

Hey Dave:

I know we won't be able to pull things out of MAIN for this past pay period or week until tomorrow, but do you have some estimated costs for FSB in response to the City of Flint? OT, travel, other stuff . . . Not regular time.

As quick as I can get something would be awesome. Captain just gave me a Noon deadline for an estimated update on what's been spent so far. (Yes . . . noon today – imagine the look on my face when he said it in front of the SEOC!)

Thanks,
Penny

STATE OF MICHIGAN
STATE BUDGET OFFICE
LANSING

RICK SNYDER
GOVERNOR

JOHN S. ROBERTS
DIRECTOR

February 1, 2016

MEMORANDUM

TO: Chief Financial Officers and Human Resource Directors
All State Agencies

FROM: Michael J. Moody, Director
Office of Financial Management

SUBJECT: Flint Water Expenditure and Activity Tracking

In order to facilitate the tracking and monitoring of expenditures and activity related to the Flint water emergency, the Office of Financial Management (OFM) has established the following coding and processes. The coding and processes described in this memo will be used to track expenditures in MAIN and state employee activity in DCDS. Separate instructions regarding the tracking of outputs related to the Flint water emergency will be forthcoming.

Expenditure of Funds Appropriated in Public Act 3 of 2016

OFM has established a line item appropriation number (88500) that will be used for all appropriations included in Public Act 3 of 2016 (HB 5520). Each affected agency is responsible for submitting Electronic Budget Adjustment (EBA) documents using the appropriation number established by OFM and providing the necessary D23 coding for the funding source(s) identified in the appropriation act.

In addition to the submitting EBA documents, affected agencies must establish and use Program Cost Account (PCA) coding in MAIN to specify which of the activities identified in the appropriation act boilerplate are supported by expenditures. Each of the established PCA codes must include multipurpose code FNT-WTR. OFM will contact affected agencies within the next week to discuss establishment and use of the needed PCA codes in more detail.

Please note that these instructions apply only to funds appropriated in Public Act 3 of 2016. Additional instructions will be issued when future appropriations related to the Flint water emergency are enacted.

Expenditure of Other Funds

OFM has established MAIN multipurpose code FNT-WTR to be used by agencies to track expenditures of funds not appropriated in Public Act 3 of 2016 that are related to the Flint water emergency. FNT-WTR is a statewide multipurpose code that is available for use with any PCA code.

If your agency already uses multipurpose code in a manner that conflicts with using it as described above, please contact OFM as soon as possible to discuss alternative methods for tracking.

Tracking Time and Activity in DCDS

OFM has established a DCDS activity code (FDWP) that affected state employees should use to record the amount of time spent on activities related to the Flint water emergency. The activity code will be used to track employee hours devoted to activities related to the Flint water emergency. It is separate from and will have no impact on the expenditure tracking that will occur in MAIN. If employees are not familiar with the DCDS activity reporting process, the reporting is done biweekly on the "Activity" tab of the DCDS timesheet.

If you have questions regarding this memo, please contact Lora Mikula at 373-0447 or MikulaL@michigan.gov.

Subject: SIGNAL 1 MOBILIZATION - FLINT PROTESTS

Lt. Col. Sands has authorized a : e in preparation for the potential of civil unrest for planned protests in the City of Flint today, February 3, 2016, and potentially through the remainder of the week. The will be for on-duty regularly scheduled patrols for Third District posts. Would please send out the notification as outlined in Official Order #4:

: – Third District posts

A is in effect immediately for scheduled on-duty Third District post patrols.

The is in preparation for the potential of civil unrest resulting from planned protests in the City of Flint today, February 3, 2016, and potentially through the remainder of the week.

Impacted personnel are to take the appropriate actions in response to the e, as outlined in Official Order #4. The MIOC and Third District command will continue to monitor events for public safety and situational awareness recognizing that all citizens have a constitutionally protected right to assemble.

Authority: Lt. Col. W. Thomas Sands, Deputy Director, Field Services Bureau

Subject: Re: Flint water volunteets

Hi Lt-

We direct them to http://www.helpforflint.com/. Volunteers are processed daily by the Red Cross at their reception center which is at 1401 S. Grand Traverse, in Flint - but only after they have first visited the website for instructions.

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms.

Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Capt. Greg Zarotney

Sent: Tuesday, January 12, 2016 4:39 PM
To: Andersen, Ashley (MSP)
Subject: Revised: Volunteers needed for water resource teams in Flint

Note: Dates are January 14 and January 15.

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

This email was sent to andersena25@michigan.gov using GovDelivery, on behalf of: Michigan State Police 333 S Grand Ave P O Box 30634 Lansing, MI 48933

Hi,

Here is the info on the water that Ferguson is looking to donate. If you could provide an address and contact person's name and phone number, looks like we'll be two pallets of water greater. :)

Thanks,
Dawn

Two pallets, 120 cases, Andrew says each pallet is standard size (like 48x48) and 4ft high. They should be in by Wednesday and I am coming to Flint for work in Wednesday so I'd like to drop them off that day if I can.

Cc: Covey, Gabriel (MSP)
Subject: RE: Ready to Roll

Hey Gary,

You're very welcome, we're excited to have you!

As you've probably heard, we're a little under the gun with the Flint water crisis. I'm not sure I have much available time as we've already been working pretty late. But, what I'd like to say is that we'd like you to start next week IF that's possible. Angie Fuqua indicated it should be, and I believe CJIC said they could release you on the 16th, so does that sound workable for you?

Also, I'll send a separate email to you, Joel and Matt as they'd be the ones you'd be working most closely with, and they have all the DR-4195 info.

And do you have a regular nixg email address?

Thanks Gary, looking forward to working with you!

Subject: Ready to Roll

Good Morning Tom,

I was thrilled to hear that you'd selected me as your planning analyst. I hope the start date will be sooner than later. There is a great feeling of excitement in starting a new job, coupled with a feeling of total ignorance of not knowing how to do anything at all. I'd like to reduce the ignorance side of the equation by looking some stuff over prior to my start date. I don't know what that stuff might be, but I was hoping to get out of here a little early one day to meet with you and get some stuff that I could browse in the evenings. Just enough to not be TOTALLY ignorant on day one.

Thanks Again!!

Joyce and Michelle,

IMPORTANT: I had been updating the FOOD SCHEDULE so it makes more sense and have now placed it on the **S: DRIVE** so we can all access it at any time.
Joyce -- *I incorporated your changes but may not have done so accurately, so please double check.*
Michelle -- Please add your food information and check your days off as well.

This schedule is now located at: S: ADMIN / 1_FOOD UNIT Schedule_Flint WC *(I put a "1" first so it would show up at very top of ADMIN location)*

Sorry for the inconvenience. I will review it one more time in the morning and then (Joyce) can print in color for our meeting. THANKS!

Subject: FOOD UNIT - VENDOR Tracking Sheet
Attachments: VENDOR_Northern MI Storms_Joyce_Michelle.docx

Hi Michelle (cc: Joyce),
Per your request, attached is the current **VENDOR tracking sheet** so you can fill in your activity. FYI - If you notice a yellow folder in my in-box, it's probably the three pending invoices with Jackie's signatures. Feel free to take these and process. Also, on my counter is a folder for you containing copies of pending "sign in" sheets that need to go with the invoices received up through 1/24. After that date, you will need to make two copies of each of these daily sheets to attach to the meal invoices you and Joyce are covering.
I'll get copies of all invoices you have stamped and processed for me once we get settled at our new location (just so I'll have a complete record on my end).

Looks like the pop supply for the next four days is good. Hopefully the water will come in soon. If you have too many "treats," free to make a tray and put it on the counter area next to my office. People eat anything that is put there.

Thanks again for everything! I'll check in sometime next week. Will try to keep my phone on me at all times.

Just as a FYI. I know I ordered this but I was not really impressed with Amy's Mostaccioli and wouldn't order that again. The carrot cake tasted like they pulled it from a freezer and it was dry.
I also was working with FEMA about the food billing and we haven't come up with a solution yet. Will still work on that if they deem necessary.

Hi Amy,
We are receiving dinner from a different vendor **tonight** (1/20) and **Thursday** (1/21) and **Friday** (1/22). However, we will likely need your services again for Saturday and Sunday dinners (1/23 & 24). I am awaiting word from our Logistics Chief and will notify you as soon as I know.

FYI - Catering items from last night were picked up around 8:30 a.m. this morning.

Thanks so much,
Diane

> I left my cell number with the driver last night to give to the person who was working this morning. I also called this morning at 9 am and left a message on your voicemail. We would appreciate it if someone would come back the in the morning on next day and clean up; as we need to prepare for the next meal.
>
> **Action:** I would appreciate it if someone from Amy's would come get them so they don't start smelling.
>
> The chicken cordon blue was wonderful and people were very happy and grateful with the selection especially the vegetables. However, the top two trays of chicken were cold and the cheese inside was not even melted. I put them in the oven to get them warm, which was a little bit of a task as we are not set up for that. I was just wondering if there should have been two chafing fuels instead of one underneath the trays to help keep them warm?

Winter Storm partial activation I will check on?
mg

From: Laban, Diane (MSP)
Sent: Monday, January 11, 2016 1:40 PM
To: Gilsdorf, Michelle (MSP)
Subject: Food Invoices

Hi Michelle,
Can you assist me with two things:

Per our kitchen conversation, **PENN STATION** gave me an **8/21/15** invoice for **$138.67** for lunches I ordered for Northern MI Storm SEOC activation. I show it as having been processed, but my paperwork copies are packed already! Not sure if payment was sent or not. Is there a way to check on your end? Their **vendor I.D. is** **/ 000**

Secondly, I want to process an invoice from **PIZZA HOUSE** from **12/26/15.** Pam ordered lunches that day for SEOC staff for the winter storm partial activation. Do you know if there is a PCA and INDEX assigned to that emergency for coding purposes?

Thanks!

Diane
Sorry I am now scheduled to do the food for the SEOC next week so I won't be able to help you with office supplies. Let me know if there is something I can help you with from this end, if you need labels made up to take the next day or something like that.
Michelle

Subject: SEOC Food Unit - week of January 11 - 15

Michelle:

Diane will be located at the new facility next week. Would you be able to handle the food unit functions for the SEOC on Monday, January 11th through Friday, January 15th? You would be responsible for monitoring/set up of the coffee station, ordering and accepting lunch delivery, set up and clean up.

Please let me know as soon as possible so we can put you on the schedule.

Thanks,
Penny

Subject: RE: FEMA Food

Thanks Michelle. I may be reading this incorrectly, but here are my comments for clarity ..

1. Food for today has already been ordered for **60 people** which include them and I cannot change that at this short of notice. I will have them eat with us today **for the last time.**
2. After today, they **should not be privy to our leftover food**. After 2 pm everyday (per Oralya's email) all leftovers should be for SEOC or EMHSD staff only (I can anticipate what will occur if we open leftovers up for them).
3. I have been stocking pop, water and juices for them every day. Should that be discontinued?
4. **Important:** I can give FEMA a list of vendors, but I know the vendors will require a **credit card payment via phone** from them before the order is placed and delivery is made. The vendors I use are set up to invoice us because they are in MAIN and trust our process. That won't be the case for FEMA. They will also expect a tip and/or have a delivery fee.
5. Since we use caterers for the evening, not sure what FEMA will do for dinners.

I think I need more direction. Until then, I'll do the following:

1. Call our scheduled vendors and have them reduce the number of **lunches/dinners for this day forward to 45**.
2. Put together a **vendor list with phone numbers for FEMA**
3. Give FEMA my **daily schedule of vendors** (but that changes and sometimes I order the night before for Pizzas, etc. so it's a balancing act.) Also, don't want to confuse our vendors.
4.

Thanks

Penny, Diane and Joyce
Captain had stopped by Diane's desk and wanted FEMA billed separate. Linda Pollack the lawyer from FEMA stopped over quickly to talk about food. Linda had asked me why I was asking, and I told her it was because she had inquired. She's going to talk to her people but as it stands now we couldn't find a way to have them pay as each person is responsible either via cash or charge to pay for their own meals.
Invoicing 10 people would not work for them. They are allowed to each individually accept a gift of up to $50 so we are wiping the past as leftover food or a gift.

Going forward If you could send her a list of vendors we order from and if you know a schedule when you order of the vendors that would be helpful.
They are on their own and if they want to call a vendor that you happen to be ordering from and have something delivered upstairs to them then they can do that. They have no way of paying a vendor for 10 people since they each pay on their own card or paying us.

For today she will let me know. I told her what we would do since we have already ordered is if our people get done eating usually around 1 we can tell them they have left over food and they can help themselves.
If you have any other ideas that would be great.
Thanks
Michelle

Subject: schedule for the weekend

I am available for most the weekend.
I would prefer however to have one night free to see my family possibly Saturday night.
My kids don't usually get up until noon so working at night eliminates seeing them at all.
Diane let me know what works for you? I could work Saturday day and you could work the night.
I would like to go to church which I can do either Saturday evening or Sunday morning.

So let me know which one works for you as I know you guys also attend church.
Thanks

Subject: FOOD UNIT - Miscellaneous

Michelle / Joyce,
Our flatbed cart did get taken to the new location, so Pam found a smaller one for us to use for a week. She asked me to leave it in the kitchen instead of near the elevator.
That's where it is. Tried to give away as much food as possible, but there is everything push everywhere. Do what you want with it. Put out sign next to my office for people to take the food.
Thanks

FYI
Hi Diane and Joyce
Ron Leix from the JIC contact 125 E Union St Flint, has asked me the official way he should be contacting us.
JICManager@michigan.gov this should be the email we communicate through for them.
Michelle Kuzera is the contact at the local EOC address 1101 Beach St Flint
I told him the plan you had come up with here. With Diane being the main and Joyce and I are backing her up.

This is logistics
MSP-seoclgc MSP-seoclgc@michigan.gov

The same with Flint but I am the main and you guys can back me up.
I don't foresee me being gone for any reason but if I get hit by a bus or semi I have a book just like you Diane with vendors I have been using.

White Horse Tavern doing the big lunch of pasta for both. 172 people
Working on Jimmy John's possibly for dinner tonight have been 15 at local EOC Flint and 6 at JIC?
I am signed up for Panera tomorrow box lunches for 180 until I get a different count.
I have Red Cross signed up to bring them coffee and supplies today and tomorrow for lunch.
They finally got water delivered to them so they are set.
That's as far as I got.

Thanks
Michelle

Subject: FOOD UNIT_Meals & Schedule Update
Attachments: FOOD UNIT_Meals & Schedule_2.2.16.docx

Michelle and Joyce,
Attached is new FOOD UNIT schedule with added columns. Please feel free to fill in missing information. I can't remember. Let's use this sheet to update as we go along and pass back and forth. We'll bring it to our periodic meetings, as it now has a "schedule" column. I do like to meet the vendor in person, if it's their first time coming here, as I usually do Food Unit for exercise and drills throughout the year and that helps me. Both new vendors tomorrow (Grand Traverse Pie downtown and Fireside Grill) will be calling me as they are pulling up to the building, so I'll let both of you know.

MICHELLE: Please note I have **PIES** coming for lunch tomorrow (in case you were planning on ordering pies for any upcoming meals). I do not have any waters or pops coming for either deliveries though. We may need to go to Gordons for fruit and snacks anyway. Also, I know I have outstanding food invoices - will try to get those to you soon.

Hope my big FOOD UNIT binder will show up. I want to completely redo it and add all this new information we are obtaining.

Thanks, D-

Oh gosh ... It's fine .. no need to apologize or give us a discount. Lunches were perfect. There have been some minor issues that I hadn't mentioned yet (cart, receiving only one diet coke, pies identified with many different acronyms (don't know what they stand for (i.e., LSC). The miscommunication today was about the "tip." He had to go back and redo the invoice and put it down as a service charge. I know when you transfer an order to a different location, details may fall through the cracks, but it's all good and everyone loved it – especially today's salads.
Just an FYI, two of my colleagues (**Michelle and Joyce**) may be doing the ordering for next week's lunches. I'll have them use my name so they'll know. Don't worry if you don't hear from them – that just means they ordered from somewhere else.

As always, thanks for your wonderful service ...

Diana,
As you know, we had to transfer your order to East Lansing. Your order did not have any specifics on it about pies being separate or the cart issues. Nor did Chris know your history with Nina. I've spoken with the person who took your order and she is extremely sorry she couldn't catch all the details of the order as you explained them. I am very sorry for your experience and hope we can earn your business back in the future. Nina has fixed her cart as of yesterday and is well aware of your preferences as is the rest of the staff that would be handling your order. Please accept a 20% discount on a future order with us, as a token of apology.
Once again, I am extremely sorry for your recent experience.

No, Jersey Giant won't come tomorrow. I have since spoken with them and it's all good.
I can be on the schedule next weekend, but I do have a commitment after 3 PM on Sunday, Jan. 31. I can work anytime on Saturday, but prefer split shifts maybe. We can talk when we see each other this week. I'll be stopping by at some point to do payroll, so we can touch base then.

Thanks!

I hope they don't decide to deliver tomorrow instead. Quick thinking on your feet Diane. I we are working next weekend, would you like to be on the schedule?

Oooh yummy. FYI - Jersey Giant didn't show for lunch today, so we had "emergency pizzas" and leftovers (they liked beans and potato salad and some boxed lunches). Just wanted you to know if case you see three pizza boxes in refrig. Got case of water from Pizza House too so that helped.

Subject: FOOD UNIT - VENDOR Tracking Sheet

Hi Michelle (cc: Joyce),

Per your request, attached is the current VENDOR tracking sheet so you can fill in your activity. FYI - If you notice a yellow folder in my in-box, it's probably the three pending invoices with Jackie's signatures. Feel free to take these and process. Also, on my counter is a folder for you containing copies of pending "sign in" sheets that need to go with the invoices received up through 1/24. After that date, you will need to make two copies of each of these daily sheets to attach to the meal invoices you and Joyce are covering.
I'll get copies of all invoices you have stamped and processed for me once we get settled at our new location (just so I'll have a complete record on my end).

Looks like the pop supply for the next four days is good. Hopefully the water will come in soon. If you have too many "treats," free to make a tray and put it on the counter area next to my office. People eat anything that is put there.

Thanks again for everything! I'll check in sometime next week. Will try to keep my phone on me at all times.

Joyce and Michelle,

IMPORTANT: I had been updating the FOOD SCHEDULE so it makes more sense and have now placed it on the **S: DRIVE** so we can all access it at any time.
Joyce -- I incorporated your changes but may not have done so accurately, so please double check.
Michelle -- Please add your food information and check your days off as well.

This schedule is now located at: S: ADMIN / 1_FOOD UNIT Schedule_Flint WC *(I put a "1" first so it would show up at very top of ADMIN location)*

Sorry for the inconvenience. I will review it one more time in the morning and then (Joyce) can print in color for our meeting. THANKS!

Per Carol's email to me below (and a conversation I just had with Tonya at my desk), I will order **lunches and dinners** through the **end of the day on MONDAY, JANUARY 25**. It would be helpful if one of you could order for the remainder of next week, that way you know the conversation and have control of things since you will be here for the deliveries, etc..

Let's make sure we have one of our little meetings on Friday to discuss this ...

Thanks, Diane

Importance: High

Are we having fun yet?! YIKES
Okay Ladies. Here's some information for your shared duties on Sunday, January 17 and other FYI's:

First off, Amy's Catering had been coming every morning to pick up their catering trays thus making our tables clean for the boxed lunches. They did not come this morning (Saturday) and poor Michelle had to clean and move everything to a cart. In talking to Pam about food information in a 1/13 email that I didn't recall seeing, I went back and discovered she had cc:d me on a 1/13 email between her and Amy's Catering that was in a long string of interactions, and I only read the top one. Ugh! This is what she had told Amy's Catering: ***"Yes, you may leave your dishes and pick them up the following night; however, if it is easier for you, you could bring disposables. If possible, could delivery time be bumped to 5 p.m. nightly? Serve time is 5:30 p.m "*** I am not sure why they came back every day at 8:30 am for me. So, tonight I did the same thing Michelle did and put all the trays on our cart. You will both see them during your shift tomorrow. They will pick them up on Sunday night when they deliver the meatloaf.

On to the rest .....

- **Attached** is the FOOD UNIT schedule through 1/24 that we discussed. We can make changes next Tuesday.
- **Attached** is the Vendor sheet I use to keep track of everything.
- We have new coffee thermos. Looks like it holds a little more.
- I stocked the Comm. Room with some more legal pads and pens (as everything was already packed)
- I have placed orders from OfficeMax for water, so hopefully it will come soon.
- We could **use more ice from Gordons for the coolers**, but I think we'll survive without it if nobody wants to make the trip..
- Pam informed me that she is a Logistics lead under the various Logistics Chiefs. As such, make sure we cc: her anytime we email the Logistics Chiefs. She told me in person I was to order **lunch and dinner through Monday night only** (*which I have done*). We should get word on the new schedule from Captain soon. (Apparently 30 FEMA people are arriving because of declaration. They will likely be housed in the Presentation Room and meals on their own – not sure)
- On **Sunday, January 17, (Joyce)** lunch is coming from **PANERA (664-2935) at 11 am** (50 boxes and some salads and cases of pop and water). They will invoice me so you should have no receipt. Food cards are on my counter.
- On **Sunday, January 17 (Michelle)** dinner is coming from **Amy's Catering ☺ (374-9774).** Should be meatloaf, etc. Sorry you'll have to pack up the trays. Since we're done with them after this date, not sure when they'll come to get them.
- On **Monday, January 18, (Michelle)** lunch is coming from **PENN STATION (993-5016) at 11 am.** I gave them your **cell phone** for any problems. I placed the order with Casey (male), but Ron is the manager. They will be sending **43 boxed lunches and 7 salads each with chips and cookies, but I also order a separate cookie tray** (little cookies that everyone loves the best). They **are not** bringing any pop or water as I am hoping we will have enough for now that comes from Panera's. Food cards are on my counter. **Just put receipt on my chair.**
- Dinner on Monday is a potato bar from McAllister's, but I will be here for that delivery.
- Both of you should feel free to go down to the corner of the SEOC where Jaclyn sits and ask them to assist you with the **MAIN GATE** situation. Matt McCormick was on the computer in that area whereby he could see the

main gate and buzz people in. I asked him to call my cell when Amy's Catering came. Turns out, I was up at the desk so I did it anyway, but nice to know we have that capability.

Sorry this is so lengthy. Please feel free to call me tomorrow with any issues. Thanks so much! (Nice Job today Michelle – you did a lot!)

Michelle and Joyce,
Attached is a blank schedule through the end of the month that I thought the three of us could sit down and confirm/fill in. **Can we meet in Terrace Room around 3 today?**

I shaded in yellow the times that are not good for me, but then again, they might not be for either of you too so I'm flexible. Note: The week of the Jan 25 (M-F only) I will be out at the GOB. My plan is to have all the lunches and dinners ordered so all you need to do is meet the delivery people, set up, clean up, etc. Of course, there is also the all-day coffee making, cooler and snack replenishing, and emptying waste baskets and bottle cans, etc.

Let me know what you think. Thanks

Please note that **Joyce, Michelle G. and I** have met regarding FOOD UNIT / SUPPLIES UNIT coverage from **Saturday, 1/16 through Sunday, 1/24**. I will send you a copy of that schedule by the end of the day tomorrow (Saturday). Until then, please note the following:

- I will be leaving at 4:30 pm today and will not be in again until tomorrow (1/16) at 2:00 PM.
- *Michelle is scheduled for this evening and tomorrow morning so she is in charge of both* **dinner tonight** and **lunch tomorrow**, as well as coffee duties.
- Lunches and dinners have been ordered through Sunday, 1/17 ONLY.
- I will place food orders for next week starting tomorrow. **NOTE: Unless instructed otherwise, I will be ordering both LUNCH and DINNERS for the week of 1/18 – 1/24 for approximately 45 people.**

Subject: RE: Food Unit

Hi Tonya
I will be working at the new office location the week of **Jan. 25** by myself (if move is still on schedule). I called a meeting with Joyce and Michele yesterday, and we worked out a FOOD/SUPPLIES schedule through **Sunday, Jan. 17** (I'm currently putting this together). After that meeting, I asked Penny to put all three of our names under both **FOOD UNIT** and **SUPPLIES UNIT** because there is a lot of transitioning with these duties (and Michelle is ordering food for Flint people as well) and it seemed difficult for me (or them) to work 12 hour days / 7 days a week. We will need to meet again and discuss how **Jan. 16 – 31** will work. Do you think dinners will continue to be served during that period of time?

I'll advise the girls and will get back with you on your request.

Good Morning Diane,

Wondering would you like to be in charge of the food until from 1/16-1/31? Or would you like me to rotate with you and Michelle G? I am currently working on the schedule for the next two weeks.

Thanks
Tonya

Thank you for the phone call.

Yes, you may leave your dishes and pick them up the following night; however, it is easier for you, you could bring disposables.

If possible, could delivery time be bumped to 5 p.m. nightly? Serve time is 5:30 p.m.

Also, can we add:

- Saturday, January 16, Oriental Stir Fry-Chicken

- Sunday, January 17, Homemade Meatloaf

The State Emergency Operation Center, which is activated (where the food is being delivered to) due to the Flint Water issue and we are in need of food during the activation.
I thought of you immediately!

Please let me know as soon as possible on the added days.

Thank you,
Pam

Importance: High

Good morning, Amy,

I would like to confirm food counts and delivery address for our catering orders.

Food counts: 45 for each night
Delivery time: 5:30 p.m.
Address: 4000 Collins Road, Lansing, MI (This is a secure building, before 5 p.m., there is a guard that will allow access through the gate. After 5 p.m., driver must call access number to be let in)

- Wednesday, January 13, Baked Potato Bar
- Thursday, January 14, Taco Bar-Beef

I would also like to add Friday night if possible (same counts, address, and delivery time)?

- Friday, January 15, Chicken Cordon Blue

I look forward to working with your company again.

If you have any questions, please contact me.

Hi Connie,
I'm going to pass this information on to **Michelle Gilsdorf,** another EMHSD secretary who has been doing a great job ordering most all our food. She and Joyce are already aware you'll be periodically in the SEOC, so we'll probably always be prepared for you. Hopefully you can have some of the items delivered today from Saites. The roast beef has been transferred to our staff kitchen as leftovers today, but I can bring you some slices if you'd like ... just let me know.

Thanks, Diane

Subject: dietary restrictions

Good morning Diane,

I will be at the SEOC on Thurs 2/4 and Fri 2/5 for lunches. I really appreciate you watching out for me! This is a little late for today. For your notes-

I can have meat, fruits & vegetables that don't include:
-dairy (cheese, some dressings & sauces)
-wheat (bread, tortillas, croutons, breading, baked goods, some sauces)
-egg (mayo, some dressings)

The list is a bit restrictive. I'm also a big fan of leftovers. Rumor has it, there is roast beef ☺ in the fridge.

Thanks,
Connie

Subject: Food Invoices

Hi Michelle,
Can you assist me with two things:

Per our kitchen conversation, **PENN STATION** gave me an **8/21/15** invoice for **$138.67** for lunches I ordered for Northern MI Storm SEOC activation. I show it as having been processed, but my paperwork copies are packed already! Not sure if payment was sent or not. Is there a way to check on your end? Their **vendor I.D. is**

Secondly, I want to process an invoice from **PIZZA HOUSE** from **12/26/15.** Pam ordered lunches that day for SEOC staff for the winter storm partial activation. Do you know if there is a PCA and INDEX assigned to that emergency for coding purposes?

Thanks!

Originally DOC was going to staff it 7 days a week, but due to the low traffic and cost, we are looking at only staffing it those 3 days which means we'll only need meals there for those 3 days. I've cc'd Cindy who is working at Logistics so she can check with Mike Farmer, DOC, and he can confirm whether we can cancel them for Tues-Thurs as well. Thanks ladies. Sorry for the back and forth!

Can we please change the number of meals for warehouse 2 to 21 and now we are going 7 days a week starting tomorrow.

Thanks
Tonya

I called Spencer at BLACKSTONE. He confirmed he would cut back to feed eight (8) for JIC dinner tonight. I am not sure where JIC is located, but Spencer seems to know what he is doing. The original order for tonight was spaghetti, which is already meatless, so he said he would send some meatballs for those who can have them.
Please advise if this is incorrect.
Thanks, Diane

Subject: Flint locations and numbers Sunday food order
Attachments: Fint locations for disaster set up.docx

Since I won't be in Friday and Saturday I have attached the locations and amounts/days we are feeding the folks in Flint. I will be in Sunday morning so we should be all set.
No food for the JIC Union street SAT, SUN or MON
Lunch and Dinner set up for Friday and Saturday are standard through Blackstone's /Spencer like it has been every day.
Spencer was not available on Sunday so I set up food for Warehouse 1 at the following:
Panera/ Tina's number is I will follow up with an email. Mixed sandwiches and pops as usual.

Chris from White Horse Tavern # is 810-252-4777 to set up dinner.
They should be all taken care of.

Subject: Food Schedule for the Weekend

Good Afternoon Spencer
Just verifying food counts and days for the warehouse for the weekend.
Warehouse #1: 25 lunches and dinners every day including Monday holiday
Warehouse #2: 17 lunches and dinners Friday, Saturday and Monday holiday
No food for the Union State office Saturday, Sunday and Monday

Thanks

Subject: URGENT - Records Request

Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Good afternoon Don
Thanks for partnering with us to feed our employees who have been working endlessly in our office to help the Flint folks. Per your request I am sending you an email to confirm the order of 30 meals for dinner to our location:
7150 Harris Dr.
Dimondale, MI 48821

We were ordering Beef Brisket and 2 sides plus pops/water and plates/plastic ware. Can you please confirm 2 sides we chose? You are a direct bill as a state vendor, if you email me the invoices we can get them paid.

I have also attached our tax exempt form. As stated in our phone conversation Joyce McCarthy is on staff Wednesday her phone # is

Please let me know if you need anything else.

STATE OF MICHIGAN
DEPARTMENT OF TREASURY
LANSING

RICK SNYDER
GOVERNOR

ANDY DILLON
STATE TREASURER

Michigan Sales or Use Tax Single Purchase Certificate of Exemption Sales to the State of Michigan

Issued under authority of Section 4h of the General Sales Tax Act, MCL 205.54h

The State of Michigan is exempt from sales and use taxes imposed on its purchases of tangible personal property, or use tax imposed on its purchases of certain services taxed under the Use Tax Act (MCL 205.93a), being telecommunications, rooms or lodging, laundering or cleaning of textiles, and transmission and distribution of electricity.

NOTE: A vendor or contractor who provides a service of constructing, altering, repairing or improving real estate for the State of Michigan shall pay sales or use tax on the cost of materials affixed to the real estate in performance of those services. Tax is due on the cost of materials affixed to real estate regardless of whether the materials are purchased or owned by others, including the State of Michigan itself. Specific limited exemptions exist for non-profit hospitals, church sanctuaries, non-profit housing qualifying under Section 15a of 1966 PA 346 (MCL 125.1415a), etc.

The purchaser may claim a tax exemption at the time of purchase by providing the seller with this signed statement that the purchaser represents a governmental entity.

Purchaser's Certification

I, the undersigned purchaser, certify that the tangible personal property being purchased is not for resale, is paid for with government funds, and is used in connection with the operation of the governmental entity named below.

Name of State of Michigan Department, Institution or Agency Michigan State Police Emergency Management & Homeland Security Division	
Federal Employer Identification Number **38-6000134**	State Sales Tax Number **A-154961**
Name of Authorized Representative (Print or Type) PENNY BURGER	
Signature of Authorized Representative

Subject: Additional DCDS Coding - City of Flint
Attachments: Activity Tab DCDS.png

Good Afternoon:

The State Budget Office (SBO) has requested some additional coding in DCDS for staff that work on the City of Flint Water Emergency. We will still be coding all overtime costs to PCA 28670. But at their request, we will also be utilizing the "Activity" code in DCDS.

To enter Activity Code

- Open Employee Data Collection
- Click on **Activity Tab** of DCDS timesheet
- On the Unit Entry tab, under Activity column at left, enter F in drop down box and select **FDWP** when it appears.
- Enter total of "**regular and overtime hours**" related to the Flint Water emergency in cell for each date worked.
- These hours should match the total hours for each day you have entered into your timesheet.
- Save when you have entered your activity hours.

Again, this is only for hours spent working on the City of Flint Emergency and should begin with this current pay period. Please let me know if you have questions.

Thanks,
Penny

Subject: Special Coding - City of Flint bills

The State Budget Office has asked all state agencies to use a special "Multi-Purpose Code" in MAIN when paying bills (and reviewing for approval) related to the City of Flint Water Emergency. We will still be using PCA 28671 for non-payroll, but at their request please enter **FNT-WTR** in the Multi-Purpose Code section of MAIN. This is being asked of all state agencies.

If you have any questions, please let me know.

Thanks,
Penny

Ok DOC will not have anyone in warehouse 2 so please (if possible) have the meals sent over to warehouse 1. They will be located there job shadowing the other workers. Sorry for the change but thank you very much for your help! This change is ONLY for tomorrow (Sunday).

Cindy

How many people did you order meals for at warehouse 2? If DOC decides to cancel I'll let him know what we have and see if someone can meet them there and take the meals to the other site.

As I mentioned to you earlier, we will have to pay the vendor since we didn't give 48 hour cancelation notice. If you do decide to cancel meals to the warehouse #2, where would you like to have these meals delivered to instead (if possible).

Joyce

Subject: Meals at warehouse 2 (Old Kroger)

Change in plans, please cancel meals at warehouse #2 for tomorrow. The operations hours for that warehouse is Friday, Saturday and Monday. Originally DOC was going to staff it 7 days a week, but due to the low traffic and cost, we are looking at only staffing it those 3 days which means we'll only need meals there for those 3 days. I've cc'd Cindy who is working at Logistics so she can check with Mike Farmer, DOC, and he can confirm whether we can cancel them for Tues-Thurs as well. Thanks ladies. Sorry for the back and forth!

Subject: Meals at the new warehouse
Attachments: Kroger Warehouse Plan.docx

Ladies,

Please begin ordering lunch and dinner for the new warehouse staff as well....

We are requesting meals for approximately 17 personnel assigned to the Secondary Warehouse located at 2629 W. Pierson Rd. Meals will be provided to State Employees only, 7 days a week beginning January 6, 2016.

Thank you,
Wendy

State Emergency Operations Center
Logistics Section
517-284-3893 or 517-284-3892

Kroger Warehouse Plan
(Warehouse #2)

Mission

- Overflow for donated and un-palletized water from Clio Warehouse, Food Bank, etc.
- After expiration dates and recall notices have been verified, palletize and re-stock PODs.

Staffing

- DOC Manager
- DOC Supervisor for work crew
- 6 man work crew – DOC
- Adventists willing to assist with the warehouse. Tom Weber is coordinating with Mike from DOC on arranging having them work with current DOC warehouse managers.

Days and Hours of Operation (staggered with Food Bank)

- Fridays – 1 pm –6 pm (open to receive shipments)
- Saturdays – 12 pm - 6 pm (open to receive shipments)
- Mondays – 1 pm –6 pm (open to receive shipments)

Food Bank Hours of Operation

- Saturdays – 9 am – 3 pm
- Sundays – 9 am – 3 pm
- Mondays – 9 am – 4:30 pm
- Tuesdays – 9 am – 4:30 pm
- Fridays – 9 am – 4:30 pm

Intent

This warehouse is only for receiving and not for distribution, therefore will only be open during surges identified from the Food Bank's experience.

This site could turn into a POD as well and hours would be extended. With a large parking lot for citizens to safely park and walk in the front door to acquire filters, cartridges, and water. Also, a recycling center will be located in the parking lot.

Subject: RE: FOOD UNIT SCHEDULE - S DRIVE

Diane, I asked Michelle to stop by GFS and pick up water. There was only a few left from last night. Also, she is picking up sodas and one bag of ice if we have emergency need for it. I have been using the ice in the new refrigerators and it's working out very well.

Subject: FOOD UNIT SCHEDULE - S DRIVE

Joyce and Michelle,

IMPORTANT: I had been updating the FOOD SCHEDULE so it makes more sense and have now placed it on the **S: DRIVE** so we can all access it at any time.
Joyce -- I incorporated your changes but may not have done so accurately, so please double check.
Michelle -- Please add your food information and check your days off as well.

This schedule is now located at: **S: ADMIN / 1_FOOD UNIT Schedule_Flint WC** *(I put a "1" first so it would show up at very top of ADMIN location)*

Sorry for the inconvenience. I will review it one more time in the morning and then (Joyce) can print in color for our meeting. THANKS!

Hi ladies,
I brought tuna today to add to the salad. This is such a crazy list and poses some interesting ordering at restaurants. I feel so much better, so the benefits certainly out-weigh missing out on the really good stuff. Thanks again for all of your help.

I can have meat, fruits & vegetables that don't include:
-dairy (cheese, some dressings & sauces)
-wheat/gluten (bread, tortillas, croutons, breading, baked goods, most soups, some sauces)
-egg (mayo, some dressings)

Let me know if you have any questions.

Hi Connie,
I'm going to pass this information on to **Michelle Gilsdorf,** another EMHSD secretary who has been doing a great job ordering most all our food. She and Joyce are already aware you'll be periodically in the SEOC, so we'll probably always be prepared for you. Hopefully you can have some of the items delivered today from Saites. The roast beef has been transferred to our staff kitchen as leftovers today, but I can bring you some slices if you'd like ... just let me know.

Thanks, Diane

Good morning Diane,

I will be at the SEOC on Thurs 2/4 and Fri 2/5 for lunches. I really appreciate you watching out for me! This is a little late for today. For your notes-

I can have meat, fruits & vegetables that don't include:
-dairy (cheese, some dressings & sauces)

-wheat (bread, tortillas, croutons, breading, baked goods, some sauces)
-egg (mayo, some dressings)

The list is a bit restrictive. I'm also a big fan of leftovers. Rumor has it, there is roast beef ☺ in the fridge.

Thanks,
Connie

Subject: FOOD UNIT_Meals & Schedule Update

Michelle and Joyce,
Attached is new FOOD UNIT schedule with added columns. Please feel free to fill in missing information. I can't remember. Let's use this sheet to update as we go along and pass back and forth. We'll bring it to our periodic meetings, as it now has a "schedule" column. I do like to meet the vendor in person, if it's their first time coming here,

as I usually do Food Unit for exercise and drills throughout the year and that helps me. Both new vendors tomorrow (Grand Traverse Pie downtown and Fireside Grill) will be calling me as they are pulling up to the building, so I'll let both of you know.

MICHELLE: Please note I have **PIES** coming for lunch tomorrow (in case you were planning on ordering pies for any upcoming meals). I do not have any waters or pops coming for either deliveries though. We may need to go to Gordons for fruit and snacks anyway. Also, I know I have outstanding food invoices - will try to get those to you soon.

Hope my big FOOD UNIT binder will show up. I want to completely redo it and add all this new information we are obtaining.

Thanks, D-

Subject: RE: Food Unit

Today only. We sometimes experience a surge of VIPs and need to accommodate. Dinner will be back to normal.

So this increase was only for today, or from this point forward?

I got Ron's email and voice mail and upped the amount to 20 and texted him back. Sorry about that he caught me driving to Collins.
I am including this contact info to Joyce and Diane in case someone can't get in touch with me again. My contact out there for their food is the Spencer, the manager at Blackstone's his # is 810-610-2415. I have been strictly ordering from him and he has covered the 25 at the warehouse and 15 at the JIC weekdays for lunch and dinner and also 25 at warehouse for weekends.

Ladies,

I'm not sure who is working on this...

Can you please let me know who is handling? Thanks.

Wendy

Hello,

Could you please have the Food Unit boost our lunch count to 20? I'm having a hard time getting through to Michelle Gilsdorf.

Thanks,

Ron

Subject: FOOD UNIT_Meals & Schedule Update

Michelle and Joyce,
Attached is new FOOD UNIT schedule with added columns. Please feel free to fill in missing information. I can't remember. Let's use this sheet to update as we go along and pass back and forth. We'll bring it to our periodic meetings, as it now has a "schedule" column. I do like to meet the vendor in person, if it's their first time coming here, as I usually do Food Unit for exercise and drills throughout the year and that helps me. Both new vendors tomorrow (Grand Traverse Pie downtown and Fireside Grill) will be calling me as they are pulling up to the building, so I'll let both of you know.

MICHELLE: Please note I have **PIES** coming for lunch tomorrow (in case you were planning on ordering pies for any upcoming meals). I do not have any waters or pops coming for either deliveries though. We may need to go to Gordons for fruit and snacks anyway. Also, I know I have outstanding food invoices - will try to get those to you soon.

Hope my big FOOD UNIT binder will show up. I want to completely redo it and add all this new information we are obtaining.

Thanks, D-

Subject: RE: VENDOR Flint Meals SEOC
Attachments: VENDOR Flint Meals SEOC.docx

I put info in if you want to copy and paste it then send me the lasted version that would be great.

I'm so not sure what to do Sunday Superbowl. Nancy/Saites said she could do dinner but would like a break for lunch. I was thinking pizza or Qdoba for lunch and find something from Saites for dinner.
Did you get a chance to talk to the neighbors Firehouse.
Thanks
mg

Do you want to code this one to that way it is less confusing. Panera from 1/31.
Thanks
Michelle

Ok this is what I got entered so far. Qdoba doesn't pick up their wire racks for the chafers so we can decide what to do with them?
Going to clean the coffee things and go home tired.
Yeh Happy Monday.
We made it through.
You guys missed it I brought the cooler over to dump the water out of and add more pop and ice. I hit a rock and the cooler dumped all the ice/water all over lid flying. Trever saw me and helped in the dark.
That's one way to clean a cooler, luckily I had taken all the pops out and put them on the counter for people to take before.
Nothing left of Qdoba it all went.

Well, here's what I know, which isn't much:

1. Panera Bread does (517.819.5689). Call to ask about their hours for Sunday catering.

2. Grand Traverse Pie Company does (517-316-0900). Call to ask about their hours for Sunday catering.

3. I think Saites Brothers Catering (517-645-7879) does (they're in Potterville). Saites Brothers might even do Pizza for you, but I'm not sure, and I don't know whether they do Sunday catering.

4. Cottage Inn Pizza – Lansing (West)—I don't know if they do direct billing, but their number is (517-321-4800), so you'll need to call and ask them about the direct billing. Their Sunday hours are: 10:30 AM – 1:00 AM.

5. It seems to me Jet's Pizza does; their number in West Lansing is (517-323-2322). Their hours of operation on Sunday: Noon – 10:00 PM.

Hope this helps a little.

Hi there
Can you please send me a list of food vendors that direct bill for that location?
I will need to place orders for food starting Sunday and I will need to contact them.
I am especially looking for pizza?

Subject: schedule for the weekend

I am available for most the weekend.
I would prefer however to have one night free to see my family possibly Saturday night.
My kids don't usually get up until noon so working at night eliminates seeing them at all.
Diane let me know what works for you? I could work Saturday day and you could work the night.
I would like to go to church which I can do either Saturday evening or Sunday morning.

So let me know which one works for you as I know you guys also attend church.
Thanks

Transition of the Collins Road Kitchen to the new GOB today.

Today at approximately 3 p.m., we will be moving the kitchen equipment, food, coolers, coffee pots, etc. to the new building to ensure that everything is ready in the SEOC tomorrow. Some coffee and a few snacks will be kept in the SEOC for the late shift and some cold beverages will be in the refrigerator in the kitchen.

Dinner with beverages will be served at the usual time in the kitchen.

Oooh yummy. FYI - Jersey Giant didn't show for lunch today, so we had "emergency pizzas" and leftovers (they liked beans and potato salad and some boxed lunches). Just wanted you to know if case you see three pizza boxes in refrig. Got case of water from Pizza House too so that helped.

Subject: FOOD UNIT - VENDOR Tracking Sheet

Hi Michelle (cc: Joyce),
Per your request, attached is the current VENDOR tracking sheet so you can fill in your activity. FYI - If you notice a yellow folder in my in-box, it's probably the three pending invoices with Jackie's signatures. Feel free to take these and process. Also, on my counter is a folder for you containing copies of pending "sign in" sheets that need to go with the invoices received up through 1/24. After that date, you will need to make two copies of each of these daily sheets to attach to the meal invoices you and Joyce are covering.
I'll get copies of all invoices you have stamped and processed for me once we get settled at our new location (just so I'll have a complete record on my end).

Looks like the pop supply for the next four days is good. Hopefully the water will come in soon. If you have too many "treats," free to make a tray and put it on the counter area next to my office. People eat anything that is put there.

Thanks again for everything! I'll check in sometime next week. Will try to keep my phone on me at all times.

Per Carol's email to me below (and a conversation I just had with Tonya at my desk), I will order **lunches and dinners** through the **end of the day on MONDAY, JANUARY 25**. It would be helpful if one of you could order for the remainder of next week, that way you know the conversation and have control of things since you will be here for the deliveries, etc..

Let's make sure we have one of our little meetings on Friday to discuss this ...

Thanks, Diane

Diane
There is lots of left over hot dogs and some bread sticks from Howell Tomato Soup place that Sam's wife and son brought in. Left the aluminum pan in case we want to put hot dogs in the oven to heat up one day?
Also can you please email that vendor list? Sorry I can't see that you sent that or not and I was going to fill in the menu and vendor for the week. I already ordered from Nancy at Saites for next week every day but Tuesday Dinner which we will order the Meatloaf again as it was a big hit.
We left Friday open at the new SEOC and have an idea that Joyce is checking into for that day.
I can stop at Gordon Foods tomorrow after church if you text me a list after 10.
I know you need ice, water, fruit, maybe some pop. If you don't have enough water for tomorrow let me know and I will bring you some up?
I did not order any drinks for next week.
Good Luck next week let us know if you need anything? My husband drives right by there for work I can always send something with him to drop off.
See Ya

After FEMA has made their FINAL decision, can we all huddle first before saying or doing anything more with FEMA. I would like to keep the word "leftovers" out of the equation. Joyce, Michelle and I will be meeting sometime tomorrow morning so that might be a good time to discuss as a group.
Thanks everyone!

Okay . . . here is the final on this so we can stop beating it to death. I just asked Captain what was said to FEMA. They know we can't provide meals for them. Nancy – since you are the one who knows what you can and can't do as far as invoicing, please take the lead. Ask FEMA what they want to do – eat with us and get a bill or be on their own. We can give them ideas of where to order food if they want. One or the other – no in-between.

Captain told them that today's food orders were already in place and couldn't be changed, so they should plan on having dinner. That's it. Whatever is decided is done.

Thanks!! :)

Sent: Thursday, January 21, 2016 10:00 AM
To: Laban, Diane (MSP); Burger, Penelope (MSP); McCarthy, Joyce (MSP)
Subject: FEMA Food

Penny, Diane and Joyce
Captain had stopped by Diane's desk and wanted FEMA billed separate. Linda Pollack the lawyer from FEMA stopped over quickly to talk about food. Linda had asked me why I was asking, and I told her it was because she had inquired. She's going to talk to her people but as it stands now we couldn't find a way to have them pay as each person is responsible either via cash or charge to pay for their own meals.
Invoicing 10 people would not work for them. They are allowed to each individually accept a gift of up to $50 so we are wiping the past as leftover food or a gift.

Going forward If you could send her a list of vendors we order from and if you know a schedule when you order of the vendors that would be helpful.
They are on their own and if they want to call a vendor that you happen to be ordering from and have something delivered upstairs to them then they can do that. They have no way of paying a vendor for 10 people since they each pay on their own card or paying us.

For today she will let me know. I told her what we would do since we have already ordered is if our people get done eating usually around 1 we can tell them they have left over food and they can help themselves.
If you have any other ideas that would be great.
Thanks
Michelle

Just as a FYI. I know I ordered this but I was not really impressed with Amy's Mostaccioli and wouldn't order that again. The carrot cake tasted like they pulled it from a freezer and it was dry.
I also was working with FEMA about the food billing and we haven't come up with a solution yet. Will still work on that if they deem necessary.

> Hello Amy's Catering

There was no response from anyone regarding picking up the food trays from last night. I packaged all the stuff up and rinsed some of it off or dumped it down the drain. Some trays still have broccoli and rice in them.

I left my cell number . with the driver last night to give to the person who was working this morning. I also called this morning at 9 am and left a message on your voicemail. We would appreciate it if someone would come back the in the morning on next day and clean up; as we need to prepare for the next meal.

Action: I would appreciate it if someone from Amy's would come get them so they don't start smelling.

The chicken cordon blue was wonderful and people were very happy and grateful with the selection especially the vegetables. However, the top two trays of chicken were cold and the cheese inside was not even melted. I put them in the oven to get them warm, which was a little bit of a task as we are not set up for that. I was just wondering if there should have been two chafing fuels instead of one underneath the trays to help keep them warm?

Thank you for your service and partnering with us to help the people in Flint.

Diane, did you order coffee cups? We're running low and I don't know if you have some stashed somewhere. We have enough for today, but we will need some probably tomorrow.

Lunch and dinner has been ordered for tomorrow (1/18/16) for 50. Please advise if we need to include additional FEMA personnel to our count. We were originally told that we didn't have to provide meals for the FEMA staff. However, today they did have lunch with our group.

I would like to make sure we order enough meals for everyone.

Also, lunches and dinners have been ordered until tomorrow. We need to know if we need to continue to order meals for the rest of the week, etc.

Thanks, Joyce

Good evening,

Attached is the list of staff assigned to work in the SEOC through 1/31/16. The hours are 8 a.m. to 8 p.m. Lunch and dinner will be provided. As always, business casual attire is appropriate. No jeans for EMHSD staff.

For Fiscal, your names are not on this schedule but I know it has been worked out within the section for the appropriate staff to cover.

Thanks,

Penny

Michelle:

I received your message regarding our supplies. They will be picked up when we deliver tonight's meal. A message was left in regard to this information.

If you would like tonight's meal picked up before tomorrow's delivery, it will need to be picked up this evening.

Please advise pickup times with the delivery driver at 5:00.

In regards to yesterday's meal - all of the chicken was cooked for the same amount of time / temperature. It should not have needed additional cooking. I apologize that you were not satisfied. I will address this issue with my staff.

Should you have additional questions or concerns feel free to respond

Amy @ Amys Catering.

Hi
I just wanted to let you know that the schedule for food is incorrect.
Diane is to be the main point of contact is something on the food order needs changed as she is in charge of all food ordering/schedule etc.
Michelle is the main point of contact for Flint food.
The names that I had given Penny is who is on duty at Collins to set up during that shift. etc.
We made our shifts 7:30 or so-2pm and then 2-whatever.
Today I am on until 2 or so then Diane is coming in to take the afternoon shift.
Tomorrow is ok
1/18 Monday is Michelle am/Diane pm
1/19 Tuesday is Diane am/ Joyce pm
1/20 Diane all day
1/21 Joyce am/Michelle pm
1/22 Diane all day
1/23 Joyce am/Michelle pm

Thanks
Michelle

Subject: *Pizza House delivery lunch Sat 1/16*

Hi
Just for your records, Pizza House did not deliver water, but did not charge us for them either. The invoice is in the envelope you left for Panera with the tent labels for food. The amount you ordered was perfect.

Also, they did not deliver table settings so I used what we had left over previously.

FYI: The main driver forgot the drinks but had another guy coming behind him to bring them. He informed me when he got here that he remembered on his way.
All was good no problem the other driver showed up by the time we had everything set up.
Thanks
Michelle

Hello Amy's Catering

There was no response from anyone regarding picking up the food trays from last night. I packaged all the stuff up and rinsed some of it off or dumped it down the drain. Some trays still have broccoli and rice in them.

I left my cell number with the driver last night to give to the person who was working this morning. I also called this morning at 9 am and left a message on your voicemail. We would appreciate it if someone would come back the in the morning on next day and clean up; as we need to prepare for the next meal.

Action: I would appreciate it if someone from Amy's would come get them so they don't start smelling.

The chicken cordon blue was wonderful and people were very happy and grateful with the selection especially the vegetables. However, the top two trays of chicken were cold and the cheese inside was not even melted. I put them in the oven to get them warm, which was a little bit of a task as we are not set up for that. I was just wondering if there should have been two chafing fuels instead of one underneath the trays to help keep them warm?

Thank you for your service and partnering with us to help the people in Flint.

To: McCarthy, Joyce (MSP); Gilsdorf, Michelle (MSP)
Subject: FOOD UNIT Schedule (1/16 - 1/31)

Michelle and Joyce,
Attached is a blank schedule through the end of the month that I thought the three of us could sit down and confirm/fill in. **Can we meet in Terrace Room around 3 today?**

I shaded in yellow the times that are not good for me, but then again, they might not be for either of you too so I'm flexible. Note: The week of the Jan 25 (M-F only) I will be out at the GOB. My plan is to have all the lunches and dinners ordered so all you need to do is meet the delivery people, set up, clean up, etc. Of course, there is also the all-day coffee making, cooler and snack replenishing, and emptying waste baskets and bottle cans, etc.

Let me know what you think. Thanks

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Hi Diane and Joyce
Ron Leix from the JIC contact 125 E Union St Flint, has asked me the official way he should be contacting us.
JICManager@michigan.gov this should be the email we communicate through for them.
Michelle Kuzera is the contact at the local EOC address 1101 Beach St Flint
I told him the plan you had come up with here. With Diane being the main and Joyce and I are backing her up.

This is logistics
MSP-seoclgc MSP-seoclgc@michigan.gov

The same with Flint but I am the main and you guys can back me up.
I don't foresee me being gone for any reason but if I get hit by a bus or semi I have a book just like you Diane with vendors I have been using.

White Horse Tavern doing the big lunch of pasta for both. 172 people
Working on Jimmy John's possibly for dinner tonight have been 15 at local EOC Flint and 6 at JIC?
I am signed up for Panera tomorrow box lunches for 180 until I get a different count.
I have Red Cross signed up to bring them coffee and supplies today and tomorrow for lunch.
They finally got water delivered to them so they are set.
That's as far as I got.
Thanks
Michelle

Good Morning Diane,

Wondering would you like to be in charge of the food until from 1/16-1/31? Or would you like me to rotate with you and Michelle G? I am currently working on the schedule for the next two weeks.

Thanks
Tonya

Attachments: DCDS Hours Entry by Coding Block.docx

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

DCDS Hours Entry by Coding Block

(Last revised 1/28/14)

To change your default entry to Hours by Coding Block Entry:

1. Log into DCDS.
2. Select Options.
3. Check Hours by CB (Coding Block) Entry to change your default.

To enter **work** Hours by Coding Block (regular, overtime, comp time earned, etc.):

1. Open your time sheet as you normally do.
2. You should see an Hours Entry by Coding Block section above the time entry section. *The blue line is the active line.*
3. Click your cursor in the AY box and enter the last 2 digits of the appropriation (fiscal) year.
4. Tab to Index and enter your Index number.
5. Tab to PCA and enter the PCA associated with work you did for the number of hours worked that you worked on it.
6. Move down to the time entry section and select the appropriate Hours Type.
7. Tab to the appropriate day and enter the number of hours associated with the PCA you entered above.
8. Enter daily comments for each Hours Type.
9. Select Save.
10. At the end of the pay period, select Submit.

To enter hours for holidays, comp time used, annual leave, sick leave, school & community leave, bank leave time used, administrative leave, initial leave, jury duty, Plan A:

1. Check the "std" (standard coding) box under the Hours Entry by Coding Block section.
2. Move down to the time entry section and select the appropriate Hours Type.
3. Tab to the appropriate day and enter the number of hours.
4. Enter the required information for school & community leave. Required information includes all of the following: 1) name of the school or community activity sponsor; 2) name of the event; description of the volunteer services performed; and 4) the time period that the employee performed the volunteer services.
5. Select Save.

6. At the end of the pay period, select Submit.

To view your time sheet:

1. Select Reports.
2. Select Employee Data Collection.
3. Selection Option B - Detail Time (or Option A - Coding Block Detail Time).
4. Enter Department 55.
5. Enter Agency 01.
6. Enter TKU 044. (EMHSD)
7. Select the PP (pay period) End Date.
8. Select OK.

Diane,

Here is the food count for the remainder today through Sunday.

Please order enough lunches and dinner for 45 people (if this number changes I will let you know). I know we have dinner set up for Wednesday and Thursday of this week. We still need to figure out dinner for the other evenings.

Also are you in need of supplies? If so can you please send me an email.

Thanks

Subject: URGENT - SEOC Activation

On January 4, 2016, Genesee County requested that a "State of Emergency/Disaster" be issued by Governor Snyder. Today, the Governor issued a State of Emergency declaration. EMHSD will **activate the SEOC tomorrow at 0800** and will conduct a briefing at 0900 on the event. All state agencies will be represented. I ask that only those personnel requested to play SEOC roles and section managers attend the 0900 briefing due to space constraints. The initial focus of the SEOC will be to:

- Identify and implement any needed protective actions to protect public health and safety;
- Develop situational awareness;
- Develop understanding of technical aspects;
- Coordinate damage assessment;
- Coordinate public information; and
- Identify programs to assist in remediating damage.

If you have any questions, please let me know.

Hi Diane,

Per the below email, will you be available tomorrow to provide coffee? Also, we will know after the 9 a.m. briefing how long we will be going. We will then be able to determine whether lunch will be necessary.

Please let me know ASAP. Thank you. By the way, I'm serving as Logistics Chief...that is why I'm asking ☺

DINNERS

Confirmed by Amy via telephone
January 23, 24 and 25

Hi Amy,
Per your email this morning, I have been informed that we will require dinners through possibly January 31. For now, I would like to go ahead and place three orders for **DINNERS** from your company for **Saturday, 1/23; Sunday, 1/24; and Monday, 1/25 for 60 people**. They would be as follows:

Saturday, January 23 (5:00 p.m. delivery)
The Picnic Selection:

- Hotdogs
- Baked Beans
- Potato Salad
- Potato Chips
- *Cookies*
- Assorted Pops: Coke, Diet Coke Spite (NO LEMONADE or ICE TEA)

NOTE: I assume these will be disposable dishes, etc. so no next day pick up

Sunday, January 24 (5:00 p.m. delivery)

- Chicken Fajitas (chicken, peppers, onions)
- Spanish Rice
- Black Beans
- Soft Tortillas
- Salsa, Sour Cream, Shredded Cheese
- Cookies Tray
- Assorted Pops Coke, Diet Coke Spite (NO LEMONADE or ICE TEA)

Per Amy – cannot pick up until the delivery on Monday night

Monday, January 25 (5:00 p.m. delivery)

- Potato-Sage Crusted Chicken
- Rice
- *Hot Vegetable (**green beans**)*
- Tossed Salad
- Rolls and butter
- Dessert Tray (would love to have all **eclairs**)
- Assorted Pops Coke, Diet Coke Spite (NO LEMONADE or ICE TEA)

Please note delivery time each day would be **5:00 p.m.** There will be no security guard on duty for Saturday and Sunday deliveries, but if the delivery driver just presses the button at the gate, someone will buzz him/her in. My personal cell number is (Diane) in case there are any issues. It would be best if dishes can be picked-up the next day at 8:30 a.m., but we can always consult with you and/or the driver on the best time. It's just helpful to us to have the tables cleared by 10 am each day to make room for our lunches. .

Hope it's alright that I emailed you these orders. **Please advise that you have received them.** We can always talk soon via phone.

Thank you so much, **Diane (Office: 517-333-2749)**

Mail Code	E00

Manager Name	Phone	Email	Address
Amy Ramos	517-374-9774 FAX: 517-374-9764	Amy@AmysCatering.com	600 West Saginaw Street Lansing, MI 48933

NOTES:

- The delivery boy talks nonstop.
- They forgot rolls a lot and the signs for the drinks
- They didn't come get their dishes a lot of times.
- They put desserts on a big round glass tray that was heavy and dangerous since we had to clean up their dishes and put aside for them.

Order Ideas:

Orders include large tote of lemonade and iced tea which we eventually discontinued

- **Potato Bar / Salad / cookie tray**
- **Taco Bar**
- **Chicken Cordon Bleu**
- **Beef Stir Fry**
- **Chicken Fettuccini**
- **Meatloaf (Good)**
- **Mostacciole / meatballs (Wasn't impressive)**
- **Hotdogs / potato salad / baked beans / chips (hotdogs were white – boiled – didn't look good)**
- **Chicken Fajitas (GOOD)**

DESSERTS were always a mixture of brownies and/or cookies (Not impressive)

FIRESIDE GRILL

INFORMATION:

- The VENDORS below are registered in the STATE OF MICHIGAN M.A.I.N. system.
- We established an account with each of them under MSP/EMHSD and they allow us to pay upon receipt of invoice.
- Most invoices are given to us when the delivery is made; some come via email at a later date.
- The VENDORS must not include sales tax on the orders.
- The VENDORS must not include a tip on the orders (many list the "tip" ahead of time on their invoice as a "service charge" and that is fine.)
- Some VENDORS also include a delivery charge; but some do not.

Subject: FOIA REQUEST FOR RECORDS - DEADLINE 2:00 p.m. TODAY

Please remember to send Lori Hinkley **an estimate of the number of records** in your possession pertaining to the Flint water crisis.

"Records" is defined as: e-mails, hand written notes, documents, text messages and anything else pertaining to the Flint water crisis. This includes ALL records you've received or generated, including general govdelivery correspondence, news releases – essentially anything that says "Flint Water."

To recover deleted e-mails in outlook, go to your toolbar and select: Folder - Recover Deleted Items. This will provide you with a list of everything you have deleted within the last 30 days. Please recover all Flint related records and archive them for future reference and include them in your estimate to Lori.

You will need to send this information to Lori Hinkley **no later than 2:00 today**. Further information regarding the need for printing documents will be provided to you next week. We are only looking for estimates of the number of records right now.

Let me know if you have any questions.

Subject: URGENT - Records Request

Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years.** Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Subject: *Additional DCDS Coding - City of Flint*
Attachments: Activity Tab DCDS.png

Good Afternoon:

The State Budget Office (SBO) has requested some additional coding in DCDS for staff that work on the City of Flint Water Emergency. We will still be coding all overtime costs to PCA 28670. But at their request, we will also be utilizing the "Activity" code in DCDS.

To enter Activity Code

- Open Employee Data Collection
- Click on **Activity Tab** of DCDS timesheet
- On the Unit Entry tab, under Activity column at left, enter F in drop down box and select **FDWP** when it appears.
- Enter total of "***regular and overtime hours***" related to the Flint Water emergency in cell for each date worked.
- These hours should match the total hours for each day you have entered into your timesheet.
- Save when you have entered your activity hours.

Again, this is only for hours spent working on the City of Flint Emergency and should begin with this current pay period. Please let me know if you have questions.

Thanks,
Penny

Hi Guys,

We are looking for assistance to help us fill shifts in the SEOC for resource unit. This position would be working on tracking of commodities from the points of distribution and projecting future needs. The shifts in the SEOC would be from 8-2 or 2-8 and Sam or Zach would train you ahead of time. Please let me know your availability to assist for the next couple weeks and I will put a schedule together.

Please call my cell if you have any questions

Subject: Evening POD Distributions over time
Attachments: Analysis of POD activity after 5pm.xlsx

Hi Wendy,

I spent the afternoon building up a spreadsheet with distribution information for each POD location by hourly periods from 5pm to 9pm over the last two weeks (January 28 – today).

I added some graphs to help make sense of the data and discussed it with Sam. In a nutshell, less material is distributed as the evening wears on, but the volume has been consistent the last two weeks. The PODS are not significantly less busy than they were 12 days ago for any given time period. Sam is going to play with the numbers further over the weekend so check to see what he's got before you run with this information.

Subject: RE: SEOC Availablity

This is a simple answer and a complex answer, all at the same time...

The simple answer – I have no meetings scheduled during this time period and am available to work in the SEOC whenever needed, including weekends. I realize that some members of this division have worked extensive hours in the SEOC and wish to "do my share" to assist.

The complex answer – I was hired to work on the 4195 Hazard Mitigation Grants. All applications must be complete and submitted to FEMA in six weeks. There is a great deal of work to do and $25 million in grant funding at risk. I don't know how many hours I can give to the SEOC without putting my primary obligations at risk. I am forwarding this email to my unit manager to give guidance to the complex side of this answer.

Subject: It's Time to Move!

For your review

It's That Time! It's Time to Move!!!

As you may be aware, the **State Emergency Operation Center (SEOC)** will be relocating from 4000 Collins Road, Lansing to 7150 Harris Drive, Dimondale (known as the General Office Building – GOB) on Friday, January 29, 2016.

<u>All EMHSD staff ASSIGNED to work in the SEOC on Friday, January 29 for the Flint Water Emergency need to report to the new facility at 8 a.m.</u>

Please park in the standard area and enter at the main entrance of the GOB (see attached parking and entrance map). EMHSD staff will be on site by 7:45 a.m. to greet and escort you to the new SEOC.

Please be patient as we all learn our way around, and with new equipment. It may be necessary for us to assign "temporarily" locations of computers in the SEOC; therefore, your position may not be located in its permanent sitting position until early next week.

It has been mentioned to those working within the SEOC, it is important that you secure documents and files you may have stored on the PC's or desktops at Collins Road by saving to a memory stick or you may also talk to the IT support within the SEOC (Rich or Jaclyn) about saving information to the S Drive. You will most likely be working on a different PC, and we want to ensure you have the files you need to continue operations with as little interruption as possible.

Please return your ADT access card for Collins Road, by Thursday. A container will be placed near the SEOC sign in-sheet for this purpose.

New phone numbers will be established in the SEOC and will be provided as soon as permanent locations are set. Until then, we recommend using your cell if someone needs to contact you.

<u>Staff not assigned to an SEOC position on Friday, January 29</u>

By COB Thursday night, our janitorial staff will provide blue recycle bins throughout the building – marked for "trash". Please remove all trash by 10:00 am on Friday and place in these designated bins. She will also leave an extra

DTMB will begin tearing down computers early Friday morning, thereby making worktime on your PC uncertain. **Please accomplish tasks that need to be completed via your computer by COB Thursday.**

The balance of Friday will be used to scan the entire building to ensure all items are packed and ready for transport. This will begin early Friday afternoon. This will begin early Friday morning.

As noted previously, we **MUST** ensure there are no paperclips, staples, etc. left in our areas. All drawers, cabinets, shelves, and floors should be double checked. Refrigerators will need to be cleaned once again; NOTHING CAN BE LEFT BEHIND except for furniture that is not being relocated to Harris Rd.

An area has been designated in the kitchen for surplus....it is hopeful that you will not have much left by now, but if you run across small items that have been missed and are intended for surplus, please put them in this area. If it is a quality, useable item, please pack it for transport or take it with you.

Please ensure you have updated your voice mail message with your new phone #, noting that it will be effective on Monday, February 1. You will be able to check voicemail from Collins Rd for a very short time once we move.

Please leave your ADT access card at the desk of Pam Strobel before you leave on Friday.

You will report at your normal scheduled time to 7150 Harris Drive, Dimondale, MI on Monday, February 1. **Please DO NOT come in over the weekend as the movers will be unpacking and placing items throughout the weekend.**

Please park in the standard area and enter at the main entrance of the GOB (see attached parking and entrance map). Greeters will be on hand to welcome you to our new work site and find your designated workspace. Assistance will be available throughout the day to help with computers, phones, etc. if needed. A welcome mat will be on your desk indicating key items you need to be aware of. Please take a moment to look it over thoroughly.

This has been a big project for all, and we are confident you will find the new division location a welcoming and efficient area to accomplish all that you do. Be patient as we become acclimated. New phones and new workspace will take time to get accustomed to.

Thanks for all of your patience and hard work. It takes EVERYONE to ensure a smooth move.

If you have any questions, please contact me.

Subject: SEOC Procurement Training

Good morning Brianna,
As we discussed last week, I am concerned about our SEOC processes regarding the current SEOC activation. I have discussed with Tony the need for a training session regarding procurement, processes, internal controls and documentation and he has agreed. I would like to meet with you and Vickie Olivarez this week for a planning meeting. Vickie is already conducting a training at the GOB on February 4th and I would like to aim for that day as a training session for the SEOC.

Are you full-time in the SEOC? Will you have availability for a meeting this week? Is your calendar up-to-date or would you like to provide some available times?

Penny – Would you like to attend or have additional personnel attend?

Thank you,
Jackie

As we discussed last week, I am concerned about our SEOC processes regarding the current SEOC activation. I have discussed with Tony the need for a training session regarding procurement, processes, internal controls and documentation and he has agreed. I would like to meet with you and Vickie Olivarez this week for a planning meeting. Vickie is already conducting a training at the GOB on February 4th and I would like to aim for that day as a training session for the SEOC.

Are you full-time in the SEOC? Will you have availability for a meeting this week? Is your calendar up-to-date or would you like to provide some available times?

Penny – Would you like to attend or have additional personnel attend?

Thank you,
Jackie

Declared: January 16, 2016

SUMMARY

STATE: Michigan

NUMBER: FEMA-3375-EM

INCIDENT: Contaminated Water

INCIDENT PERIOD: April 25, 2014, and continuing

DATE REQUESTED BY GOVERNOR: January 14, 2016

FEDERAL COORDINATING OFFICER: David G. Samaniego
National FCO Program

DESIGNATIONS AND TYPES OF ASSISTANCE:

The Department of Homeland Security, Federal Emergency Management Agency (FEMA), is authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in the designated area. Specifically, FEMA is authorized to provide emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding.

This emergency assistance is to provide water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days for Genesee County.

OTHER: Additional designations may be made at a later date if requested by the state and warranted by the results of further damage assessments.

Note: This is an emergency declaration.

MEMORANDUM

TO: Chief Financial Officers and Human Resource Directors
All State Agencies

FROM: Michael J. Moody, Director
Office of Financial Management

SUBJECT: Flint Water Expenditure and Activity Tracking

In order to facilitate the tracking and monitoring of expenditures and activity related to the Flint water emergency, the Office of Financial Management (OFM) has established the following coding and processes. The coding and processes described in this memo will be used to track expenditures in MAIN and state employee activity in DCDS. Separate instructions regarding the tracking of outputs related to the Flint water emergency will be forthcoming.

Expenditure of Funds Appropriated in Public Act 3 of 2016

OFM has established a line item appropriation number (88500) that will be used for all appropriations included in Public Act 3 of 2016 (HB 5520). Each affected agency is responsible for submitting Electronic Budget Adjustment (EBA) documents using the appropriation number established by OFM and providing the necessary D23 coding for the funding source(s) identified in the appropriation act.

In addition to the submitting EBA documents, affected agencies must establish and use Program Cost Account (PCA) coding in MAIN to specify which of the activities identified in the appropriation act boilerplate are supported by expenditures. Each of the established PCA codes must include multipurpose code FNT-WTR. OFM will contact affected agencies within the next week to discuss establishment and use of the needed PCA codes in more detail.

Please note that these instructions apply only to funds appropriated in Public Act 3 of 2016. Additional instructions will be issued when future appropriations related to the Flint water emergency are enacted.

Expenditure of Other Funds

OFM has established MAIN multipurpose code FNT-WTR to be used by agencies to track expenditures of funds not appropriated in Public Act 3 of 2016 that are related to the Flint water emergency. FNT-WTR is a statewide multipurpose code that is available for use with any PCA code.

If your agency already uses multipurpose code in a manner that conflicts with using it as described above, please contact OFM as soon as possible to discuss alternative methods for tracking.

Tracking Time and Activity in DCDS

OFM has established a DCDS activity code (FDWP) that affected state employees should use to record the amount of time spent on activities related to the Flint water emergency. The activity code will be used to track employee hours devoted to activities related to the Flint water emergency. It is separate from and will have no impact on the expenditure tracking that will occur in MAIN. If employees are not familiar with the DCDS activity reporting process, the reporting is done biweekly on the "Activity" tab of the DCDS timesheet.

If you have questions regarding this memo, please contact Lora Mikula at 373-0447 or MikulaL@michigan.gov.

February 2, 2016

TO: State of Michigan Procurement Leadership

FROM: DTMB Procurement

SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must first be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

Emergency Purchasing Procedure:
Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

Subject: SBO/OIA auditors

Hi Jackie:

I just spoke to Bryan Weiler about Carol and Daphne coming here on Monday. He doesn't believe they'll need to be here very long because I have provided a lot of documentation and information for them in our meeting yesterday. They will be here around 9 am, will want to speak to me briefly after the 9:30 state agency briefing and then talk to you. He said they are going to want to reach out to the state agencies to see how they are tracking their costs and monitoring their budgets. I will give them the names of those I have been working with for each agency so they know who to contact.

So sounds like they won't be here too long or need much from us right out of the gate. Seems like it would be easier to just schedule a training for all state agencies to discuss and be done with it. Maybe I'll suggest that. Then we would have documentation from the SEOC that we did training.

Thanks,
Penny

Subject: Additional DCDS Coding - City of Flint
Attachments: Activity Tab DCDS.png

Good Afternoon:

The State Budget Office (SBO) has requested some additional coding in DCDS for staff that work on the City of Flint Water Emergency. We will still be coding all overtime costs to PCA 28670. But at their request, we will also be utilizing the "Activity" code in DCDS.

To enter Activity Code

- Open Employee Data Collection
- Click on **Activity Tab** of DCDS timesheet
- On the Unit Entry tab, under Activity column at left, enter F in drop down box and select **FDWP** when it appears.
- Enter total of "**regular and overtime hours**" related to the Flint Water emergency in cell for each date worked.
- These hours should match the total hours for each day you have entered into your timesheet.
- Save when you have entered your activity hours.

Again, this is only for hours spent working on the City of Flint Emergency and should begin with this current pay period. Please let me know if you have questions.

Thanks,
Penny

Subject: background checks

Hi Pam,
I need to determine if we have background checked the following two people: Daphne Hobson and Carol O'Calllaghan. They are with DTMB Office of Internal Audit Services (OIAS). They have previously performed audits at MSP, but I need to know if they are still cleared. They were assigned last week to conduct a consulting review. I just found out at a meeting this morning and they are already on-site. I need to know if we have to escort or they are cleared.

Your quick review is greatly appreciated!

Thank you,
Jackie

Hello Penny,
Just requested background clearance information on Daphne and Carol. Pam is out until tomorrow. I will let you know as soon as she lets me know! Will have to escort until then.
Jackie

Subject: RE: background checks

Daphne Yvette Hobson was printed/cleared 2/21/2008. No further action is needed.

I have no record of Carol O'Callaghan and do not see that she has been fingerprinted for any purpose.

Subject: background checks

Hi Pam,
I need to determine if we have background checked the following two people: Daphne Hobson and Carol O'Calllaghan. They are with DTMB Office of Internal Audit Services (OIAS). They have previously performed audits at MSP, but I need to know if they are still cleared. They were assigned last week to conduct a consulting review. I just found out at a meeting this morning and they are already on-site. I need to know if we have to escort or they are cleared.

Your quick review is greatly appreciated!

Thank you,
Jackie

Subject: background check

Hello Pam,
The DTMB-Office of Internal Audit Services (OIAS) is currently performing work (a consulting engagement) and will be working in the SEOC. The two auditors assigned are Daphne Hobson and Carol O'Callaghan. You checked the records and Daphne Hobson was previously checked and is still cleared, however, you do not have any records of a background check for Carol O'Callaghan. Would you please send the form/instructions for a background check to Carol?

Carol O'Callaghan O'CallaghanC@michigan.gov

Please let me know if you have any questions.
Thanks,
Jackie

I. Requestor Information

Requestor (Hiring Manager, Supervisor, or State of Michigan Contact)		Date
Agency	Division	Email Address

II. Applicant Information

Position	Type of Employment ☐ Temporary Employee ☐ Permanent Employee ☐ Contractor
Name of Applicant (Last, First, Middle)	
Home Address	
City	State / ZIP Code
Social Security Number	Date of Birth
Driver's License Number	Sex ☐ Male ☐ Female

Race
☐ American Indian/Alaskan Native ☐ Asian/Pacific Islander ☐ Black (African American)
☐ *Hispanic* ☒ *White* ☐ Other

III. Authorization

By signing this authorization, the applicant grants permission to the Michigan State Police (MSP) to conduct a fingerprint-based background check for the express purpose of determining whether the applicant is eligible to access criminal justice information systems and/or MSP facilities.

I understand the personal information and fingerprints submitted are used to search against criminal identification records from both the MSP and the Federal Bureau of Investigation (FBI). I hereby authorize the release of any records to the agency listed above. I further understand the MSP and the FBI may retain the information and fingerprints, as permitted by MCL 28.248 and the Privacy Act of 1974, 5 USC § 552a, for routine uses beyond the principal purpose listed above. Routine uses include, but are not limited to, disclosures to governmental authorities responsible for civil or criminal law enforcement, counterintelligence, national security, or public safety.

Applicant Signature: _____ Date: _____

28 CFR §16.34 - Procedure to obtain change, correction, or updating of identification record:
If any information is found that the applicant believes is incorrect or incomplete in any respect and wishes changes, corrections, or updating of the alleged deficiency, he/she should make application directly to the agency that contributed the questioned information. The subject of a record may also direct his/her challenge as to the accuracy or completeness of any entry on his/her record to the FBI, Criminal Justice Information Services (CJIS) Division, ATTN: SCU, Mod. D2, 1000 Custer Hollow Road, Clarksburg, West Virginia, 26306. The FBI will then forward the challenge to the agency that submitted the data requesting they verify or correct the challenged entry. Upon receipt of an official communication directly from the agency that contributed the original information, the FBI CJIS Division will make any changes necessary in accordance with the information supplied by that agency.

Hello Michelle,
Would you be able to do Penny and me a favor? Could you print and take the attached form into the SEOC and give to Carol O'Callaghan? Carol is one of the two OIAS auditors. She should be sitting in the back row on the right side of the SEOC. Please let me know when done or if you are unable to deliver.

Thank you,
Jackie

Good morning, Jackie.

I had an appointment so I didn't arrive to SEOC until later this morning and Carol is out today. I will be here until around 1:30, then will be heading downtown for training and will not return to SEOC until tomorrow. Thanks for touching bases with me, as we would like to get an understanding of the information the SEOC require from the departments so that we can consider that as we develop the template for the reporting model. We are especially interested in learning what information the SEOC needed from State departments during the initial response days, when the departments did not have or did not get supplemental appropriations.

Thank you,

Daphne

Subject: Flint Water Tracking and Reporting

Hello, Everyone.

I am following up to the email that Penny Burger, State Emergency Operations Center sent informing you that the Office of Internal Audit would be contacting you to discuss your department's expenditures related to the City of Flint Water Emergency. We have reviewed the worksheets that you submitted to Penny which summarizes the total expenditures to date. We will use these worksheets as a starting point for reviewing the Flint Water expenditures recorded in MAIN. We be contacting each of you to make arrangements for us to meet and obtain a description of purchases or services you incurred and the MAIN coding used to record the expenditures.

Our objective is to ensure that all agencies are consistent in tracking, monitoring and maintaining sufficient documentation for the Flint Water expenditures.

Carol O'Callaghan, Audit Specialist or myself, will be contacting you this week or early next week. If you have any questions or concerns you may email us or please feel free to contact me at (517) 285-8041 or Carol at (810) 348-4591.

Thank you,

Daphne Hobson
Audit Manager

Hello, Everyone.

I am following up to the email that Penny Burger, State Emergency Operations Center sent informing you that the Office of Internal Audit would be contacting you to discuss your department's expenditures related to the City of Flint Water Emergency. We have reviewed the worksheets that you submitted to Penny which summarizes the total expenditures to date. We will use these worksheets as a starting point for reviewing the Flint Water expenditures recorded in MAIN. We be contacting each of you to make arrangements for us to meet and obtain a description of purchases or services you incurred and the MAIN coding used to record the expenditures.

Our objective is to ensure that all agencies are consistent in tracking, monitoring and maintaining sufficient documentation for the Flint Water expenditures.

Subject: RE: Flint Water Tracking and Reporting

Hi,
Thank you, Thank you for trying to organize up-front what is being recorded in MAIN now!! We have direct services such as the MSD activities, but we are also granting money too. We are wondering what will be required to ensure we can provide the supporting documentation that will be eventually be requested. We just heard today that COBJ 8008 was required to be used on an EFT to Genesee ISD, so the EFT transaction bombed last night in MAIN because we didn't have 8008 on our 20 profile. So I'm all for working together and would like to meet with you.

We would like Alyssa Sagolla, Gary Schafer, Rose Zuker, Ann Mazurek and myself invited from MDE. If you would like, we can schedule the mtg.
Thanks
ann

Hello, Everyone.

I am following up to the email that Penny Burger, State Emergency Operations Center sent informing you that the Office of Internal Audit would be contacting you to discuss your department's expenditures related to the City of Flint Water Emergency. We have reviewed the worksheets that you submitted to Penny which summarizes the total expenditures to date. We will use these worksheets as a starting point for reviewing the Flint Water expenditures recorded in MAIN. We be contacting each of you to make arrangements for us to meet and obtain a description of purchases or services you incurred and the MAIN coding used to record the expenditures.

Our objective is to ensure that all agencies are consistent in tracking, monitoring and maintaining sufficient documentation for the Flint Water expenditures.

Carol O'Callaghan, Audit Specialist or myself, will be contacting you this week or early next week. If you have any questions or concerns you may email us or please feel free to contact me at (517) 285-8041 or Carol at (810) 348-4591.

Thank you,

Daphne Hobson

I have 26 emails with a total of 56 pages (the email and attachments).
Jackie Reese

From: Zarotney, Greg (MSP)
Sent: Thursday, February 11, 2016 5:01 PM
Subject: URGENT - Records Request
Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Capt. Greg Zarotney

Subject: RE: SEOC Status Reports

Hi Jackie:

Should have been three items for you to open. One has multiple tabs that roll up into a cost report, the other two are from state agencies just to show the details that back up their costs.

Carol and Daphne are supposed to be here at 9 am. I will take them to the SEOC and get you so we can talk to them. They said that they would talk to you after they talk to me, but you and I need to make sure we're on the same page so I don't see why we don't just sit with them together. I'll let you know when they get here.

Thanks,
Penny

Hello Pam,
The DTMB-Office of Internal Audit Services (OIAS) is currently performing work (a consulting engagement) and will be working in the SEOC. The two auditors assigned are Daphne Hobson and Carol O'Callaghan. You checked the records and Daphne Hobson was previously checked and is still cleared, however, you do not have any records of a background check for Carol O'Callaghan. Would you please send the form/instructions for a background check to Carol?

Carol O'Callaghan O'CallaghanC@michigan.gov

Please let me know if you have any questions.
Thanks,
Jackie

Subject: RE: SEOC Procurement Training

Jackie:

I received an appointment from Angela Dale this morning for a meeting on Flint Procurement for tomorrow afternoon at 3:00 pm. Sherri, Mr. Sible and Vickie are included in this meeting. I assume they want to discuss the concerns that you have as well. I think training is a great idea and I would also be happy to attend the training because there is always something valuable to pick up.

I was supposed to be out of the SEOC tomorrow as well, but that will depend on how Kevin is with filing our quarterly reports. But I will have to be gone for this meeting. Can we have you and Brianna in this meeting as well for discussion? Two birds with one stone??

Thanks,
Penny

Good morning Brianna,

As we discussed last week, I am concerned about our SEOC processes regarding the current SEOC activation. I have discussed with Tony the need for a training session regarding procurement, processes, internal controls

and documentation and he has agreed. I would like to meet with you and Vickie Olivarez this week for a planning meeting. Vickie is already conducting a training at the GOB on February 4th and I would like to aim for that day as a training session for the SEOC.

Are you full-time in the SEOC? Will you have availability for a meeting this week? Is your calendar up-to-date or would you like to provide some available times?

Penny – Would you like to attend or have additional personnel attend?

Thank you,

Jackie

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years.** Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an

additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Subject: RE: UPDATED Draft SEOC Schedule

Change to the plan for tomorrow.

Jim would like all ITSS staff **not assigned to an Flint Water Emergency Shift (12 hour shift)** to report directly to the new SEOC at Harris Road rather than report to Collins Road tomorrow (Friday, 1/28/2016).

Therefore, all ITSS scheduled to an 8 hour shift will report directly to Jim at the SEOC at 8 am tomorrow. If there is a surge in GIS requests I may pull staff, but the SEOC move has a lot of IT needs that only our staff can address.

There is no change for 12 hour shifts. You will report to the new SEOC to work GIS for the incident.

Subject: UPDATED Draft SEOC Schedule
Importance: High

Hello All,

There were three major issues identified with the schedule for the week:

1. We are moving Friday and the Big Bosses want all of the technical staff in on Monday to assist with Tech issues (sorry, just notified of this, this morning)
2. Matt has annual leave scheduled from Wed-Sunday
3. Malyssa is an avid football fan

As such, I've taken the 12 hour shift for Sunday, I am requesting addition DTMB support this week, and a few 12 hour shifts we moved.

Please let me know if there are any issues. I ensured that hours remained evenly distributed and under 60.

Also, for EMHSD staff. If you are on a 12 hour shift, please put that on your outlook calendars so that Jim can have situational awareness.

Also, know that although 8 hour staff members will report to Collins Road tomorrow to assist in building transfer. These staff will likely be unable use a computer and will likely be unable to support. If you are on a 12 hour shift you will report to the new SEOC.

Please let me know if there any issues with the changes.

Subject: Additional DCDS Coding - City of Flint
Attachments: Activity Tab DCDS.png

Good Afternoon:

The State Budget Office (SBO) has requested some additional coding in DCDS for staff that work on the City of Flint Water Emergency. We will still be coding all overtime costs to PCA 28670. But at their request, we will also be utilizing the "Activity" code in DCDS.

To enter Activity Code

- Open Employee Data Collection
- Click on **Activity Tab** of DCDS timesheet
- On the Unit Entry tab, under Activity column at left, enter F in drop down box and select **FDWP** when it appears.
- Enter total of **"regular and overtime hours"** related to the Flint Water emergency in cell for each date worked.
- These hours should match the total hours for each day you have entered into your timesheet.
- Save when you have entered your activity hours.

Again, this is only for hours spent working on the City of Flint Emergency and should begin with this current pay period. Please let me know if you have questions.

Thanks,
Penny

GOVERNOR'S CERTIFICATION FOR EIDL

1. The Governor must certify that at least five (5) businesses in the disaster area suffered SUBSTANTIAL ECONOMIC INJURY as a result of the incident.

2. The Governor must certify that the degree of Economic Injury suffered is so severe that financial assistance, at reasonable rates and terms is not otherwise available, thereby creating the necessity for Federal involvement in the form of subsidized loans.

3. The Governor's certification must be received by the SBA Field Office Center East Office within 120 days of the incidence period and must be accompanied by supporting documentation of individual small businesses; general industry statistics are not acceptable.

4. The supporting documentation must show substantial economic injury to at least one small business in each county, or political subdivision no larger than a county, being requested, with a minimum total of five (5) sample businesses in the aggregate.

Subject: Flint - Water contamination ---- Sample Package for Economic Injury Disaster Loan Declaration from SBA

Good Morning Tony,

We reached out to Jim Porcello who provided your name as a contact for SBA to provide information on SBA's program that may provide loan assistance to the Businesses of Flint due to the water contamination. Generally, under federal law, only natural disaster are eligible for disaster declarations; however, SBA has a program which the Governor certifies that at least 5 businesses in the disaster area suffered SUBSTANTIAL ECONOMIC INJURY as a result of an incident. The water contamination in Flint may fall into this category.

For clarification, the businesses only may seek assistance for economic injury. *Substantial economic injury* occurs when a business concern is unable to meet its obligations as they mature or to pay its ordinary and necessary operating expenses. Loss of anticipated profits or a drop in sales is not considered substantial economic injury for this purpose. However looking at a drop in sales, the length of time the business will be impacted, the type of business and typical business cycle of the industry, gives us the quickest way to determine if the injury is substantial.

Please do not hesitate to call. We will be happy to review your documentation, provide samples and review the letter for your prior to submission to Governor.

Please let us know if you have any questions.

Good Morning Tony.

Flint is getting a lot of press on the lack of assistance due to the water contamination. We were ask by our SBA Headquarters in Washington if the Governor's office was aware of the Economic Injury Program for businesses that could be declared by SBA with the appropriate letter of request and documentation by the Governor. We advised our Administraion that the SBA information was provided to Michigan. If you have not provided SBA information to Director Col. Kristie Kibbey Etue, please advise her so that the Governor's office can be alerted..

Please know that SBA is here to assistant within our authority with this incident.

Subject: RE: Flint - Water contamination ---- Sample Package for Economic Injury Disaster Loan Declaration from SBA

Attached is the documentation needed for the Governor to request an SBA Economic Injury Declaration.

The first two documents are the Estimated Disaster Economic Injury Worksheet with instructions. The State may use this form to assist in gathering the information from individual businesses to see if there is sufficient economic injury to request a declaration. The State normally sends this form to the County Emergency Manager for completion by each business (the County may call the business and get the information). This information is used to complete the second document (Governor's Certification of Economically Injured Small Businesses by County). These documents are not forwarded to SBA. An instruction sheet also attached.

The next document is a Governor's Certification of Economically Injured Small Businesses by County which must be completed and attached to the Governor's request letter.

The next document is a Governor's Certification Instruction Sheet for an SBA Economic Injury Declaration Request.

The last document is a sample letter of a Governor's letter for an SBA Economic Injury Declaration request.

For clarification, the businesses only may seek assistance for economic injury. Substantial economic injury occurs when a business concern is unable to meet its obligations as they mature or to pay its ordinary and necessary operating expenses. Loss of anticipated profits or a drop in sales is not considered substantial economic injury for this purpose. However looking at a drop in sales, the length of time the business will be impacted, the type of business and typical business cycle of the industry, gives us the quickest way to determine if the injury is substantial.

Please do not hesitate to call. We will be happy to review your documentation, provide samples and review the letter for your prior to submission to Governor.

Please let us know if you have any questions.

Hi Jim.

Nice to speak with you.

SBA may have an Economic Injury Disaster Loan Program to help the businesses with economic injury due to the water issue. The declaration is a Governor's certification and we will share and discuss the detailed information but I am not sure who to contact. Could you be of assistance with a contact person?

Thanks,
Brenda

Subject:	Flint - Water contamination ---- Sample Package for Economic Injury Disaster Loan Declaration from SBA
Attachments:	Instructions for Completing Worksheet.doc; Estimated Disaster Worksheet.doc; Governor's Certification 2 .doc; Governor's Certification for EIDL.DOC; Draft OH Auglaize-Mercer Governor's Req 10-18-10 .doc

Good Morning Tony,

We reached out to Jim Porcello who provided your name as a contact for SBA to provide information on SBA's program that may provide loan assistance to the Businesses of Flint due to the water contamination. Generally, under federal law, only natural disaster are eligible for disaster declarations; however, SBA has a program which the Governor certifies that at least 5 businesses in the disaster area suffered SUBSTANTIAL ECONOMIC INJURY as a result of an incident. The water contamination in Flint may fall into this category.

Under CFR 123.2 - What are disaster loans and disaster declarations?

It reads: "SBA offers low interest, fixed rate loans to disaster victims, enabling them to repair or replace property damaged or destroyed in declared disasters. It also offers such loans to affected small businesses to help them recover from economic injury caused by such disasters. SBA also offers interim guaranteed disaster loans, in participation with financial institutions, to affected small businesses ("IDAP loans"). Disaster declarations are official notices recognizing that specific geographic areas have been damaged by floods and other acts of nature, riots, civil disorders, or industrial accidents such as oil spills. These disasters are sudden events which cause severe physical damage, and do not include slower physical occurrences such as shoreline erosion or gradual land settling. However, *for purposes of economic injury disaster loans only,* they do include droughts and below average water levels in the Great Lakes or on any body of water in the United States that supports commerce by small businesses. Sudden physical events that cause substantial economic injury may be disasters even if they do not cause physical damage to a victim's property.

Past examples where SBA has issued a declaration include ocean conditions causing significant displacement (major ocean currents) or closure (toxic algae blooms) of customary fishing waters, as well as contamination of food or other products for human consumption from unforeseeable and unintended events beyond the control of the victims. Recently in the state of Ohio we provided assistance for the toxic algae blooms. (attached is the Governor's letter as a sample).

The Flint incident is man-made, studies indicate high levels of lead beyond the standard level, similar to water testing and results toxic algae bloom cited in the justification for the Ohio declaration. Small businesses, including restaurants that are now dependent on Flint Water may be economically impacted and eligible to apply for SBA loan assistance, if the Governor requested and received an SBA declaration.

The process may seem confusing; we are available to answer questions and assist you with the documentation and hopefully help keep it simple.

Notice 9000-1709, available on the SBA website. Individuals in receipt of this data are required to be familiar with the Notice, and to protect and dispose of the data in accordance with its terms. A copy of this advisory, and the deletion deadline must accompany any further distribution of the data.

Instructions for Completing the "Estimated Disaster Economic Injury Worksheet for Business"

Item 1

Line 1

Enter the property owner's name. If different than the business name, also enter the business name.

Line 2

If more than one owner, enter the co-owner's name or names

Line 3

Enter the street address of the business location.

Line 4

Enter the mailing address of the business

Line 5

Enter the telephone numbers of the business and owner's home.

Item 2

Line 3

Enter the date that the economic impact to your business due to the disaster started or is estimated to start. Economic impact can be defined as a decrease in revenues from normal levels resulting in decreased gross profit. Then enter the date that revenues and gross profits returned to normal levels. This date may be in the future and will require an estimate.

Line 4

Enter the business' revenues between the two dates you showed

Line 4

Enter the business' revenues between the same two dates of the previous year.

Item 3

Line 1

If you have business interruption insurance to cover losses due to the disaster, enter the amount received or anticipated. Enter zero if none.

Item 4

Line 1

Enter a brief narrative explaining how the disaster affected your business' revenues and operations

---

GOVERNOR'S CERTIFICATION OF ECONOMICALLY INJURED SMALL BUSINESSES BY COUNTY

Business Name & Address Contact Name Phone Number	**Gross Income** (Last Fiscal Yr.) (Indicate Month & Year)	**Gross Income** (Current Fiscal Yr. To Disaster) (Indicate Specific Date)	**Gross Income Forecast** (Disaster to Fiscal Yr. End)	**Estimate Insurance Recovery (Business Interrupt Only)**	**Estimated date when operations return to Normal** (Indicate Specific Date)
1 ( ) - $	Fiscal Yr. From _____ To _____	From _____ To _____	$		
2 ( ) - $	Fiscal Yr. From _____ To _____	From _____ To _____	$		
3 ( ) - $	Fiscal Yr. From _____ To _____	From _____ To _____	$		
4 ( ) - $	Fiscal Yr. From _____ To _____	From _____ To _____	$		
5 ( ) - $	Fiscal Yr. From _____ To _____	From _____ To _____	$		

There must be at least five (5) businesses to request a disaster declaration. There must be at least one (1) sample business for each county (or political subdivision no larger than a county) which the Governor is requesting be included in the disaster declaration. If the request is for (1) county, there must be at least (5) businesses within the county. If six (6) counties are being requested, there must be at least six (6) businesses, with at least one (1) in each county.

October 15, 2010

TED STRICKLAND
GOVERNOR
STATE OF OHIO

Mr. Frank Skaggs, Director
Field Operations Center – East
U.S. Small Business Administration
101 Marietta Street NW, Suite 700
Atlanta, Georgia 30303-2725

Dear Mr. Skaggs:

On June 21, 2010, a Toxin Advisory was issued by the Ohio Environmental Protection Agency for Grand Lake St. Marys in Western Ohio in response to the threat posed by a toxic algae bloom. The Advisory was upgraded on July 16, 2010, to a No Contact Advisory as subsequent water testing indicated significant levels of Microcystin and the presence of other toxins. This resulted in non-contact advisories being posted at the lake's state-owned beaches and docks and led to the cancellation of several revenue-producing outdoor and in-lake events.

At least 19 businesses in the area have been impacted by this event. A Sample Survey of these businesses was conducted by the Ohio Department of Development to determine the economic impact of those losses. The survey results, which are attached, show that 12 of the 19 businesses surveyed have a gross revenue loss exceeding 40% for the disaster period as compared to the same period in the preceding year.

Based on the survey, I hereby certify, in accordance with the Code of Federal Regulations, Part 123.3, that, in Auglaize and Mercer Counties more than five (5) small businesses combined, and more than one (1) individually, suffered substantial economic injury as a direct result of the toxic algae bloom that led to the initial Advisory on June 21, 2010. I further certify that the degree of economic injury suffered is so severe that financial assistance at reasonable rates and terms is not otherwise available, thereby creating the necessity for federal involvement in the form of subsidized loans.

Thank you for your timely attention to this request. I look forward to your response.

Sincerely,

Ted Strickland

Ted Strickland
Governor, State of Ohio

ESTIMATED DISASTER ECONOMIC INJURY WORKSHEET FOR BUSINESSES

Accurate responses to the questions below will assist in evaluating a request for an economic injury disaster declaration from the U.S. Small Business Administration.

1. Name of Property Owner: _____

   Name of Property Owner: _____

   Business/Property Address: _____

   Mailing Address: _____

   Telephone Numbers: Business:_____Home: _____

2. **Estimated Adverse Economic Impact**

   Did the disaster economically impact your business? If so, when did the impact start and end?

   _____ (month/year) to _____ (month/year)

   What were your business' revenues during that period? $_____

   What were your business' revenues during the same period of the prior year? $_____

3. Amount of business interruption insurance received or anticipated, if any: $_____

4. Provide a brief explanation of what adverse economic effects the disaster had on your business:

   _____

   _____

   _____

   _____

5. How many people did you employ **prior** to the disaster? _____

   How many people did you employ **after** the disaster? _____

If your business also suffered property damage, answer the following questions:

6. Estimated dollar loss to:

   Real property (building), if owned: $_____

   Contents (machinery and equipment, furniture and fixtures, inventory, leasehold improvements, etc): $_____

7. Insurance recovery received or anticipated for **property** damages: $_____

_____ _____

DCDS Hours Entry by Coding Block

(Last revised 1/28/14)

To change your default entry to Hours by Coding Block Entry:

1. Log into DCDS.
2. Select Options.
3. Check Hours by CB (Coding Block) Entry to change your default.

To enter **work** Hours by Coding Block (regular, overtime, comp time earned, etc):

1. Open your time sheet as you normally do.
2. You should see an Hours Entry by Coding Block section above the time entry section. *The blue line is the active line.*
3. Click your cursor in the AY box and enter the last 2 digits of the appropriation (fiscal) year.
4. Tab to Index and enter your Index number.
5. Tab to PCA and enter the PCA associated with work you did for the number of hours worked that you worked on it.
6. Move down to the time entry section and select the appropriate Hours Type.
7. Tab to the appropriate day and enter the number of hours associated with the PCA you entered above.
8. Enter daily comments for each Hours Type.
9. Select Save.
10. At the end of the pay period, select Submit.

To enter hours for holidays, comp time used, annual leave, sick leave, school & community leave, bank leave time used, administrative leave, initial leave, jury duty, Plan A:

1. Check the "std" (standard coding) box under the Hours Entry by Coding Block section
2. Move down to the time entry section and select the appropriate Hours Type.
3. Tab to the appropriate day and enter the number of hours.
4. Enter the required information for school & community leave. Required information includes all of the following: 1) name of the school or community activity sponsor; 2) name of the event; description of the volunteer services performed; and 4) the time period that the employee performed the volunteer services.
5. Select Save.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9

Subject: Revised: Volunteers needed for water resource teams in Flint

Note: Dates are January 14 and January 15.

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

EXECUTIVE ORDER
No. 2012- ??

ACTIVATION OF NATIONAL GUARD TO LUCE COUNTY and SCHOOLCRAFT COUNTY

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, Under Section 12 of Article V of the Michigan Constitution of 1963 the Governor is the Commander-in-Chief of the state armed forces and may call them out to execute the laws; and

WHEREAS, Section 151 of the Michigan Military Act, No. 150 of the Public Acts of 1967, MCL 32.551, authorizes the Governor to order to activate state service any members of the organized militia for service in the aid of civil authority in times of public danger, disaster, crisis, catastrophe, or other public emergency within the state; and

WHEREAS, by Executive Proclamation 2012-??, the Governor declared a state of emergency in Luce County and Schoolcraft County due to a wildfire that had consumed over 19,000 acres of land, causing severe damage and loss of property; and

WHEREAS, the wildfire continues to grow due to exceptionally dry and hot weather conditions and shifting wind patterns; and

WHEREAS, additional assistance is needed to supplement existing firefighting capabilities to lessen or avert the threat of a catastrophe, and to protect and preserve the lives and property, and public health and safety in Luce County and Schoolcraft County;

WHEREAS, by Executive Proclamation 2012-??, the Governor ordered, consistent with the Michigan Emergency Management Plan, that the Director of the Department of State Police, or her designee within the Department of State Police, coordinate and maximize all state efforts to assist political subdivisions and officials in Luce County and Schoolcraft County, and has authority to call upon all state departments and agencies to utilize available resources, including,

Executive Order No. 2016-0_
Activation of the National Guard to Assist in Responding to the Emergency Relating to the City of Flint's Water System

Whereas, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the State of Michigan in the Governor; and

Whereas, Under Section 12 of Article V of the Michigan Constitution of 1963 the Governor is the Commander-in-Chief of the state armed forces and may call them out to execute the laws; and

Whereas, Section 151 of the Michigan Military Act, MCL 32.551, authorizes the Governor to order any members of the organized militia to active state service in the aid of the civil authority in times of public danger, disaster, crisis, catastrophe, or other public emergency within the State; and

Whereas, by Executive Proclamation 2016-01 the Governor declared a State of Emergency in the City of Flint and Genesee County resulting from the City of Flint changing its water source from the Detroit water system to its own treatment plant drawing from the Flint River; and

Whereas, this resulted in increased lead levels in the water distributed through Flint's water system; and

Whereas, lead can be introduced to humans through water, and elevated lead levels can result in significant health impacts, particularly for children, pregnant women, and the elderly; and

Whereas, the State's first priority in addressing this emergency is to limit potential exposure to lead in drinking and cooking water by providing filters and/or bottled water to as

Guard that may be activated to state service to assist the City of Flint and Genesee County in accordance with the Michigan Emergency Management Plan.

3. The Michigan National Guard is activated until such time as determined by the Adjutant General, after consultation with the Director of Department of State Police, or her designee.

This Executive Order is effective upon filing.

Don,

I am interested in finding out how this was able to be pulled off? All MSP toll free numbers need to go through Communications since they are our responsibility and we pay for the services. I keep a very strict inventory on how these numbers are used. I am assuming they had the sending number (517-336-2692) forwarded to the multiple locations since that is what DTMB has control of. I would like that confirmed please.

Please ask this person to refer to Communications in the future.

Thank You,
Allison

HELP. CONNECT. SOLVE.

Under CFR 123.2 - What are disaster loans and disaster declarations?

It reads: "SBA offers low interest, fixed rate loans to disaster victims, enabling them to repair or replace property damaged or destroyed in declared disasters. It also offers such loans to affected small businesses to help them recover from economic injury caused by such disasters. SBA also offers interim guaranteed disaster loans, in participation with financial institutions, to affected small businesses ("IDAP loans"). Disaster declarations are official notices recognizing that specific geographic areas have been damaged by floods and other acts of nature, riots, civil disorders, or industrial accidents such as oil spills. These disasters are sudden events which cause severe physical damage, and do not include slower physical occurrences such as shoreline erosion or gradual land settling. However, *for purposes of economic injury disaster loans only,* they do include droughts and below average water levels in the Great Lakes or on any body of water in the United States that supports commerce by small businesses. Sudden physical events that cause substantial economic injury may be disasters even if they do not cause physical damage to a victim's property.

Past examples where SBA has issued a declaration include ocean conditions causing significant displacement (major ocean currents) or closure (toxic algae blooms) of customary fishing waters, as well as contamination of food or other products for human consumption from unforeseeable and unintended events beyond the control of the victims. Recently in the state of Ohio we provided assistance for the toxic algae blooms. (attached is the Governor's letter as a sample).

The Flint incident is man-made, studies indicate high levels of lead beyond the standard level, similar to water testing and results toxic algae bloom cited in the justification for the Ohio declaration. Small businesses, including restaurants that are now dependent on Flint Water may be economically impacted and eligible to apply for SBA loan assistance, if the Governor requested and received an SBA declaration.

The process may seem confusing; we are available to answer questions and assist you with the documentation and hopefully help keep it simple.

We are forwarding the documents for SBA to consider a request for an Economic Injury Disaster Loan (EIDL) declaration. In a disaster event such as the Flint water contamination, the state determines that there is sufficient major damage to businesses to justify a Governor's Certification to SBA. Note that general economic downturn would not be grounds for EIDL declaration.

Attached is the documentation needed for the Governor to request an SBA Economic Injury Declaration.

The first two documents are the Estimated Disaster Economic Injury Worksheet with instructions. The State may use this form to assist in gathering the information from individual businesses to see if there is sufficient economic injury to request a declaration. The State normally sends this form to the County Emergency Manager for completion by each business (the County may call the business and get the information). This information is used to complete the second document (Governor's Certification of Economically Injured Small Businesses by County). These documents are not forwarded to SBA. An instruction sheet also attached.

The next document is a Governor's Certification of Economically Injured Small Businesses by County which must be completed and attached to the Governor's request letter.

The next document is a Governor's Certification Instruction Sheet for an SBA Economic Injury Declaration Request.

The last document is a sample letter of a Governor's letter for an SBA Economic Injury Declaration request.

Thank you. It looks like there could be a fit, but we will likely appeal the denial of a Disaster declaration from the President, which I believe complicates matters. I will call this afternoon.

Subject: Flint - Water contamination ---- Sample Package for Economic Injury Disaster Loan Declaration from SBA

Good Morning Tony,

We reached out to Jim Porcello who provided your name as a contact for SBA to provide information on SBA's program that may provide loan assistance to the Businesses of Flint due to the water contamination. Generally, under federal law, only natural disaster are eligible for disaster declarations; however, SBA has a program which the Governor certifies that at least 5 businesses in the disaster area suffered SUBSTANTIAL ECONOMIC INJURY as a result of an incident. The water contamination in Flint may fall into this category.

Under CFR 123.2 - What are disaster loans and disaster declarations?

It reads: "SBA offers low interest, fixed rate loans to disaster victims, enabling them to repair or replace property damaged or destroyed in declared disasters. It also offers such loans to affected small businesses to help them recover from economic injury caused by such disasters. SBA also offers interim guaranteed disaster loans, in participation with financial institutions, to affected small businesses ("IDAP loans"). Disaster declarations are official notices recognizing that specific geographic areas have been damaged by floods and other acts of nature, riots, civil disorders, or industrial accidents such as oil spills. These disasters are sudden events which cause severe physical damage, and do not include slower physical occurrences such as shoreline erosion or gradual land settling. However, *for purposes of economic injury disaster loans only,* they do include droughts and below average water levels in the Great Lakes or on any body of water in the United States that supports commerce by small businesses. Sudden physical events that cause substantial economic injury may be disasters even if they do not cause physical damage to a victim's property.

Past examples where SBA has issued a declaration include ocean conditions causing significant displacement (major ocean currents) or closure (toxic algae blooms) of customary fishing waters, as well as contamination of food or other products for human consumption from unforeseeable and unintended events beyond the control of the victims. Recently in the state of Ohio we provided assistance for the toxic algae blooms. (attached is the Governor's letter as a sample).

The next document is a Governor's Certification Instruction Sheet for an SBA Economic Injury Declaration Request.

The last document is a sample letter of a Governor's letter for an SBA Economic Injury Declaration request.

For clarification, the businesses only may seek assistance for economic injury. Substantial economic injury occurs when a business concern is unable to meet its obligations as they mature or to pay its ordinary and necessary operating expenses. Loss of anticipated profits or a drop in sales is not considered substantial economic injury for this purpose. However looking at a drop in sales, the length of time the business will be impacted, the type of business and typical business cycle of the industry, gives us the quickest way to determine if the injury is substantial.

Please do not hesitate to call. We will be happy to review your documentation, provide samples and review the letter for your prior to submission to Governor.

Please let us know if you have any questions.

but not limited to, manpower, supplies, equipment, materials, or facilities, to assist with response to the state of emergency;

NOW, THEREFORE, I, RICHARD D. SNYDER, Governor of the State of Michigan, by virtue of the power and authority vested in the Governor by the Michigan Constitution of 1963 and Michigan law, order:

1. THE ADJUTANT GENERAL is directed to order to active state service, units and individuals of the Michigan National Guard which in his discretion he deems appropriate to meet general mission assignments as determined by the Director of the Department of State Police, or her designee within the Department of State Police.

2. The Director of the Department of State Police, or her designee within the Department of State Police shall coordinate and maximize all state efforts, including such units and individuals of the Michigan National Guard which may be activated to state service, to assist Luce County and Schoolcraft County and other units of government affected pursuant to the Michigan Emergency Management Plan.

3. The Michigan National Guard is activated until such time as determined by the Adjutant General, after consultation with the Director of the Department of State Police, or her designee within the Department of State Police.

This Order is effective upon filing.

Given under my hand and the Great Seal of the State of Michigan this twenty-fifth day of May in the Year of Our Lord, Two Thousand and Twelve.

RICHARD D. SNYDER
GOVERNOR

BY THE GOVERNOR:

SECRETARY OF STATE

many citizens of Flint as possible, to limit any potential exposure to lead in the City's water system;

Whereas, other priorities include: 1) directly informing as many Flint citizens as possible that filters, bottled water, information on lead, water testing kist, and other resources are available; and 2) directly providing ~~water testing kits~~resources to Flint residents and following up with those residents to ensure that the water supply for as many residents as possible are tested. These tasks require that personnel go door-to-door in large areas of the City;

Whereas, due to the significant level of human and other resources required for these tasks, additional assistance is needed to supplement existing personnel and equipment; and

Whereas, by Executive Proclamation 2016-01, the Governor directed that the Emergency Management and Homeland Security Division of the Department of State Police, coordinate and maximize all state efforts, and call upon all state departments and agencies to utilize resources at their avail, to assist the City of Flint and Genesee County pursuant to the Michigan Emergency Management Plan.

NOW, THEREFORE, in consequence of the above, I, Richard D. Snyder, Governor of the State of Michigan, pursuant to the Michigan Constitution of 1963, the Michigan Military Act, 1967 PA 150, MCL 32.501 *et seq,* and the Emergency Management Act, 1976 PA 390, MCL 30.401 *et seq*, do hereby:

1. Direct the Adjutant General of the Michigan National Guard to order to active state service units and individuals of the Michigan National Guard that, in his discretion, he deems appropriate to meet general mission assignments as determined by the Director of the Department of State Police, or her designee.
2. The Director of the Department of State Police, or her designee, shall coordinate and maximize all state efforts, including such units and individuals of the Michigan National

Hi Allison-

We can't have a toll-free number ring simultaneously to multiple locations, but we can use a feature called BRNA (Busy Ring No Answer) to route calls to a secondary or tertiary destination if the first termination rings busy or doesn't give answer supervision.

Let me know if you have any additional questions.

Thank you,

Subject: JIC e-mail accounts

Ron,
The JIC e-mail accounts are not accessible through the web they all have the same password which is Start123 when DTMB reset the accounts they did not force a password change so they cannot be changes for 15 days some of the accounts are full and will need to be cleaned out. I checked them out and they all work. The login will be MSPAD/Jicmanager and so on.

Michigan leaders to announce action plan for Flint drinking water

Friday, Oct. 2 at 1:30 p.m.
Local, state and federal leaders will host a press conference to announce a comprehensive action plan for addressing drinking water concerns in Flint. Participants will include:

- Harvey Hollins, Director of the Office of Urban Initiatives for Gov. Rick Snyder
- Dan Wyant, Director for the Michigan Department of Environmental Quality
- Nick Lyon, Director for the Michigan Department of Health and Human Services
- Dr. Eden Wells, Chief Medical Executive for the Michigan Department of Health and Human Services
- Dayne Walling, Mayor of Flint
- Other local, state and federal officials

Location:

Kettering University, Innovation Center
1300 Bluff St.
Flint, MI 48504

This is a media event open to credentialed news media only. Media who plan to attend this event should RSVP by noon Friday. Contact Rosemarie Olszewski at 517-284-6700 or olszewskir@michigan.gov.

Subject: Flint Water Issue Update
Attachments: Flint Filters Press Release 10515.pdf; FLINT WATER MEETING CTOBER 5 2015.pdf

District Coordinator, Lt. Roach, attended meetings today at Genesee Co DHHS and Genesee Co Untied Way referencer the continuing problem with Flint's water. The first meeting consisted of DHHS, Genesee County Community Action Resource Department **(GCCARD)**, Dept. of Human Services, Genesee CO Health Dept., Commission on Aging, Genesee County EM Jen Boyer, and a few other county depts. The distribution of filters was the main topic of conversation. Lt. Roach learned that so far 20,000 Britta faucet filters were purchased from Home Depot with the million dollars the state provided. The filters are in Flint and will be housed at the GCCARD warehouse awaiting distribution. Genesee Co Public Health Dept is taking the lead on public messaging/press releases.

Overall, it was a fairly productive meeting. Everyone from this meeting headed over to the next meeting at the United Way in Flint. Reps from the United Way ran the meeting which also included reps from the school district, public housing, and one rep, Sean Kammer, Asst to the City Administrator at the City of Flint. Unfortunately, Sean left early and requested he be emailed the information. Once again, a fairly productive meeting with distribution being the main topic of conversation, the use of volunteer groups to help install filters for elderly clients, school distribution, and public education/messaging. Much was worked out for distribution with it starting with priority groups. Attached is a summary of the meeting.

Today, 1800 filters were being distributed to Flint Public Housing including Section 8 housing with the agreement their building maintenance will install the filters for those who cannot. Other priority groups should start in the morning. It was also requested the UPC codes be blacked out so returns could not be made to Home Depot. Zero Water is providing filtered cups for after school activities and athletes. All classrooms will get filtering units with a 24 cup capacity. There are talks of filters for all drinking fountains. For those who cannot attach a regular filter to their faucet, ZeroWater filtered pitchers are going to be supplied. United Way ordered some today and may be in this week. Under sink filters will not be purchased due to cost and potential installment issues. Brita filter pitchers do not meet lead standards so they will not be used.

Jen Boyer has reached out to volunteer groups (CERT, VDF) for help with installments of filters for elderly or special needs people. There are also talks by the City of Flint water dept. of connecting outdoor faucets so people can go fill jugs for free. This may be decided by the end of the week. This water is good since it isn't going through any distribution pipes. Lt. Roach advised there were talks of military water buffalos were brought up for water distribution for possibly the next week while the city works on getting their outdoor faucets figured out. I believe there may be other alternatives before we do this but I will get the NG as the water buffalos and any water distribution from them would need to be certified and that may take a couple days.

Genesee Co Public Health Dept is taking the PIO lead with help from the PIO from the United Way, Tom Wickersham. Tom is a PIO for GM and volunteers for the United Way. 211 will be used as well as some websites to advise of distribution points and as well as education. Right now 4 points will be used :2 DHHS offices, and 2 GCCARD locations. The Genesee County Community Action Resource Department **(GCCARD)** is an organization of individuals whose overall goal is to eliminate barriers and level the playing field for the poor, seniors, children and the hard to serve population of Flint and Genesee County. These opportunities may include pre-school training through our Head Start department for the young; receiving additional and/or job training in order to find a permanent job; seeking and finding

of adequate housing if displaced; receiving of nutritional meals delivered on a daily basis, or receiving home improvement repairs when necessary.

A few areas of concern: lack of participation by the City of Flint government. The representative for Flint left early today with really not contributing anything to the effort while he was there. Ginna Holmes (DHHS) knows the Flint Mayor and is reaching out to him today ref this issue. The other area is people in the group expecting the state, namely Emergency Management, to run the meetings and the event. Lt. Roach explained we will not be running either but will participate and be a resource as much as possible. This is a local EM/public health issue unless it is determined we are taking the lead. Lt. Roach believes the Co Public Health Dept is going to take a lead role with help from others. Ginna Holmes and Jen Boyer will work closely with them along with DHHS. They have another meeting scheduled for Thursday at 10:00am at the United Way in Flint and Lt. Roach will be there and we will stay engage to assist. The United Way has done a tremendous job so far with this incident according to Lt. Roach.

Below are some notes on the attached press release reference the filters:

- Free water filters will be available to current Michigan Department of Health and Human Services clients and Flint residents at four locations beginning Tuesday, October 6, at 9 a.m. through a partnership between the MDHHS and the Genesee County Community Action Resource Department. Free National Sanitation Foundation certified water filters are being provided to Flint residents as part of the administration's comprehensive approach to addressing water concerns in the area.

- Current MDHHS clients are encouraged to visit either the 125 E. Union St. or 4809 Clio Road MDHHS office location to obtain a free, certified home water filter. Residents who are not currently enrolled in MDHHS assistance programs should visit the Genesee County Community Action Resource Department offices located at 2727 Lippincott and 601 North Saginaw in Flint. Staff will be onsite at all four locations from 9 a.m. to 4 p.m., Monday through Friday, to distribute filters and assist residents who have questions about proper installation.

- MDHHS clients in the city of Flint who are active Family Independence Program (FIP), Food Assistance Program (FAP), Child Development and Care (CDC), State Disability Assistance (SDA), or Social Security Insurance (SSI) recipients should bring valid identification and a copy of their water bill to their local MDHHS office to receive their filter free of charge. Flint residents who are not active MDHHS clients should bring identification and their water bill to the GCCARD location.

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF HEALTH AND HUMAN SERVICES
LANSING

NICK LYON
DIRECTOR

FOR IMMEDIATE RELEASE
October 5, 2015

CONTACT: Jennifer Eisner
(517) 241-2112

Water filters available for MDHHS clients in Flint beginning Tuesday

LANSING, Mich. – Free water filters will be available to current Michigan Department of Health and Human Services clients and Flint residents at four locations beginning Tuesday, October 6, at 9 a.m. through a partnership between the MDHHS and the Genesee County Community Action Resource Department. Free National Sanitation Foundation certified water filters are being provided to Flint residents as part of the administration's comprehensive approach to addressing water concerns in the area.

Current MDHHS clients are encouraged to visit either the 125 E. Union St. or 4809 Clio Road MDHHS office location to obtain a free, certified home water filter. Residents who are not currently enrolled in MDHHS assistance programs should visit the Genesee County Community Action Resource Department offices located at 2727 Lippincott and 601 North Saginaw in Flint. Staff will be onsite at all four locations from 9 a.m. to 4 p.m., Monday through Friday, to distribute filters and assist residents who have questions about proper installation.

"Ensuring that families in the Flint area have access to resources that will help reduce the potential for lead exposure is our top priority," said Nick Lyon, director of the MDHHS. "I want to thank our partners who have mobilized to make water filters available – a point that highlights the importance of continued collaboration at the local, state and federal level as we move forward."

MDHHS clients in the city of Flint who are active Family Independence Program (FIP), Food Assistance Program (FAP), Child Development and Care (CDC), State Disability Assistance (SDA), or Social Security Insurance (SSI) recipients should bring valid identification and a copy of their water bill to their local MDHHS office to receive their filter free of charge. Flint residents who are not active MDHHS clients should bring identification and their water bill to the GCCARD location.

Although blood lead levels throughout the city of Flint have remained steady, last week, MDHHS data was found to be consistent with a recent Hurley Children's Hospital study indicating increased blood lead levels in children residing in two Flint ZIP codes after a 2014 change in water source. While lead paint remains the number one cause of lead poisoning in Michigan, the recent data prompted MDHHS to take action to reduce potential lead exposures through water sources.

MDHHS is urging parents in Flint and throughout the state to do their part in preventing elevated blood lead levels in children. For more information about steps you can take now, visit www.michigan.gov/lead, or contact your local health department. For updates on Flint water and available resources, visit www.michigang.gov/flintwater.

###

Water Filter Distribution

Funding Availability
$100,000 - CS Mott Foundation
$225,000 - private funding and grant requests to UWGC
$1,000,000 - from DHHS for filter purchase
$250,000 - from Community Foundation (not public yet)

Filters

- *1,500 were distributed through Concerned Pastors - Harvey has list*
- 4,000 given to Health Department will be distributing to special populations, started Saturday. There are 1,000 left. Working with Hurley to distribute through Healthy Start programs. *IT will be taking spreadsheet to see who has already received this.*
- Do not get Brita pitchers - they are not lead compliant
- 2,500 pitchers will be purchased by UWGC today

Public Housing is automatically going to get filters dropped today. Call Frank Woods to ask questions.

- Howard - 96 units
- Aldridge - 93 units
- River Park - 188 units
- Atherton - 192 units
- Scattered Sites - 68 units
- Garland - 40 units
- Forrest Park - 19 units
- Richert Manor - 132 units
- KMS - 159 units
- Centerview - 90 units
- Mince - 110 units

20,000 units through DHHS - housed at GCCARD

- Can be given to all residents
- 1,800 will be sent to Housing commission (section 8) today
- Veterans - there is a community department for veterans, these filters would secure through GCCARD.
- Health Dept needs some for their WIC department and wellness clinic and kidney dialysis centers. DHHS will supply filters to health dept to fill this need.
- Senior Citizens - Meals on Wheels - 653 households, will be distributed through GCCARD filters
- Family Service agency - 800 seniors are helped through this program, GCCARD will reach out and make sure there is not a duplication with Meals on Wheels. This group of residents a special plan will be put together for install through seniors homes.

- Senior Resident Communities - can we give filters to these housing facilities and can their maintenance person install. Health Dept will get those contacts to GCCARD.
- 20,000 vouchers will be distributed through case workers - vouchers will be received at DHHS today.
- DHHS clients will be able to receive their filters from either office as early as tomorrow. GCCARD will be available in those lobbies as well for non clients.
- Home Depot can deliver for FREE water filters to site

5,000 donated to UWGC from Zero Filter for after school and UWGC is purchasing one picture for every classroom at cost from Zero Filter to Flint Community Schools - we are also looking at purchasing one filter for every faucet, those filters are $250 each. UWGC will order today and they should be delivered by Wednesday.

City of Flint Water Dept - we have asked city to allow residents to come to the City of Flint Water plant and fill jugs of water. City of Flint plans to have a plan put together by week end.

UWGC has requested the state to appoint a full time emergency person to convene these meetings.

October 3, 2015 Distribution
Lead Agency - Genesee County Health Department
Distribution Site - University of Michigan-Flint Recreation Center
Requirements

- Live within zip codes 48501-48507
- Currently pregnant, breastfeeding or formula feeding an infant
- Have a child between the ages of 0-5

One filter will be given per household
Filter name and model being given - Pur Ult Vert Mount Water Filter System
Quantity of filters being given - 4,000
Contact - Tamara Brickey 810.257.2629

2-1-1 will be phone number for residents to call
Site can be setup within 24 hours.
Distributions Points
Information that can be shared to public
Eligibility for filters - open distribution within zip codes
Questions - health specific (ex. can my child take a bath, how do I install filter, filter type or intake type, (filters will be faucet and pitchers only)

Subject: Flint Water Issue Update from District Coordinator

Last night I spoke with Lt. Roach to ensure we continued to be engaged at the local level as the Flint water issue progresses. She continues to attend the meetings and work with the local EM and United Way officials. She attended the Flint water meeting today at the United Way. All present watched the Governor's press conference during the meeting. Lt. Roach believes the information from Governor Snyder et al was a relief to the group. While all realize much work still needs to be done, she felt they are relieved to see a game plan from City Officials and Governor Snyder. There was no mention of EMHSD taking over the filter distribution like the other day by the United Way. She also asked everyone that attended, including reps from the United Way, if they were comfortable and confident with the current filter distribution method/plan/structure. All said yes. Additionally, she noted that Sean Kammer , city of Flint, was present and stayed for the entire meeting – which did not occur in the past and it was not received well by some at the meeting. Kammer also advised U of M was in the process of logging all the info regarding homes in Flint with lead piping into a computer program. The info is currently contained on index cards. That info will be readily accessible in short order and can be shared with other depts. I advised Lt. Roach that we could assist with GIS needs if it was needed.

Below is a brief summary from the meeting today:

- •Approximately 6,000 filters have been distributed to Flint residents/public housing through DHHS/GCCard
- •Additional priority groups were identified through 211 calls to the United Way:
  - non-senior homebound - Genesee Co Health Dept is working with hospitals and UofM Flint to get people identified and filters delivered
  - college students/international students in off campus housing - (some do not change address on driver's license to reflect they live in Flint)—Gcard was contacted during the meeting ref this and distribution is being worked on
  - no ID residents (some legal/some illegal) - United Way will handle distribution and use filters donated
  - licensed day cares - DHHS will work with LARA to contact and distribute filters
  - non-profits - the United Way will handle
- GCard advised that homebound seniors should all have received filters by today. Those needing installations are using volunteer plumbers and this has become problematic due to liability issues. This issue will continue to be worked on.
- Entering data into the shared distribution spreadsheet is time consuming due to the high volumes of people (This is done after distribution). It has caused a few people to receive two filters but that has only happened a few times.
- Zero Water will be providing filters for all Flint schools on Monday – 2500, 23 cup filtered pitchers and a large amount of filtered tumblers for After School Programs and athletes. Water donations for schools are high and the schools have no more room to store water so the area Food Bank is going to store it for them. A representative from Zero Water may be in town Monday
- There is no mandatory lead testing for schools - 4 Flint schools were recently tested and all were about normal testing with 1 being 100x the accepted limit. Further testing into the schools is going to be conducted.
- Even with the switch to Detroit water it is unknown what sediments will surface due to the switch.
- At least 1-2 filter cartridge changes are being planned for, however, only 9,000 replacement cartridges/filters are available in the entire U.S. United Way has already checked on this. First replacement may be in Dec (or earlier) with another possibly in February.
- 300 filters were distributed to the WIC program
- Genesee Co Health Dept is working with McLaren Hospital ref lead education so one message is being put out
- The Flint Mayor is holding a press conference on Monday to update the water situation (not sure where or when Monday)
- Genesee Co Health Dept is working with the Dialysis Center and UofM Flint on getting filters to homebound dialysis patients

There was a lot of discussion on getting filters to the priority groups listed above but all groups have someone assigned to them to tackle the task. Some seem to think the Mayor is going to announce Monday a new State Agency to help the cause or take the lead. Not sure what that is about and no one knew what agency. All agreed that no matter what comes out of the Mayor's announcement Monday they will forge on to get the job done. Overall, a productive meeting per Lt. Roach.

I have not heard anything reference EMHSD taking on a lead role but we will if needed or requested.

Chris

UD-040 (10/02)
MEMORANDUM

STATE OF MICHIGAN
DEPARTMENT OF STATE POLICE

DATE: January 11, 2016

TO: Department Members

FROM: Col. Kriste Kibbey Etue, Director

SUBJECT: Activation of State Emergency Operations Center

On January 5, Gov. Rick Snyder declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. By declaring a state of emergency, Governor Snyder has made available all state resources in cooperation with local response and recovery operations.

The declaration authorizes the Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD) to coordinate state efforts. In addition, Governor Snyder activated the State Emergency Operations Center (SEOC) to coordinate the action's of state departments in the state's response and recovery efforts.

The SEOC is the emergency operations center for the state of Michigan and is overseen by the MSP/EMHSD. The SEOC is supported by staff from MSP/EMHSD and staffed by members of state agencies and other partners for decision making and information coordination during disasters or emergencies in the state of Michigan.

On January 6, a State of Michigan Joint Information Center (JIC) was also established to lead the state's messaging and information response in support of the SEOC and in coordination with the Genesee County Emergency Operations Center and the City of Flint.

Going forward, to better coordinate the health and safety of the residents of Flint and to ensure they are aware of and have access to the resources available within their community, the SEOC will serve as a central point of coordination between the local and state response efforts.

The state of Michigan is working in full partnership with the Flint Water Advisory Task Force, all levels of government and water quality experts, to find both short-term and long-term solutions to ensure the health and safety of Flint residents.

As a resource, an informational flyer can be found here. For updates and additional information, visit www.mi.gov/flintwater.

Subject: Daily Report

This is the first of daily reports from me on activity and issues concerning the Flint water situation.

MONDAY

- The Governor & Flint Mayor Weaver held a press conference in Flint to stress the use of 211 for residents in need of water, detail the water distribution system, and clarify our coordination with FEMA.
- The SEOC is improving its restocking system to make sure no water resource sites run out of supplies. Part of that effort entails the SEOC expanding its partnership with the Red Cross, which is providing expertise on warehousing, inventory and transporting supplies in emergency situations.
- The SEOC began mapping lead service lines.

COMING UP TODAY:

- Home Depot is donating over 12,700 cases of water daily starting today
- Door-to-door teams had a kick off press conference at the Genesee County Community Action Resource Department, and began distributing water resources in neighborhoods.
- A PSA will be submitted to Comcast, with MSP Capt. Kelenske providing water resource information.

Jarrod Agen

Subject: Public Affairs staffing

All,

As Public Affairs continues to support the State of Michigan Joint Information Center (JIC) for the Flint water emergency, below are our staffing commitments through the end of the week:

Name	Wednesday Jan. 13	Thursday Jan. 14	Friday Jan. 15
Shanon Banner	JIC – Flint	JIC – Flint	PA – Lansing
Nicole Lisabeth	JIC – Flint	Pass day	JIC – Flint
Tiffany Brown	JIC - Flint	JIC - Flint	JIC - Flint
Sierra Medrano	PA – Lansing (remote: social media/mm)	PA – Lansing (remote: social media/mm)	Annual leave
Ron Leix	Pass day	JIC Flint	JIC Flint

Note that I am attempting to leave one communications representative in the Public Affairs office on all business days to handle non-Flint MSP issues. Please let me know if you have questions or concerns.

Thanks,
Shanon

Subject: Daily Update

Here is today's report on activity and issues concerning the Flint water situation.

TUESDAY

- The Governor issued an Executive Order to activate the National Guard, and requested FEMA support, which was approved. This was announced late, but digital and broadcast media picked up on it quickly.
- A Red Cross logistics planner from Washington DC has arrived to assist in streamlining the inventory and distribution process.
- Teams started canvassing Flint neighborhoods and handing out water resources and information. Thanks to mapping of households, it appears the number of households to visit has been reduced from 56,000 to 29,000.
- The National Guard will start arriving today, and staff up to about 30 people by Friday. With National Guard personnel handing out bottles of water from the five fire stations, Red Cross personnel will be freed up to go door-to-door in Flint neighborhoods.
- A PSA video was shared widely on social media

COMING UP

- A second warehouse opens today and will start receiving supplies.

Jarrod Agen
Chief of Staff
Governor Rick Snyder, Michigan
517-241-5599

Subject: Flint Water Volunteer Group
Importance: High

In reference to the message sent yesterday afternoon from Colonel Etue, please let me know ASAP if anyone from OOD will be volunteering. Inspector Marier is coordinating the names for both days.

Thanks,
Jo

Subject: Flint Water Detail

Attached is a list containing the names of those approved to participate in the Flint Water detail. In order to minimize travel time, location of the volunteers was considered. Each Bureau is responsible for notifying their respective staff members and arranging for carpooling to Flint.

Attire: Appropriate attire for the weather conditions. Jeans are allowable. MSP uniforms including fatigue uniforms are prohibited. Military Surplus attire or attire that could be mistaken as that of the National Guard shall not be worn.

All individuals assigned to work as the Water Response Team in Flint shall report to the Genesee County EOC by 9 am on Thursday and/or Friday.

Location:
Genesee County Administration Building
1101 Beach St
Flint, MI 48502
In the basement or level "G" if someone used the elevator

Parking is available at Trinity Church, on the corner of Beach and Eighth. It is two blocks southeast of the Admin Building.

Lunch will be served at the EOC, Genesee County Admin. Building.

Each enforcement member should bring their assigned radio.

Scott

Josephine,
I ran into Insp. Shaw, he said he wasn't sure how much room they have, but would try to squeeze me in.
Thanks,
Shannon

Subject: RE: Daily Update

Here are Wednesday's key actions and issues in the Flint water situation:

- The Governor announced at a Detroit press conference that Genesee County has seasonal spikes in Legionella cases in 2014 & 2015. At this time, the increase cannot be directly related to the change in Flint water supply due to a lack of clinical Legionella isolates during the time period.

- Request for federal emergency declaration is being prepared.
- Our team from the Executive Office briefed Flint area state legislators on all that's being done in Flint.
- More Michigan National Guardsmen will arrive in Flint.
- Flint Mass Transportation Authority will include Fire Station water resource sites on their bus routes.
- Coordinating donations/support from donor vendors Comcast, Penske, and Google.

Coming up:

- Preparing to boost door-to-door teams up to 20.

Subject: Re: Daily Update

Here is an update on Flint water emergency efforts:

- Twenty teams will go door to door this weekend, with Red Cross volunteers and more than 250 volunteers from the State of Michigan and their families.
- Since January 9, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:
    - More than 18,500 cases of water
    - Nearly 46,000 filters
    - More than 165,000 filer cartridges
    - More than 3,200 water testing kits

- Work continues on logistics for water distribution and with FEMA on the request to the President on a federal declaration of emergency.

Jarrod Agen

Chief of Staff

Governor Rick Snyder, Michigan

517-241-5599

Klotz, Josephine (MSP)

From: Etue, Kriste (MSP)
Sent: Monday, January 18, 2016 8:07 PM
To: Banner, Shanon (MSP)
Cc: Cwiek, Linda (MSP); Klotz, Josephine (MSP); Etue, Kriste (MSP)
Subject: Blog: Flint Water Crisis

Shanon:

Here is a Blog for next week. If you are going to ask someone else to work on this (because I know you are swamped in the JIC) - please let me know who will be doing this. Any changes (edits) I'd like to see before posting.

I emailed you the video that I'd like inserted (F/Lt. Kaiser) and will hopefully get the pictures from Ray tomorrow to sort through and get to you (or whoever...)

Thanks!

Hang in there girl - you are doing a fab job!! :)

Flint Water Crisis

Let me start by saying "Thank You" to every single MSP employee who has given of their time and attention to help the residents of Flint. A heartfelt appreciation to all who have been serving long hours within the State's Emergency Operation Center (SEOC) or at the local Emergency Operation Center (EOC), and in the Joint Information Center (JIC).

As you are aware on January 4, 2015, Genesee County declared a local state of emergency thus prompting the MSP to activate and open the SEOC. Under the direction of Capt. Chris Kelenske, the SEOC will coordinate all available state resources needed to help the residents of Flint with this water crisis. Governor Snyder declared a state of emergency on January 6; citing the urgency to get every resident a water filter in their home, to get their water tested, and offer blood testing for the residents as well.

This is a very real and serious issue. There will be the need for immediate action and long-term plans. I can assure you that the MSP is doing our part, enlisted and civilian members, to help with these response efforts and with the future recovery phase too.

----------***insert media Clip***----------

Take for example my department-wide request last week for volunteers to join the water resource teams to hand out bottled water, water filters, replacement cartridges, and home water testing kits. Within one day, there was an overwhelming number of MSP members who said they could help. Working initially in teams; walking door-to-door, talking to the residents and handing out supplies, I know we made a positive difference. I also know that many MSP continued to volunteer throughout the weekend and on Monday the MLK holiday as well.

----------***insert pictures*****----------

Even with a water-related crisis, we are called upon to help coordinate a solution. As I walked the streets of Flint and visited the Genesee County EOC last week, there were several moments that I had the opportunity to just watch MSP employees in action. Without hesitation you respond and get to work. As your Colonel I will tell you that I am proud to be part of the MSP team and love the opportunity of working with you.

Subject: Flint Status Update

All,

As of January 21, Rich Baird has assumed the Lead Point of Contact role for Flint. This has been communicated to the existing team working on the Flint water emergency. As of today, an office has been opened in the State of Michigan building located at 125 Union Street in downtown Flint. In addition to the individual team members listed below, a representative from DEQ, DHHS and the Department of Civil Rights will join Rich's team.

Per Rich, here is a list of the "Mission Flint" team and a summary of roles and responsibilities:

LG Calley—Will establish an office in Flint and provide input to POC Leader. He will also be focused on sustaining a quality partnership with Dr. Mona Hanna-Attisha and DHHS to attest to blood sampling protocols and interpretation, and begin executing additional monitoring/education and remediation for those impacted. He will also provide input and guidance to the EO communications team on ways to be more proactive with messaging and the public narrative (drawing attention to volunteers, community groups, and stories that are happening but not getting into the narrative).

Harvey Hollins—Harvey will continue (with R. Baird) to nurture a quality partnership with Mayor Weaver and her team, pastor groups, and provide grass roots community leadership so that we can stay acutely attuned to the needs of the Flint Community and bring resources to bear. Harvey will also serve as the co-facilitator for the FWIACC with the first meeting occurring on January 27.

Bill Nowling—Bill will step back from the role he is playing as Crisis Leader for Communications Department. Meegan Holland will work closely with LG Calley to improve (department wide) proactive efforts in messaging and narrative. Bill will approve all communications from our Flint Team. He will coordinate the Mercury team communications engagement and engage with Mark Davidoff and the Deloitte team to provide more support to Mayor Weaver (through his associate Ms. Cockrell).

Tori Sachs—Tori will continue playing a "utility" role on a variety of fronts, including supporting the philanthropic

campaign, eliciting University engagement (Community Scholars, etc.), monitoring vendors and follow up with third party validation groups, assisting with messaging and volunteer deployment, and supporting Col. Greg Durkac in tracking our critical matters and decisions organization framework.

Colonel Greg Durkac—SME for project management, logistics, and organizational frameworks for critical matters and decisions. He lives in Linden (just outside Flint) and is deferring his retirement for this assignment.

Captain Chris Kelenske--As Chris winds down from Phase 1 Emergency Stabilization, it is important he remain engaged as a spokesperson, coordination expert, and leveraging his expertise as we continue a different model of community outreach (testing, monitoring, engaging resources, etc.). He will also work with Harvey on the FWIACC and in continued community outreach.

Nat Forstner/Ben Geiger— Will take the lead on data collection, analytics, comparative interpretation and communication to Governor Snyder and principals. Need more benchmarking and historical data not just from Michigan but around the country.

Others who have agreed to engage as appropriate are Mike Finney (community outreach), Nick Khouri (treasury support and financing), Chris Rizik (Entrepreneurial recruitment and identification of venture capital/other capital) Peter Remington (Philanthropic and Campaign Strategy) and Matt Rizik (Intergovernmental relations City/County).

Clearly there will many more connection points as represented in the FWIACC but the above represent a type of "executive committee" to lead us into Phase 2 and 3 of "Mission Flint".

Please feel free to reach out to me, Rich or Jarrod if you have any questions or suggestions.

Thanks,

Beth

Subject: Flint Status Update

All,

As of January 21, Rich Baird has assumed the Lead Point of Contact role for Flint. This has been communicated to the existing team working on the Flint water emergency. As of today, an office has been opened in the State of Michigan building located at 125 Union Street in downtown Flint. In addition to the individual team members listed below, a representative from DEQ, DHHS and the Department of Civil Rights will join Rich's team.

Per Rich, here is a list of the "Mission Flint" team and a summary of roles and responsibilities:

LG Calley—Will establish an office in Flint and provide input to POC Leader. He will also be focused on sustaining a quality partnership with Dr. Mona Hanna-Attisha and DHHS to attest to blood sampling protocols and interpretation, and begin executing additional monitoring/education and remediation for those impacted. He will also provide input and guidance to the EO communications team on ways to be more proactive with messaging and the public narrative (drawing attention to volunteers, community groups, and stories that are happening but not getting into the narrative).

Harvey Hollins—Harvey will continue (with R. Baird) to nurture a quality partnership with Mayor Weaver and her team, pastor groups, and provide grass roots community leadership so that we can stay acutely attuned to the needs of the Flint Community and bring resources to bear. Harvey will also serve as the co-facilitator for the FWIACC with the first meeting occurring on January 27.

Bill Nowling—Bill will step back from the role he is playing as Crisis Leader for Communications Department. Meegan Holland will work closely with LG Calley to improve (department wide) proactive efforts in messaging and narrative. Bill will approve all communications from our Flint Team. He will coordinate the Mercury team communications engagement and engage with Mark Davidoff and the Deloitte team to provide more support to Mayor Weaver (through his associate Ms. Cockrell).

Tori Sachs—Tori will continue playing a "utility" role on a variety of fronts, including supporting the philanthropic campaign, eliciting University engagement (Community Scholars, etc.), monitoring vendors and follow up with third party validation groups, assisting with messaging and volunteer deployment, and supporting Col. Greg Durkac in tracking our critical matters and decisions organization framework.

Colonel Greg Durkac—SME for project management, logistics, and organizational frameworks for critical matters and decisions. He lives in Linden (just outside Flint) and is deferring his retirement for this assignment.

Captain Chris Kelenske--As Chris winds down from Phase 1 Emergency Stabilization, it is important he remain engaged as a spokesperson, coordination expert, and leveraging his expertise as we continue a different model of community outreach (testing, monitoring, engaging resources, etc.). He will also work with Harvey on the FWIACC and in continued community outreach.

Nat Forstner/Ben Geiger— Will take the lead on data collection, analytics, comparative interpretation and communication to Governor Snyder and principals. Need more benchmarking and historical data not just from Michigan but around the country.

Others who have agreed to engage as appropriate are Mike Finney (community outreach), Nick Khouri (treasury support and financing), Chris Rizik (Entrepreneurial recruitment and identification of venture capital/other capital) Peter Remington (Philanthropic and Campaign Strategy) and Matt Rizik (Intergovernmental relations City/County).

Clearly there will many more connection points as represented in the FWIACC but the above represent a type of "executive committee" to lead us into Phase 2 and 3 of "Mission Flint".

Please feel free to reach out to me, Rich or Jarrod if you have any questions or suggestions.

Thanks,

Beth

Subject: Flint Water Emergency

I would like you to schedule a meeting early next week (with all copied on this email) - to discuss the MSP's ongoing role with the Flint Water Emergency.

I would prefer everyone attend in person and no conference call for those invited.

I will create an Agenda of items to discuss.

If you want to put on EC meeting date (with specific time) that could work.

Thanks

Flint Water Daily Update
Updated Jan. 29

Current Issues Talking Points

Governor and DEQ encourage home water testing

- The health and safety of Flint residents remains a top priority. Pregnant and nursing mothers and young children should continue to drink bottled water as a precaution.
- It is essential that all Flint residents have the water in their homes tested as soon as possible.
- Free water testing kits are available at Fire Stations 1, 3, 5, 6, and 8. Water Samples should be returned to the fire stations for testing.
- Until water is declared safe, continue to follow established safety protocols.

Governor secures emergency supplemental to immediately aid Flint residents

- Snyder signs $28M Flint bill, hopes for safe water soon (Detroit News)
- The $28 million in funding will help address immediate needs for the people and families of Flint. It is a necessary next step in ongoing recovery efforts for the city.
- The Governor signed the legislation at the first possible opportunity, following its unanimous approval in both the House and Senate.
- The Flint water crisis was a failure of government at all levels – city, state and local. The governor has apologized and taken responsibility for the state's role in this failure.
    - Accepted the resignation of top DEQ officials and suspended two pending a civil service investigation.
    - Approved two emergency funding bills to support Flint residents (This $28 million and a previous $9.3 million in Oct. 2015).
    - Declared and extended a state of emergency for the city and activated the National Guard.
- To date, the Governor and Legislature have approved a total of $37.3 million in emergency funding for Flint while the federal government has earmarked only $5 million in assistance.
    - The Governor will continue to call on the federal government and our Congressional partners to secure additional funding to help address the long-term needs of the city.
- This $28 million in emergency aid will help:

- Supply free bottled water, faucet filters, and testing kits for Flint residents;
- Put nine nurses in local schools to monitor student health and well-being;
- Provide better nutrition for students and infants through WIC and in-school nutrition programs;
- Replace fixtures in schools, daycares, nursing homes and hospitals;
- Provide for an infrastructure study using independent experts;
- Treat any children who have high lead levels in the blood, using diagnostic testing, nurse visits and environmental assessments in the home;
- Provide additional community education opportunities within the Genesee County Health Department;
- Compensate the Michigan National Guard's work to support water distribution;
- Assist with home lead abatement costs;
- Help the City of Flint with utility issues;
- Provide operational funding for the Flint Interagency Advisory Committee.

- This funding package is just one step of many. Additional long-term resources will be needed as we work together to strengthen the city of Flint moving forward.

Fresh water in State of Michigan Flint office building was for all

- Amid denials state workers in Flint got clean water (Detroit Free Press)
- Fresh water in Flint State building was for all (ABC News)
- In January 2015, as a customer of Flint water, DTMB received a notification that the water system in Flint's state office building was found to be in violation of a drinking water standard.
- DTMB made the decision to provide an alternative drinking option for both building employees and public visitors.
  - Health of visitors was a top priority.
  - Approximately 500 visitors sign into the Flint office building every day. Many of which enter the building for access to DHHS services.
  - Those with an increased risk included people with severely compromised immune systems, infants, or the elderly. A large number of the clients using the DHHS services fall within those demographics.
- After receiving information from the city, verbally, in July 2015 that the water system issue had been addressed, the water coolers were removed.
- It wasn't until late Sept/Oct 2015 when the presence of lead in the water was confirmed that the water coolers were replaced.

Flint Water Daily Update
Updated Feb. 1

Current Issues Talking Points

Governor and DEQ stress importance of home water testing

- The health and safety of Flint residents remains a top priority. It is essential that all Flint residents have the water in their homes tested as soon as possible.
- While water filters will eliminate lead in most homes, those with levels above 150 parts per billion will need to take extra precaution.
- If levels are above 150 ppb, residents should not drink water from the filtered faucet and use bottled water only.
- DEQ and DHHS will visit homes found to have lead levels over 150 ppb for additional testing.
- To date, less than one percent of Flint homes have been identified as having lead levels of this amount. Results showing lower levels indicate residents should continue following established protocols.
- Pregnant and nursing mothers and young children should continue to drink bottled water as a precaution.
- Free water testing kits are available at Fire Stations 1, 3, 5, 6, and 8. Water Samples should be returned to the fire stations for testing.
- Anyone who is unable to get to a Fire Station to pick up a free testing kit should call United Way 2-1-1 for assistance.

Federal denial of WIC expansion for Flint children

- On Saturday, the federal government denied the Governor's request to use supplemental nutrition funding for Flint children up to 10 years of age who may have been exposed to high lead levels in the water.
- The governor has continually stated that the Flint water issue is the result of government failure at all levels. All levels of government should be committed to supporting Flint's families along their road to recovery.

- It is understood that WIC funding is generally meant for children five years old and younger, however this disaster calls for a waiver of this rule. Expanded nutritional support for children under 10 is essential to their long-term well-being.
- The Governor is urging the federal government to re-evaluate their denial of this funding.
- The state has provided more than $28 million for a short-term solution in Flint, but additional funding and collaboration is necessary to implement a successful long-term solution.

Flint Water Daily Update
Updated Feb. 2

Current Issues Talking Points

Flint Mayor calls for immediate replacement of Flint pipes

- In a press conference today, Flint Mayor Karen Weaver called for immediate replacement of Flint's water infrastructure.
- Immediately removing pipes could potentially add to the infrastructure problem and result in higher costs for the city.
- Both Senate Minority Leader Jim Ananich and Virginia Tech water treatment expert Marc Edwards advise first mapping the city's pipes to determine the location of lead infrastructure.
- Edwards also says the state is taking the correct actions to make Flint's water safe again. Adding phosphate to the water to coat the pipes is a necessary first step toward ensuring safe drinking water for Flint residents.
    - Flint's damaged pipes spark debate on fix (Detroit Free Press)
    - Prof. Marc Edwards discusses pipes in Flint (video)
- The Governor continues to work with Edwards and the Flint Water Interagency Coordinating Committee to identify and implement a successful long-term solution for Flint families.

Senate Minority Leader sends Governor Flint action letter

- The Governor's senior staff has been in close communication with state Sen. Jim Ananich and have met with him frequently to provide updates, answer questions and get feedback.
- The Governor remains committed to providing Flint residents with the resources needed to implement both short and long-term solutions and will continue to work closely with Ananich.
- The Governor will announce a long-term funding proposal in his formal budget presentation next week to further address Flint water.

DPS Emergency Manager Darnell Earley resigns

- Today, Detroit Public Schools Emergency Manager Darnell Earley resigned, effective February 29.

- The Governor will appoint a transition leader before the end of the month to help guide DPS through a plan that will help address the district's academics and finances giving students and teachers the learning environment they deserve.
- The Governor is encouraging the Legislature to pass a bill package that will help address the $515 million debt faced by DPS. With that support the district should be better able to manage its business and educational goals.

Governor continues to stress importance of home water testing

- A video with instructions on how to properly test home water is available to share: https://www.youtube.com/watch?v=QTER-DiK64o
- The health and safety of Flint residents remains a top priority. It is essential that all Flint residents have the water in their homes tested as soon as possible.
- While water filters will eliminate lead in most homes, those with levels above 150 parts per billion will need to take extra precaution.
- If levels are above 150 ppb, residents should not drink water from the filtered faucet and use bottled water only.

Flint Water Daily Update
Updated Feb. 4

Current Issues Talking Points

State Senate takes up and approves Governor's $30 million proposal to assist Flint with water bill payments.

- No family or resident should be required to pay for water that is or was unfit for consumption.
- Yesterday, the Governor announced a plan to request $30 million to assist the city of Flint with water bill payments. The funding would come in the form of a supplemental from the Fiscal Year 2016 budget.
- The proposal calls for a Consumption and Use Credit the city could use to relieve families of a portion of their water bills from April 2014 through April 2016.
    - A typical Flint resident's billing statement includes charges for water and sewer.
    - Under the plan, the funding would be made available to cover water used for drinking, cooking and bathing which is approximately 65 percent of the water portion of a residents' water and sewer bill.
    - Residents would still be responsible for the remaining balance of the water portion of a bill accounting for water used in ways that do not qualify as consumption.
    - Residents would be responsible for covering all sewer costs.
- The official request was to be part of the Governor's formal budget presentation next week on Feb. 10, the Senate took up the proposal and passed it unanimously today.
- If approved in the House, total supplemental emergency funding for Flint will total $67.3 million this fiscal year.

Legionnaires Disease

- As the Governor has said repeatedly, he was not briefed on this issue until January 2016. He took action promptly and released the information publicly.
- When Harvey Hollins received the March email, he requested the DEQ look into the concerns, check with its experts, and get the facts. If the concerns were determined to be credible, the director was to bring the issue to the attention of the Governor.
- The issue was not brought to the Governor's attention until January of this year.
- Gov. Snyder has made changes at the department to address these concerns and change the culture to best protect the well-being of Michiganders.

Republican and Democratic Presidential Debates coming to Flint

- It was confirmed today that both a Republican (Detroit) and Democratic (Flint) Presidential debate will take place in Michigan in early March.
- To date the Federal Government has provided only $5 million in funding to assist residents in Flint while the State has allocated $37.3 million in emergency funding to support Flint families.
    - The Governor also proposed a plan to dedicate an additional $30 million as part of his upcoming formal budget presentation to assist Flint residents with water bill payments.
- What will help Flint more than a presidential debate is working together to implement concrete solutions that will aid the city along its road to recovery now and into the future.
- It is important we draw on all available resources to help meet both the immediate and long-term needs of Flint residents.

Tori

One of my district coordinators (Lts) provided me an update reference the caller who has an elderly mother who did not get any water...

"I just left . I dropped off 3 cases of water and a Pur replacement cartridge. I spoke to home owner and her daughter who was visiting. They were not clear they could get water and cartridges from pods. I explained the process and reminded them about 211. is 91 and was very appreciative. The daughter advised Atherton fire barn is close and will go there for more supplies when needed for her mom."

Thanks Bryce for following up. Here is the constituent's information:
Monica - (She wanted to know if someone could collect the water samples)

Also, this gentleman indicated he needed help viewing results:
Gregory Mitchell,

Can you or someone from DEQ reach out and get them their results?

Laura Stoken - I will send you all the callers info and questions and let you follow up with the departments on any additional questions we need to resolve similar to how we have done this in the past.

Thanks all for a great call and for your dedication to getting the residents in Flint the services and response they deserve.

Thanks again,
Tori Sachs

Where: 201 S. Main Street, Ann Arbor

Purpose: Third Tele-Town Hall with Flint Residents.

Last Two Tele Town-Hall Meetings

- 12,667 unique callers have joined a telephone town hall
- 739 callers have pressed zero to ask a question
  All who didn't get to ask received a letter from our office with info on water resources and how to contact us directly
- 27,750 voice messages have been left with info on water resources and how to contact us

Participating Via Phone:
Capt. Kelenske
Nick Lyon
Bryce Feighner, Waste Management and Radiological Protection

For governor and speakers to use:

For media and internal staff:
Listen Only Line: (832)-225-5885 Ext.31084#

Agenda:
Call begins - Jarrod welcomes callers
Gov gives 2-3 minute opening remarks
JA asks for first questions
Q&A - moderated by JA

JA asks RDS to give closing remarks

Press: Comms will send 2 or 3 reporters the listen only line. (Dave Murray)

Talking Points:

- The Flint water situation is a tragedy and my immediate top priority is to ensure every Flint resident has access to clean, safe drinking water.
- The Flint water crisis has been a systemic failure of government at all levels: from the city of Flint, the state of Michigan, the civil servant scientists and the EPA.
- We replaced the leadership of Michigan Department of Environmental Quality (MDEQ) and have suspended civil servant scientists involved in water testing.

- I am working in partnership with Flint Mayor Karen Weaver, independent experts, and the federal government to ensure both short-term and long-term solutions.
- If you need water resources or assistance dial United Way 211 or call my office directly at 517-335-7858

Subject: RE: RDS/JA/TS/NLyon/CKelenske/BFeighner - Flint Tele-Town Hall

Good Morning,

Our elevated Pb and Cu Initial Assessment Team was able to visit both the residence and home. Both situations have been addressed. had a water sample that she did not know where to submit so we were able to drop it off at the State Lab yesterday.

The had received a copy of their analytical and are all set. They were not sure why we stopped. Mr. did share with our team leader that in 1998 he was a building inspector that had as part of his responsibilities assessing homes to determine if they had Pb service lines. He said we could contact him it we wanted to discuss his observations or wanted to know where he thinks Pb service lines exist.

He also confirmed the same discussion we have had earlier with some of the plumbers that many homes have copper from the house to the first valve, but then there is Pb from the valve to the main. He will be leaving the area for an extended period starting in March.

His contact info is:

Scott Schaefer

Subject: FOIA REQUEST FOR RECORDS - DEADLINE 2:00 p.m. TODAY

Please remember to send Lori Hinkley **an estimate of the number of records** in your possession pertaining to the Flint water crisis.

"Records" is defined as: e-mails, hand written notes, documents, text messages and anything else pertaining to the Flint water crisis. This includes ALL records you've received or generated, including general govdelivery correspondence, news releases – essentially anything that says "Flint Water."

To recover deleted e-mails in outlook, go to your toolbar and select: Folder - Recover Deleted Items. This will provide you with a list of everything you have deleted within the last 30 days. Please recover all Flint related records and archive them for future reference and include them in your estimate to Lori.

You will need to send this information to Lori Hinkley **no later than 2:00 today**. Further information regarding the need for printing documents will be provided to you next week. We are only looking for estimates of the number of records right now.

Let me know if you have any questions.

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years.** Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Subject:	Additional DCDS Coding - City of Flint
Attachments:	Activity Tab DCDS.png
Categories:	Flint

Good Afternoon:

The State Budget Office (SBO) has requested some additional coding in DCDS for staff that work on the City of Flint Water Emergency. We will still be coding all overtime costs to PCA 28670. But at their request, we will also be utilizing the "Activity" code in DCDS.

To enter Activity Code

- Open Employee Data Collection
- Click on **Activity Tab** of DCDS timesheet
- On the Unit Entry tab, under Activity column at left, enter F in drop down box and select **FDWP** when it appears.
- Enter total of "**regular and overtime hours**" related to the Flint Water emergency in cell for each date worked.
- These hours should match the total hours for each day you have entered into your timesheet.
- Save when you have entered your activity hours.

Again, this is only for hours spent working on the City of Flint Emergency and should begin with this current pay period. Please let me know if you have questions.

Thanks,
Penny

Subject: Volunteers needed for water resource teams in Flint

Categories: Flint

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

Thank you so much for volunteering to help take vehicles to Flint.

You will all take one car to the training center to pick up the keys to 2 Suburbans and 2 Crew Cab Trucks. The car that drives to the Training Center will follow the 4 vehicles to Flint and bring everyone back...hopefully you can trust that person not to leave you in Flint ☺...select your trusted person wisely.

The address is 2727 Lippincott Blvd., Flint, MI Attached are the directions from the Training Center.
It is the Genesee County Community Action Resource Department location.

Sam, please grab the keys from Joyce and meet everyone else in the lobby.

Please notify your supervisor upon your return.

Thanks,
Carly and Kristi

Subject: Coding for City of Flint Water Contamination incident

Categories: Flint

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Hi Josh –

I recently spoke with Joel about the need for OT due to the Flint Water Crisis. Please see DTMB Policy 200.12 that discusses Overtime and Compensatory Time. Since Joel is not eligible for OT, an exception will have to be made in order for him to enter his time into DCDS. Please see the bottom of page 2 of the policy that outlines the steps that need to be taken. The memo needs to be sent to Amy Miller (MCSC) and she will forward it to Civil Service for authorization.

Here is the policy:

Subject: Hours for GIS Backup Support for SEOC
Attachments: OverTime_Tracking xlsx

Good Morning,

I apologize for the delay on this but it took some coordination to review and separate the hours/overtime/Holiday ours from our other projects. I think we have an updated number of hours that DTMB staff worked (and are scheduled to work) at the SEOC. I separated the hours by regular pay, overtime rates and Holiday pay. Please note that the figures are actual hours. Please don't hesitate to contact me with any questions or if you would like this broken out in a different format.

Subject: Draft Schedule

Please review the below. I tried to get everyone a 2 day break per week.

Also note, that **8 hour shifts will be "on call" unless it is the weekend**. Meaning, if you are on an 8 hour shift, you can work from your desk on your daily tasks knowing that you may be called to do SEOC work at any time. Josh/Joel, I didn't plug any 8 hour on calls in, so when you're not scheduled you are free of SEOC obligations.

Note, AWS's are currently not in effect until things wind down. So all 8 hour shifts are 8-5.

Technically because you get your Holiday hours paid + your OT as time and a half that is how they calculate the double time (when you count all of it). IT actually comes out to more than double time.

I had HR check that it was paid out correctly. If you still want to look at it, come on up. I will look at your pay stub with you.

Thanks,
Aimee

Hi Josh –

I recently spoke with Joel about the need for OT due to the Flint Water Crisis. Please see DTMB Policy 200.12 that discusses Overtime and Compensatory Time. Since Joel is not eligible for OT, an exception will have to be made in order for him to enter his time into DCDS. Please see the bottom of page 2 of the policy that outlines the steps that need to be taken. The memo needs to be sent to Amy Miller (MCSC) and she will forward it to Civil Service for authorization.

Here is the policy:
http://inside.michigan.gov/dtmb/wr/psp/Documents/200.12%20Overtime%20and%20Compensatory%20Time.pdf

James,

Eric Swanson is pushing for OT approval for Joel and myself so that we should be able to be involved. Just a heads up.

James,

I am working on jumping through the hoops for this, but it would be wise to plan on other staff at this point. Long term we will make sure that Steven Cross and Joel Lock are not exempt from overtime so that as emergency staffing needs arise it won't be a problem for the future.

Hi James,
I just found out that my overtime eligibility classification code is "y" (Exempt), and will need approval. I wanted to let you know I am willing to work the hours that you requested if I can get OT pay. As you will see from the policy rules in the pdf, I have my doubt the steps that need to take place for me to receive overtime would be in place that quickly. Josh wanted me to let you know about this and find out how you want to proceed?

Please let me know ASAP.
Thanks,
Joel

Hi Aimee,

My amended schedule is as follows:

Friday, 01/15 should be 8 hours to 8594 rather than 8590
Saturday, 01/16, I worked 12 hours at the SEOC 8594

I am not sure if that has to be corrected right away or if it can wait until Tuesday. Let me know when you can, we have been busy in the SEOC so again, if you can get your phone to work I can be reached by 517-862-3820 or by email when I can check it.

Subject: Re: Update on hours?? DCDS

Hi Aimee,

If your phone starts working my cell is [redacted] Looks like I can modify my DCDS Activity, which I did, but I have some questions. I am not sure how much I will be able to pay attention to email so it may be best to text me if possible. I submitted my time already for this pay period so maybe Mark could help reject/adjust. For Friday, 01/15, I worked 8 hours as reported, but I was at the SEOC, not sure how much that matters, I should probably bill to SEOC instead of core spatial which I changed in DCDS activity. I worked 12 hours at the SEOC on Saturday, 01/16. However, I also had some AL and SL this pay period so I'm not sure how that affects overtime. Also, is there something funny which needs to be calculated in activity such as entering 1.5 times the hours rather than actual hours? I seem to remember hearing that. Joel will have to let

you know for sure his hours, I know he worked all regular hours except an additional 12 on Sat (yesterday) and I think he worked 12 on Thursday instead of 8. His number is [redacted] For Clarity, here is what needs to change for me:

Friday, 01/15 should be 8 hours to 8594 rather than 8590
Saturday, 01/16, I worked 12 hours at the SEOC 8594

Subject: Update on hours?? DCDS

Hi Guys,
Wondering if you are able to complete your hours submission into DCDS?

Joss, My cell phone died today (worst timing ever). Not sure if you tried to reach me but it just won't turn on.

If you cannot input your hours into DCDS – email me what your timesheet needs to reflect. I will input it for you.

Thanks so much,

Subject: RE: UPDATED Draft SEOC Schedule

Change to the plan for tomorrow.

Jim would like all ITSS staff **not assigned to an Flint Water Emergency Shift (12 hour shift)** to report directly to the new SEOC at Harris Road rather than report to Collins Road tomorrow (Friday, 1/28/2016).

Therefore, all ITSS scheduled to an 8 hour shift will report directly to Jim at the SEOC at 8 am tomorrow. If there is a surge in GIS requests I may pull staff, but the SEOC move has a lot of IT needs that only our staff can address.

There is no change for 12 hour shifts. You will report to the new SEOC to work GIS for the incident.

Subject: UPDATED Draft SEOC Schedule
Importance: High

Hello All,

There were three major issues identified with the schedule for the week:

1. We are moving Friday and the Big Bosses want all of the technical staff in on Monday to assist with Tech issues (sorry, just notified of this, this morning)
2. Matt has annual leave scheduled from Wed-Sunday
3. Malyssa is an avid football fan

As such, I've taken the 12 hour shift for Sunday, I am requesting addition DTMB support this week, and a few 12 hour shifts we moved.

Please let me know if there are any issues. I ensured that hours remained evenly distributed and under 60.

Also, for EMHSD staff. If you are on a 12 hour shift, please put that on your outlook calendars so that Jim can have situational awareness.

Also, know that although 8 hour staff members will report to Collins Road tomorrow to assist in building transfer. These staff will likely be unable use a computer and will likely be unable to support. If you are on a 12 hour shift you will report to the new SEOC.

Please let me know if there any issues with the changes.

	2/1/2016	2/2/2016	2/3/2016	2/4/2016	2/5/2016	2/6/2016	2/7/2016

Subject: Rough Draft of Schedule

Below is a draft schedule from the upcoming weeks.

As we discussed, there hasn't been a notice that the pace of operations is declining. In the contrary, staff have noted an increase in requests over the past week. I will keep everyone posted on any changes to operational tempo, and if we are notified to decrease staffing we will send an update to the below.

That said, we will maintain staffing from 8 to 8 daily with persons and the 8 to 5 personnel will make themselves available to support as needed.

A few special notes for CSS/TP:

1. If it is okay with CSS/TP personnel, I would like to have them report at noon for an 8 hour shift that would conclude at 8PM.
2. We are going to hone in the requirements for CSS/TP personnel to specifically work on daily recurring projects that have well defined procedures. (This is being done in an effort to streamline production through the night and create a more well defined expectation for CSS/TP staff reporting to the SEOC to allow them to hit the ground running).
3. I've collapsed all of the DTMB personnel into 1 line, considering the 3 personnel that support are in the same hierarchy I thought you might prefer to divvy out times to staff internally. **I just ask that you let us know who you intend to send on what day for our final schedule.** (If you'd prefer we keep scheduling, please let me know and I can whip something together.

	2/8/2016	2/9/2016	2/10/2016	2/11/2016	2/12/2016	2/13/2016	2/14/2016	2/15/2016

Subject: SEOC Availibility

Hello,

I'm working at drafting the upcoming week's schedules.

Please let me know if there are certain days that you would not be available to work by annotating issues in the below:

	2/8/2016	2/9/2016	2/10/2016	2/11/2016	2/12/2016	2/13/2016	2/14/2016	2/15/2016	2/16/201
	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday	Monday	Tuesday
Malyssa									
Matt									
Walter									
Nikkia									
Joel									
Josh									
Steven									
James									

Note, that although I had anticipated work to drop off in the coming weeks, staff has actually been seeing increases in GIS requests. There is still lacking clarity as to when the pace of operations will slow.

Please review the attached plan for FOIA printing. The instructions are for when in the SEOC. Do not change your computer to the printer in the instructions, it is for use in the SEOC. Use the printer your computer is currently connected to for printing from your computer and personal email or use another one in the EMHSD office area. However, there is helpful information for use in any location. Please remember to ensure that your default printer settings are set for single sided printing before you begin.

To: MSP-EMHSD-Division
Cc: MSP-seoclgc; MSP-SEOCOPSC
Subject: Additional DCDS Coding - City of Flint

Good Afternoon:

The State Budget Office (SBO) has requested some additional coding in DCDS for staff that work on the City of Flint Water Emergency. We will still be coding all overtime costs to PCA 28670. But at their request, we will also be utilizing the "Activity" code in DCDS.

To enter Activity Code

- Open Employee Data Collection
- Click on **Activity Tab** of DCDS timesheet
- On the Unit Entry tab, under Activity column at left, enter F in drop down box and select **FDWP** when it appears.
- Enter total of "**regular and overtime hours**" related to the Flint Water emergency in cell for each date worked.
- These hours should match the total hours for each day you have entered into your timesheet.
- Save when you have entered your activity hours.

Again, this is only for hours spent working on the City of Flint Emergency and should begin with this current pay period. Please let me know if you have questions.

Thanks,
Penny

Subject: Flint Water Emergency Documentation

Good afternoon,

Yesterday, you were asked by Captain Zarotney to provide an estimate number of pages/documents that you have within your email, on your computer, texts messages, or those saved on the S Drive as it relates to the Flint Water Emergency. This was due at 2:00 today, and has not yet been received. This will be from your Michigan.gov email address, different than your position specific email/files within the SEOC. If your SEOC position has not completed that yet either, please assist in completing that as well.

If you have no documents to report, please send a quick reply indicating that so Lori is able to track what she is missing. Otherwise, please provide an estimate to Lori by 4:30 PM today.

Thank you for assisting in this process.

Tony,

We need to respond this FOIA request, aside from the ongoing FOIA activity. I have copied the planners who I believe worked on the emergency declaration. This is due to the FOIA unit by next Friday, February 19. I will schedule a meeting.

Do you believe this would exceed 250 pages? I believe it would exceed the 2 hours to pull, copy and redact the documentation, unless there is very limited correspondence.

Thanks,
Brianna

Ma'am,

The Department has received the following FOIA request:

"any and all email communication between employees at the Department of State Police between Department of State Police employees with those of other state departments, the Executive Office of Governor Rick Snyder and with the city of Flint, discussing the subject of an emergency declaration regarding the Flint water crisis." The requestor would like all communication from7/1/15 through 1/5/16.

Can you please let me know if the Department has responsive documents pertaining to this request? If this request is going to require over 2 man hours and 250 pages of documents please contact me before gathering the documents.

Thanks,

Bethany K Goodwin

Subject: FOIA REQUEST FOR RECORDS - DEADLINE 2.00 p.m. TODAY

Please remember to send Lori Hinkley **an estimate of the number of records** in your possession pertaining to the Flint *water crisis.*

"Records" is defined as: e-mails, hand written notes, documents, text messages and anything else pertaining to the Flint water crisis. This includes ALL records you've received or generated, including general govdelivery correspondence, news releases – essentially anything that says "Flint Water."

To recover deleted e-mails in outlook, go to your toolbar and select: Folder - Recover Deleted Items. This will provide you with a list of everything you have deleted within the last 30 days. Please recover all Flint related records and archive them for future reference and include them in your estimate to Lori.

You will need to send this information to Lori Hinkley **no later than 2:00 today**. Further information regarding the need for printing documents will be provided to you next week. We are only looking for estimates of the number of records right now.

Let me know if you have any questions.

Subject: URGENT - Records Request

Importance: *High*

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the *Legislative and Legal Resources Section* no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the *Director. Members who work at the State Secondary Complex must provide a paper copies Ms.* Lori Hinkley. *Ms.* Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Thanks Rick. It was our pleasure to have you here, and it was a big help! I'd be happy to have you back any time; the assistance was invaluable.

One question I did have, which would help me out a lot if it's available: is there an org chart either of the various units there in Chicago, or at least of the Mitigation branch. I tend to be visual -- it would be great to see how individuals fit in to the structure there.

Thanks again for the visit; we really do appreciate it very much.

Subject: RE: SEOC Availablity

This is a simple answer and a complex answer, all at the same time...

The simple answer – I have no meetings scheduled during this time period and am available to work in the SEOC whenever needed, including weekends. I realize that some members of this division have worked extensive hours in the SEOC and wish to "do my share" to assist.

The complex answer – I was hired to work on the 4195 Hazard Mitigation Grants. All applications must be complete and submitted to FEMA in six weeks. There is a great deal of work to do and $25 million in grant funding at risk. I don't know how many hours I can give to the SEOC without putting my primary obligations at risk. I am forwarding this email to my unit manager to give guidance to the complex side of this answer.

Importance: High

State Directors:

Don't forget the call today with FEMA on its PA disaster deductible concept:

Thursday, February 4 at 3:30 pm Eastern Time

(

This call is co-hosted by NEMA and FEMA. FEMA Administrator Craig Fugate will open the call and have members of his senior leadership team available to introduce the concept, answer questions and encourage states to submit comments on the Advance Notice of Proposed Rulemaking (ANPRM) that the agency published recently in the Federal Register. The *call is for state directors, but you are welcome to have your Public Assistance staff listen in with you. FEMA's regional* administrators will also participate.

More information about the deductible in the attached. If at all possible, please plan on joining the call to learn more about the concept.

Thank you,
Beverly

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

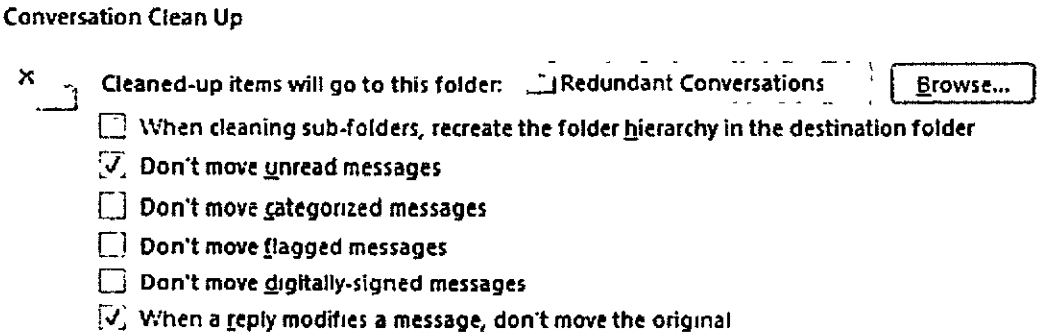
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided**.
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, **only** CC emails from your SEOC email address
- *Send all documents created to the same email address*

Planning Section Chief:

Daily Battle Rhythm
(Except for Monday which is a planning day and has additional tasks, see page 3, or other announced calls.)

  - 1030- Distribution Process Meeting
  - 1600- State Agency Briefing
  - 1700- Agency and Section Chief Sit Reps Due
  - 1830- Distribution Process Meeting

Daily Meetings:

- 0830 Unified Coordination Group Conference Call
  - Planning Section starts call.
  - Polycom system is placed by the State Director's Desk.
  - Dial in number:
    - Make sure to follow the prompts when dialing in.
    -
    -
- 0930 State Agency Call
  - Planning Section starts call.
  - Polycom system is placed by the State Director's Desk.
  - Dial in number:
    - Make sure to follow the prompts when dialing in.
    -
      -
      -
  - Turn on the speakers next to the Polycom. Those on the phone will not be able to hear if the speakers are not on.
  - You will need to hold the microphone (must be mic #2) to the Polycom when those on the phone are speaking.
  - Welcome everyone to the call.
  - Go over daily battle rhythm.
  - Introduce Operations Section.
  - From there, Ops. will call on each branch.
  - Assist with passing the microphone to state agencies up top.
  - If Ops. does not close the meeting, then prior to ending the call announce the next state agency call.
- 1030 Distribution Process Meeting
  - Attend
- 1600 State Agency Call
  - Lead. Same agenda and process as 0930 meeting.
- 1830 Distribution Process Meeting
  - Attend

Daily Tasks:

- Ensure battle rhythm is correct at the start of the day.
  - PIO usually notifies the PSC of Legislative and Congressional calls.
  - Sunday night or Monday morning will need to be updated to include all the planning day activities (see below).
- Assist on daily situation report.
- Review daily situation report once developed by situation unit.
- After 5 p.m., work with Recovery Branch, Planning Section and Logistics section (ordering unit) to obtain daily numbers. **Check daily numbers against yesterday's numbers for accuracy.**

- *Work with situation unit to obtain approval on Sit Rep from Ops, Logistics, Command, and Peter Manning (Attorney General's Office EMC).*
- Update the Flint Water Timeline Daily Update Final (location listed below) to include any high level events from the day and updated commodities distribution data.
    - File is located:
        - S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep\PSC
    - Daily commodities distribution can be pulled from current day's POD number.
        - S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep\POD numbers
        - Click on the 1700 Totals and it will be the Total to Date column.
    - Items to note can be taken from Governor's report for the current day.
        - S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep\PSC\Gov Report PDFs
- Develop evening tasks and nightly report, see below.

Governor's Report- Submit by 12 pm, daily.

- This is the daily summary of data. It is developed based on data from the night before.
- Daily items to note are usually identified during the 0930 briefing.
    - The PSC will need to follow with the state agencies for a write up to include in the report.
        - This should include any high level information or big events taking place.
        - It should not be more than 4-5 bullets total.
        - Daily and routine information will be included in the daily Sit Rep.
- Currently Sam and Amanda are working each day to validate the information and pull the report.
    - Once the report is ready, they will put it in PDF and notify the PSC.
    - S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep\PSC\Gov Report PDFs
        - The PDF will have the today's date.
- The PSC will email the report, by noon, to the following individuals:
    - Capt. Kelenske
    - Mr. Tony Katarsky
    - Mr. Nat Forstner
    - Mr. Ben Geiger
- After the report is sent, forward to:
    - deborah.fulk@fema.dhs.gov
    - suzanne.ragsdale@fema.dhs.gov
    - marc.franklin@fema.dhs.gov
    - msp-seocpio@michigan.gov
    - Michelle Kuzera

Evening Tasks:

- Develop agenda for State Agency Call, if not done the night before.
    - S:\DISASTER\2015-10 Flint Water\Agendas
    - On Sunday's use the previous Monday's agenda when developing. Since Monday's are planning days, the state agency calls have additional IAP information to be briefed on during planning day.
    - Provide Ops. Chief with a copy.
- **Complete nightly report listed below.**

Nightly Reports

- Develop daily summary notes for Command.
- This will be emailed to:
    - Capt. Kelenske, Mr. Tony Katarsky and Ops Section Chief email account.
    - If an alternative Deputy State Director is in the SEOC also include them on the email.
- Template is available on the shared drive:
    - S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep\PSC titled "Daily Summary" or see sent box for previous day's email.
- Information for the daily summary report is captured from:
    - S:\DISASTER\2015-10 Flint Water\Sit Reps\Executive Summary.
    - Follow the template above, not all information from the Executive Summary needs to be included, keep it high level.

- If any numbers are in the report, make sure to against yesterday's numbers for accuracy. This will be emailed to:
- Attach:
    - Daily Sit Rep.
    - Daily Maps (usually lead and copper map and any additional map requested)
    - Any additional item of importance.
- Once the Daily Summary has been sent to Command, forward the email original email and attach the GIS email with the daily parcel data (if available) to the following contacts:
    - deborah.fulk@fema.dhs.gov
    - suzanne.ragsdale@fema.dhs.gov
    - Marc.franklin@fema.dhs.gov
    - Henrik Hollaender
    - Michelle Kuzera

Monday Reports:

- As part of the Monday Daily Summary email also include:
    - Updated Governor's Timeline.
    - State Agency Event's for the week.
        - This document provides an overview of important events each state agency will be participating in during the next week.

Planning Day (Monday's):

- Battle Rhythm
    - 0800- Unified Command Objectives Meeting
    - 0830- Local Agency Briefing
    - 0930- Command/General Staff/SEOC Briefing
    - 1030- Distribution Process Meeting
    - 1230- ICS 204 Submissions Due
    - 1330- Tactics Meeting
    - 1600- Planning Meeting/SEOC Briefing
    - 1700- Agency and Section Chief Sit Reps Due
    - 1830- Distribution Process Meeting
- Update Incident Action Period objectives during Unified Command Meeting at 0800.
    - Project copy of last week objectives for the meeting.
        - S:\DISASTER\2015-10 Flint Water\Objectives & Tactics
    - If technology is not available, print 8 copies for meeting.
- During 0930 meeting Planning Section will read each objective.
    - This takes place after the daily battle rhythm is announced.
- Work with branches to develop or update ICS 204 forms.
- Update IAP, org chart, ICS forms (204, 205a, 208, map).
- Hold tactics meeting to review ICS 204 forms
    - Ops. Section Chief runs this meeting
- Once tactics meeting is complete and all 204 forms have been updated, print 4 copies of each ICS 204 and IAP.
- Distribute each specific ICS 204 to the appropriate branch directors or section chiefs.
- Provide Ops, State Director, FEMA FCO copies of ICS form and IAP.
- Brief updates to IAP during 4 pm State Agency call.
    - Ops Section Chief will read each objective and each agency will read the tactics they have developed for the week.
- Update ICS 204 and IAP based on any requests from the meeting.
- Once all updates have been made, have Ops Chief, State Director, and FCO review, approve, and sign IAP.
- Post IAP to MI CIMS in File Library.

FEMA Fact Sheet

DISASTER DEDUCTIBLE – ADVANCE NOTICE OF PROPOSED RULEMAKING

The Federal Emergency Management Agency (FEMA) is considering a new approach to mitigation that would include states making a predetermined financial commitment, similar to meeting an insurance deductible, prior to receiving post-disaster financial assistance under the Public Assistance Program. This deductible could be offset with credits based on investments in resilience such as adopting standardized and enhanced building codes or investing in mitigation projects.

Known as the disaster deductible, FEMA anticipates that the concept, if implemented, would:

- Incentivize mitigation strategies and promote risk-informed decision-making to build resilience, including to catastrophic events;
- Reduce the costs of future events for both states and the federal government; and
- Facilitate state and local government planning and budgeting for enhanced disaster response and recovery capability through greater transparency

FEMA is currently consulting with federally recognized tribal nations on a separate process for tribes to request and receive presidential disaster declarations under the Stafford Act. That process does not incorporate a disaster deductible.

This approach would be a significant change and FEMA is committed to a transparent stakeholder engagement effort to explore how and if it should be adopted. Through the Advance Notice of Proposed Rulemaking (ANPRM), FEMA is seeking ideas, comments, and questions from the public on the concept of a disaster deductible. FEMA is **not** currently proposing to implement this concept.

Specifically, FEMA is soliciting comments on all aspects of the deductible concept, including how to calculate a state's financial commitment, the scope of the financial commitment, how states can satisfy the commitment, how this concept could influence change, implementation considerations – including applicability to states, tribes and territories – and estimated impact. FEMA will evaluate all comments received. If it chooses to pursue this credit for investing in resilience, FEMA will formulate a model based on the comments received and will seek public comment on the proposed model through a Notice of Proposed Rulemaking.

This ANPRM for a disaster deductible is an opportunity to work with our partners in considering and potentially crafting disaster policy that increases our nation's resiliency.

"FEMA's mission is to support our citizens and first responders to ensure that as a nation we work together to build, sustain, and improve our capability to prepare for, protect against, respond to, recover from, and mitigate all hazards."

Subject: RE: Oil Spills

Captain,
After researching FEMA's website and working with someone at FEMA Region V (who made contact with FEMA HQ), I was not able to find any federal disaster declaration for a major oil spill. The response and recovery for the Enbridge oil spill in Michigan and the BP Deepwater Horizon spill in the Gulf of Mexico was paid for by the oil companies. While there was a significant level of participation from several federal agencies in all of the major oil spills I read about, their role was primarily technical assistance and regulatory.

Joel

Can you research a few of the major oil spills and advised if they requested a federal declaration and if not, why? I believe the companies usually just pay but the Governor is asking me. Thanks,

Chris

Good Morning Ken-
I was speaking with Katie Halliday, FEMA VAL, this morning to learn more about the nonprofits responding to the Flint Water Crisis, and she sent me your contact information.
Good360 provides nonprofits with corporate product donations. We are currently working with Walmart to assist in the immediate and long-term product needs of the community. Our focus is working with community-based nonprofits that create product needs lists and then we work with our corporate partners like Walmart, CVS and others to fulfill those needs.
This morning Walmart sent out a press release directing the public to our page www.good360.org/flint and we are currently collecting cash donations to cover the costs to provide our nonprofit partners with the products they need.

We are currently partnering with Catholic Charities of Shiawassee and Genesee Counties, Mission of Hope, Think Beyond The Chair and Dedicated Believers Ministries. We are looking to connect with all nonprofits on the ground to assist where we can with both immediate and long-term needs. To create your immediate product needs list, you will need to Register with Good360 online. After registration, click the DISASTER RECOVERY360 button in the top navigation, which will redirect you to a Flint Water Crisis landing page where

you should then click the blue button on the left-hand side that says REGISTER FOR THIS DISASTER. The final steps are to fill out the logistics questionnaire and then create your product needs list. I have also attached a PDF with instructions.

Again, we are committed to providing the community with immediate and long-term needs, and would like to assist your efforts in any way that we can.
Please feel free to reach out with any questions. Thanks for all you do in your community!

Regards,
Lindsay Jones

Subject: MI-VOAD Meeting Today
Date: Wed, 27 Jan 2016 13:00:44 +0000

Dear All,

Would you please send out a MI-VOAD meeting request for today, Wednesday, January 27th at 5:00pm?

We will have convened several meetings and will be able to give the participants a better idea of engagement.

Thank you.

Best regards,

Justin R. Bays

Subject: SBA in Flint

Renee, Bri, Joel.

Please host some discussion with this in mind as to required deadlines, etc. MDARD is asking in specific, should food establishments get positive testing, there may be inquiries about eligibility for SBA.

Good Afternoon Kent,

I have been in contact with Gary Davisson from the SBA Office of Disaster Assistance. Based on my discussion SBA is not actively engaged in this event. Additionally, the State is not eligible for an SBA declaration if they are still pursuing assistance from FEMA through a major declaration. If an appeal for a major declaration is disapproved they can pursue a stand-alone declaration from SBA.

Please let me know if you have any additional questions.

V/r,

Jason

Hello,

We have been asked the following question; does someone in the SEOC know the answer?

1. How many children under 18 live in Flint?
2. How many children under 5 live in Flint?

We need an answer as soon as we can.

Thanks,

Ron

Subject: RE: FYI: follow-up to meeting

Thanks Joel,

Here were just a few thoughts from DCH and LARA. Pretty specific for what you needed now, but we can hang on to these as it gets fleshed out more.

DCH
"Wondering if it would be possible to add a question to the script. If they answer that they have filters, could the question be asked, "how long have they been lasting, or how often are you having to change them?"

They were curious once questions are scripted if they could have input.

And from LARA:
"LARA licensing staff have been contacting each licensed facility asking the following questions:

Are you on the Flint water system
Have you received filters
Have you received cartridges
Have you received bottled water
Are you aware of Michigan.gov/FlintWater
Do you need any other supplies, if so what
How many faucets are for drinking water
How many residents in your facility
Are you testing your water
If yes, when was the last test completed
Do you need your water tested

These questions are being asked to determine the resources needed for the specialized facilities. Once we have numbers and needs accumulated, we plan to have our staff go to these facilities and provide the supplies. This was a plan developed last week. I have looked at the questions on the IPAD and believe that over half of them have already been answered due to our survey. We could include someone with the IPAD to enter the data that hasn't been already provided.

Perhaps since each agency has specialized licensed facilities, we need to have a sit down - excluding MDE since the schools are already on our lists and in the works."

See attached thoughts.

I'm thinking the APP is great for PODS and Single Tenant. I would like to see specialized lists be allocated out to state agencies for the facilities they are responsible and we can work with them to use "ESRI for Office" to tie their updates back to the dashboards as they update them. (NOTE: We have already established this with MDARD and it is working very well)

Importance: High

All,
Attached is my attempt to capture the essence of our meeting with Tony this morning. Get out your big red pen and have at it! Please send me your edits in "red" font. I will compile them and then send the final to Tony. I would appreciate having your edits by 1:30 at the latest as Tony would like the final version by no later than 2:00pm.

Thanks,
Joel

See attached thoughts.

I'm thinking the APP is great for PODS and Single Tenant. I would like to see specialized lists be allocated out to state agencies for the facilities they are responsible and we can work with them to use "ESRI for Office" to tie their updates back to the dashboards as they update them. (NOTE: We have already established this with MDARD and it is working very well)

Good Morning,

My email appears completely blank (nothing in the inbox or sent folders) when accessing it through the network, but I can get to my email from the internet. It just doesn't have all the features (like a signature block), but I am reachable at Nixg@michgan.gov.

My cell phone number is

Gary Nix

Subject: RE: 4195 hazard mitigation

Hi Gary,

Welcome aboard (soon anyway). I'm looking forward to working with you. Here are some documents and internet resources that will help you get up to speed:

1) FEMA's brochure for the Hazard Mitigation Assistance (HMA) programs. It gives a basic overview of the programs. Though you will be working with the HMGP, all three of the HMA programs are interconnected to some degree.

2) The HMA Unified Guidance. I'm not going to ask you to read it all but you can pick and choose to get a feel for the HMGP program rules.
3) The addendum to the HMA guidance. This is project type specific guidance and is probably too far in the weeds for right now but you might glance through it for a feel of some of the activities that can be funded.
4) FEMA HMA web page: https://www.fema.gov/hazard-mitigation-assistance
5) This might be something for when you get started over here but here is a link to a 3 hour FEMA intro course for hazard mitigation - https://training.fema.gov/is/courseoverview.aspx?code=IS-212.b. I haven't actually taken the course myself but our FEMA grant contact recommended it.

We can also get together this week if you want (or feel free to give me a call). I'm working on grant processing so my schedule is open.

Matt/Joel/Gary,

Gary's going to be starting next week unless HR comes up with some serious hiccup. But it looks good to go. Gary would like to schedule a time to meet with you guys to give him any materials he might look through ahead of time to get up to speed on the hazard mitigation program.

We can also look at having him go to that training at Region V along with me and Zach. What were the dates on that again?

As Gary stated, he makes a mean cup of coffee too, so we can most definitely have him up and running on day 1! Perhaps we'll invest in an espresso machine.

Subject: CRITICAL NEED from MI VOAD and Partners: Door-to-Door Work in Flint

Importance: High

There is an urgent need for up to 200 volunteers a day to support door-to-door delivery of water, test kits, and filters in Flint. **This is a critical provision of water necessities for the residents of Flint.** And we need your help!

Individual volunteers will need to go to the VRC directly. People coming to the Volunteer Reception Center will receive a brief training and orientation. Volunteers should plan on being available for a minimum three-hour assignment. While many assignments will occur on the same day the person registers at the Volunteer Reception Center, some assignments for tasks such as data entry, warehousing, operations support, and water testing kit assembly (kid and family friendly) may begin on later dates.

For groups/VOADs only, please contact Victoria Fryer (see cc'ed email: victoria.fryer@redcross.org). To engage in this opportunity, please reach out to her to determine how your organization can plug-in.

Registering through the VRC will occur at the Red Cross building on 1401 S. Grand Traverse Street in Flint, before you start work in the community. The Volunteer Reception Center is open on Monday, January 18, Martin Luther King Day, from 9:00 a.m. to 7:00 p.m and throughout the week (7 days/week).

For additional details or questions, *please call Justin Bays, cell number: (justin.bays2@redcross.org)*. The United Way of Genesee County along with its partners, 211, and with support from the Michigan Community Service Commission, continue to partner with the Red Cross to stand up this Community VRC, and you may also inquire w/ 211 directly for additional details re: the Flint Water Recovery.

Thank you!

Attachments: Appeal Letter forPresidentialDeclarationDenial_Flint_DRAFT.doc

Tom,

Attached is the beginnings of a draft of the disaster denial appeal letter. It is based off from a 2003 appeal that we did (all of the red font is from the old letter). I wanted to at least get it started so you have a format to work with. The Captain reviewed the first paragraph (the black font) and confirmed that is the approach he wants to take.

I created an "Appeal of Disaster Denial" folder under S:\DISASTER\2015-10 Flint Water. It contains this draft, the president's denial letter, our original request documents, and FEMA's summary of the emergency assistance they granted. . The Captain wants to focus on "what we are not getting because of the denial and why we need it." Basically I think that means reiterating the original request (since there isn't much new information to base the appeal upon). Cap said he is going to talk to Tony about it in the morning so they may have some additional direction for you after that.

I placed a copy of CFR on your desk with the appeal section highlighted in case you need it (its only one paragraph). Contained in the CFR is West Virginia's appeal in case you want it.

Sorry, there isn't a lot to go on here. Call me if you need anything.

Subject: VRC Overview and Notes from 1-13-16 Calls
Date: Wed, 13 Jan 2016 21:28:50 +0000

1. The overview is good detail to use re: the VRC. Please send along to the group.

2. Notes (my apologies for innacuracies):

- Jeannie – Region 5 FEMA Val. Will be out of the country and Katie Halliday will fill in for the interim.
- Zach Baker – State Police/Homeland Security. Update on current big picture details.

- Peter Plumb – United Methodists. Have multiple sites at churches in the Flint area. Would like help getting word out. JIC needs info, and 211 could also list as a partner.
- Annette and Raven Wright – Alafia. Starter water distribution last year, and have partnered with Pierce Elementary.
- Nick Meijer – Hope Animal-Assisted Crisis Response. Can have teams come in to volunteer. K-9 support (3 teams). Alafia would like support. *Is there housing for volunteers?* Justin to look in to this
- Virginia Zimmerman – DHHS/EMS Emergency Response and Medical Reserve Corps. Level 2 activation. Info gathering now. Mon-Sun availability, 8am-8pm. Willing to support door-to-door, data entry, etc. Medical and general volunteer lists. 8000 in total database state-wide, 83 general category in Genesee. *Need official request from SEOC to activate.*
- Diana Brook – Adventists Community Services. 300+ volunteers available. Also have water. Would like to send along water (see below).
- Ken Sutter – MDS and President of MI VOAD. Gene Rivers and LDS Church has water and volunteers. Chad gave details earlier (and see below).
- Mary Lloyd – Presbyterians and Secretary MI VOAD. Will notify Presbyterians and will work w/ Peter re: communications of United Methodist Church sites. Peter to help w/ language for release of info.
- Justin Bays – Red Cross. Review of VRC and general job opportunities – as many as possible (for now) to staff *firehouse (just found out the hand over timing and amounts are in flux as of this moment), door-to-door canvassing, data entry, Community VRC staffing, and more to come!*
- Chad Veeser – MCSC. Will send details (here). Supporting response and will facilitate volunteer requests and job descriptions from EOCs to and from VRC.

3. Details re: water donations:

AMERICAN RED CROSS - EAST CENTRAL BAY CHAPTER
1401 South Grand Traverse Street Flint, MI 48503
(810) 232-1401 Main

SERVICE DESCRIPTION: Accepts donations of 100 cases or less of bottled water for the City of Flint declared disaster. Other related items such as water filters, etc may also be accepted.
ELIGIBILITY: No restrictions
APPLICATION PROCESS: Walk-ins accepted
DOCUMENTS REQUIRED: No documentation required
SERVICE HOURS: Sat-Sun 9am-4pm

Subject: RE: Coding for City of Flint Water Contamination incident

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

To: MSP-EMHSD-Division
Cc: MSP-SEOCOPSC; MSP-seocfgc; MSP-seoclgc
Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

FEMA

January 22, 2016

The Honorable Rick Snyder
Governor of Michigan
Lansing, Michigan 48909

Dear Governor Snyder:

This is in response to your January 14, 2016, request for an emergency declaration for the State of Michigan as a result of contaminated water described in your request as beginning on April 25, 2014, and continuing. You specifically requested a declaration for the Individuals and Households Program and emergency protective measures (Category B), including direct federal assistance and reimbursement, under the Public Assistance program for Genesee County.

The January 16, 2016, emergency declaration FEMA-3375-EM authorized emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding. The emergency declaration authorized the federal provision of water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days for Genesee County. Additionally, the President offered assistance in identifying other Federal agency capabilities that could support the recovery effort.

After a thorough review of your request, it has been determined that additional Stafford Act assistance, beyond that which has been authorized under FEMA-3375-EM, is not appropriate for this event. Therefore, your request for the Individuals and Households Program and reimbursement for emergency protective measures (Category B) under the Public Assistance program for Genesee County is denied.

This denial may be appealed within 30 days after the date of this letter. Any appeal pursuant to 44 CFR § 206.46, along with additional information justifying the appeal, should be submitted to me through Andrew Velasquez III, Regional Administrator, FEMA Region V, located at 536 South Clark Street, Chicago, Illinois 60605.

Sincerely,

Elizabeth Zimmerman
Associate Administrator
Office of Response and Recovery

D-R-A-F-T

Flint Water Operations Plan

Phase 1 – Initial distribution

- Canvassing teams initiated by sheriff; fleshed out by MSP, ARC, NG, and volunteers.
- Goal – Touch every residence with water, filters, filter cartridges, and test kits to demonstrate we have attempted to supply all residences with potable water.
- Canvassing based on geographic areas.
- Points of Distribution (PODS) established at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits; initially ARC staffed, then replaced by NG.
- 2-1-1 used to address all questions and serve as POC for all special needs requests (hot shots).
- Phase 1 complete the morning of January 21 based on feedback from local EOC.

Phase 2 – Saturation

- A second round of canvassing teams begins January 21 using NG and ARC personnel augmented by volunteers as judged appropriate.
- Goal – Re-touch every residence with water, filters, filter cartridges, and test kits to demonstrate we made every effort to supply all residences with potable water
- Canvassing based on geographic areas.
- Points of Distribution (PODS) staffed by NG continue at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits.
- 2-1-1 addressing all questions and serve as POC for all special needs requests (hot shots).
- Phase 2 completion planned for COB January 24; any remainder to be addressed by ARC teams.

Phase 3 – Transition

- Goal – Move from manual distribution mechanism to less labor intensive processes.
- Develop messaging for implementation of this phase and transition to next phase (phase out of distribution of water, filters, cartridges, and test kits noting PODS to cease operation on January 31).
- Identify new water only distribution sites operated by faith-based or other volunteer groups.
- Determine and implement best methodology for long-term distribution of filters and filter cartridges.
- Phase 3 complete with close of PODS COB January 31.

Phase 4 – Long Term Support

- Goal – Establish long-term, workable processes to sustain provision of potable water to residents.
- Develop messaging for implementation of this phase and transition to next phase.
- Water distribution by the city or faith-based/other volunteer groups.
- Establish long-term filter distribution process using USPS, vouchers, or other measureable program.

Phase 5 – Normal Operations

- Goal – Resume normal operations.
- Develop messaging for implementation of this phase and transition to next phase.
- Analysis complete, solutions implemented and public trust in Flint water reestablished.

114TH CONGRESS
1ST SESSION

H. R. 1278

To authorize the Administrator of the Environmental Protection Agency to establish a program of awarding grants to owners or operators of water systems to increase resiliency or adaptability of the systems to any ongoing or forecasted changes to the hydrologic conditions of a region of the United States.

IN THE HOUSE OF REPRESENTATIVES

MARCH 4, 2015

Mrs. CAPPS introduced the following bill; which was referred to the Committee on Transportation and Infrastructure, and in addition to the Committees on Energy and Commerce and Natural Resources, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

---

A BILL

To authorize the Administrator of the Environmental Protection Agency to establish a program of awarding grants to owners or operators of water systems to increase resiliency or adaptability of the systems to any ongoing or forecasted changes to the hydrologic conditions of a region of the United States.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Water Infrastructure Resiliency and Sustainability Act of 2015".

SEC. 2. WATER INFRASTRUCTURE RESILIENCY AND SUSTAINABILITY.

(a) DEFINITIONS.—In this section:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) HYDROLOGIC CONDITIONS.—The term "hydrologic conditions" means the quality, quantity, or reliability of the water resources of a region of the United States.

(3) OWNER OR OPERATOR OF A WATER SYSTEM.—

(A) IN GENERAL.—The term "owner or operator of a water system" means an entity (including a regional, State, Tribal, local, municipal, or private entity) that owns or operates a water system.

(B) INCLUSION.—The term "owner or operator of a water system" includes—

(i) a non-Federal entity that has operational responsibilities for a federally, tribally, or State-owned water system; and

(ii) an entity established by an agreement between—

(I) an entity that owns or operates a water system; and

(II) at least one other entity.

(4) WATER SYSTEM.—The term "water system" means—

(A) a community water system (as defined in section 1401 of the Safe Drinking Water Act (42 U.S.C. 300f));

(B) a treatment works (as defined in section 212 of the Federal Water Pollution Control Act (33 U.S.C. 1292)), including a municipal separate storm sewer system (as such term is used in the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.));

(C) a decentralized wastewater treatment system for domestic sewage;

(D) a groundwater storage and replenishment system;

(E) a system for transport and delivery of water for irrigation or conservation; or

(F) a natural or engineered system that manages floodwaters.

(b) PROGRAM.—The Administrator shall establish and implement a program, to be known as the Water Infrastructure Resiliency and Sustainability Program, under which the Administrator awards grants in each of fiscal years 2016 through 2020 to owners or operators of water systems for the purpose of increasing the resiliency or adaptability of the systems to any ongoing or forecasted changes (based on the best available research and data) to the hydrologic conditions of a region of the United States.

(c) USE OF FUNDS.—As a condition on receipt of a grant under this section, an owner or operator of a water system shall agree to use the grant funds exclusively to assist in the planning, design, construction, implementation, operation, or maintenance of a program or project that meets the purpose described in subsection (b) by—

(1) conserving water or enhancing water use efficiency, including through the use of water metering and electronic sensing and control systems to measure the effectiveness of a water efficiency program;

(2) modifying or relocating existing water system infrastructure made or projected to be significantly impaired by changing hydrologic conditions;

(3) preserving or improving water quality, including through measures to manage, reduce, treat,

or reuse municipal stormwater, wastewater, or drinking water;

(4) investigating, designing, or constructing groundwater remediation, recycled water, or desalination facilities or systems to serve existing communities;

(5) enhancing water management by increasing watershed preservation and protection, such as through the use of natural or engineered green infrastructure in the management, conveyance, or treatment of water, wastewater, or stormwater;

(6) enhancing energy efficiency or the use and generation of renewable energy in the management, conveyance, or treatment of water, wastewater, or stormwater;

(7) supporting the adoption and use of advanced water treatment, water supply management (such as reservoir reoperation and water banking), or water demand management technologies, projects, or processes (such as water reuse and recycling, adaptive conservation pricing, and groundwater banking) that maintain or increase water supply or improve water quality;

(8) modifying or replacing existing systems or constructing new systems for existing communities

or land currently in agricultural production to improve water supply, reliability, storage, or conveyance in a manner that—

(A) promotes conservation or improves the efficiency of utilization of available water supplies; and

(B) does not further exacerbate stresses on ecosystems or cause redirected impacts by degrading water quality or increasing net greenhouse gas emissions;

(9) supporting practices and projects, such as improved irrigation systems, water banking and other forms of water transactions, groundwater recharge, stormwater capture, groundwater conjunctive use, and reuse or recycling of drainage water, to improve water quality or promote more efficient water use on land currently in agricultural production;

(10) reducing flood damage, risk, and vulnerability by—

(A) restoring floodplains, wetlands, and uplands integral to flood management, protection, prevention, and response;

(B) modifying levees, floodwalls, and other structures through setbacks, notches, gates, re-

moval, or similar means to facilitate reconnection of rivers to floodplains, reduce flood stage height, and reduce damage to properties and populations;

(C) providing for acquisition and easement of flood-prone lands and properties in order to reduce damage to property and risk to populations; or

(D) promoting land use planning that prevents future floodplain development;

(11) conducting and completing studies or assessments to project how changing hydrologic conditions may impact the future operations and sustainability of water systems; or

(12) developing and implementing measures to increase the resilience of water systems and regional and hydrological basins, including the Colorado River Basin, to rapid hydrologic change or a natural disaster (such as tsunami, earthquake, flood, or volcanic eruption).

(d) APPLICATION.—To seek a grant under this section, the owner or operator of a water system shall submit to the Administrator an application that—

(1) includes a proposal of the program, strategy, or infrastructure improvement to be planned,

designed, constructed, implemented, or maintained by the water system;

(2) cites the best available research or data that demonstrate—

(A) the risk to the water resources or infrastructure of the water system as a result of ongoing or forecasted changes to the hydrological system of a region, including rising sea levels and changes in precipitation patterns; and

(B) how the proposed program, strategy, or infrastructure improvement would perform under the anticipated hydrologic conditions;

(3) explains how the proposed program, strategy, or infrastructure improvement is expected—

(A) to enhance the resiliency of the water system, including source water protection for community water systems, to the anticipated hydrologic conditions; or

(B) to increase efficiency in the use of energy or water of the water system; and

(4) describes how the proposed program, strategy, or infrastructure improvement is consistent with an applicable State, tribe, or local climate adaptation plan, if any.

(e) PRIORITY.—

(1) WATER SYSTEMS AT GREATEST AND MOST IMMEDIATE RISK.—In selecting grantees under this section, subject to subsection (h)(2), the Administrator shall give priority to owners or operators of water systems that are, based on the best available research and data, at the greatest and most immediate risk of facing significant negative impacts due to changing hydrologic conditions.

(2) GOALS.—In selecting among applicants described in paragraph (1), the Administrator shall ensure that, to the maximum extent practicable, the final list of applications funded for each year includes a substantial number that propose to utilize innovative approaches to meet one or more of the following goals:

(A) Promoting more efficient water use, water conservation, water reuse, or recycling.

(B) Using decentralized, low-impact development technologies and nonstructural approaches, including practices that use, enhance, or mimic the natural hydrological cycle or protect natural flows.

(C) Reducing stormwater runoff or flooding by protecting or enhancing natural ecosystem functions.

(D) Modifying, upgrading, enhancing, or replacing existing water system infrastructure in response to changing hydrologic conditions.

(E) Improving water quality or quantity for agricultural and municipal uses, including through salinity reduction.

(F) Providing multiple benefits, including to water supply enhancement or demand reduction, water quality protection or improvement, increased flood protection, and ecosystem protection or improvement.

(f) COST-SHARING.—

(1) FEDERAL SHARE.—The share of the cost of any program, strategy, or infrastructure improvement that is the subject of a grant awarded by the Administrator to the owner or operator of a water system under subsection (b) paid through funds distributed under this section shall not exceed 50 percent of the cost of the program, strategy, or infrastructure improvement.

(2) CALCULATION OF NON-FEDERAL SHARE.—In calculating the non-Federal share of the cost of

a program, strategy, or infrastructure improvement proposed by a water system in an application submitted under subsection (d), the Administrator shall—

(A) include the value of any in-kind services that are integral to the completion of the program, strategy, or infrastructure improvement, including reasonable administrative and overhead costs; and

(B) not include any other amount that the water system involved receives from the Federal Government.

(g) REPORT TO CONGRESS.—Not later than 3 years after the date of the enactment of this Act, and every 3 years thereafter, the Administrator shall submit to the Congress a report on progress in implementing this section, including information on project applications received and funded annually.

(h) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—To carry out this section, there is authorized to be appropriated $50,000,000 for each of fiscal years 2016 through 2020.

(2) LIMITATION.—Of the amount made available to carry out this section for a fiscal year, not more than 20 percent may be made available to

grantees for activities described in subsection (c)(10) (relating to reducing flood damage, risk, and vulnerability).

Flint Water Operations Plan

Phase 1 – Initial distribution

- Canvassing teams initiated by sheriff; fleshed out by MSP, ARC, NG, and volunteers.
- Goal – Touch every residence with water, filters, filter cartridges, and test kits to demonstrate we have attempted to supply all residences with potable water.
- Canvassing based on geographic areas.
- Points of Distribution (PODS) established at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits; initially ARC staffed, then replaced by NG.
- 2-1-1 used to address all questions and serve as POC for all special needs requests (hot shots).
- Phase 1 complete the morning of January 21 based on feedback from local EOC.

Phase 2 – Saturation

- A second round of canvassing teams begins January 21 using NG and ARC personnel augmented by volunteers as judged appropriate.
- Goal – Re-touch every residence with water, filters, filter cartridges, and test kits to demonstrate we made every effort to supply all residences with potable water
- Canvassing based on geographic areas.
- Points of Distribution (PODS) staffed by NG continue at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits.
- 2-1-1 addressing all questions and serve as POC for all special needs requests (hot shots).
- Phase 2 completion planned for COB January 24; any remainder to be addressed by ARC teams.

Phase 3 – Transition

- Goal – Move from manual distribution mechanism to less labor intensive processes.
- Develop messaging for implementation of this phase and transition to next phase (phase out of distribution of water, filters, cartridges, and test kits noting PODS to cease operation on January 31).
- Identify new water only distribution sites operated by faith-based or other volunteer groups.
- Determine and implement best methodology for long-term distribution of filters and filter cartridges.
- Phase 3 complete with close of PODS COB January 31.

Phase 4 – Long Term Support

- Goal – Establish long-term, workable processes to sustain provision of potable water to residents.
- Develop messaging for implementation of this phase and transition to next phase.
- Water distribution by the city or faith-based/other volunteer groups.
- Establish long-term filter distribution process using USPS, vouchers, or other measureable program.

Phase 5 – Normal Operations

- Goal – Resume normal operations.
- Develop messaging for implementation of this phase and transition to next phase.
- Analysis complete, solutions implemented and public trust in Flint water reestablished.

I

114TH CONGRESS
1ST SESSION

H. R. 1278

To authorize the Administrator of the Environmental Protection Agency to establish a program of awarding grants to owners or operators of water systems to increase resiliency or adaptability of the systems to any ongoing or forecasted changes to the hydrologic conditions of a region of the United States.

IN THE HOUSE OF REPRESENTATIVES

MARCH 4, 2015

Mrs. CAPPS introduced the following bill; which was referred to the Committee on Transportation and Infrastructure, and in addition to the Committees on Energy and Commerce and Natural Resources, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

---

A BILL

To authorize the Administrator of the Environmental Protection Agency to establish a program of awarding grants to owners or operators of water systems to increase resiliency or adaptability of the systems to any ongoing or forecasted changes to the hydrologic conditions of a region of the United States.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Water Infrastructure Resiliency and Sustainability Act of 2015".

SEC. 2. WATER INFRASTRUCTURE RESILIENCY AND SUSTAINABILITY.

(a) DEFINITIONS.—In this section:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) HYDROLOGIC CONDITIONS.—The term "hydrologic conditions" means the quality, quantity, or reliability of the water resources of a region of the United States.

(3) OWNER OR OPERATOR OF A WATER SYSTEM.—

(A) IN GENERAL.—The term "owner or operator of a water system" means an entity (including a regional, State, Tribal, local, municipal, or private entity) that owns or operates a water system.

(B) INCLUSION.—The term "owner or operator of a water system" includes—

(i) a non-Federal entity that has operational responsibilities for a federally, tribally, or State-owned water system; and

(ii) an entity established by an agreement between—

(I) an entity that owns or operates a water system; and

(II) at least one other entity.

(4) WATER SYSTEM.—The term "water system" means—

(A) a community water system (as defined in section 1401 of the Safe Drinking Water Act (42 U.S.C. 300f));

(B) a treatment works (as defined in section 212 of the Federal Water Pollution Control Act (33 U.S.C. 1292)), including a municipal separate storm sewer system (as such term is used in the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.));

(C) a decentralized wastewater treatment system for domestic sewage;

(D) a groundwater storage and replenishment system;

(E) a system for transport and delivery of water for irrigation or conservation; or

(F) a natural or engineered system that manages floodwaters.

(b) PROGRAM.—The Administrator shall establish and implement a program, to be known as the Water Infrastructure Resiliency and Sustainability Program, under which the Administrator awards grants in each of fiscal years 2016 through 2020 to owners or operators of water systems for the purpose of increasing the resiliency or adaptability of the systems to any ongoing or forecasted changes (based on the best available research and data) to the hydrologic conditions of a region of the United States.

(c) USE OF FUNDS.—As a condition on receipt of a grant under this section, an owner or operator of a water system shall agree to use the grant funds exclusively to assist in the planning, design, construction, implementation, operation, or maintenance of a program or project that meets the purpose described in subsection (b) by—

(1) conserving water or enhancing water use efficiency, including through the use of water metering and electronic sensing and control systems to measure the effectiveness of a water efficiency program;

(2) modifying or relocating existing water system infrastructure made or projected to be significantly impaired by changing hydrologic conditions;

(3) preserving or improving water quality, including through measures to manage, reduce, treat,

or reuse municipal stormwater, wastewater, or drinking water;

(4) investigating, designing, or constructing groundwater remediation, recycled water, or desalination facilities or systems to serve existing communities;

(5) enhancing water management by increasing watershed preservation and protection, such as through the use of natural or engineered green infrastructure in the management, conveyance, or treatment of water, wastewater, or stormwater;

(6) enhancing energy efficiency or the use and generation of renewable energy in the management, conveyance, or treatment of water, wastewater, or stormwater;

(7) supporting the adoption and use of advanced water treatment, water supply management (such as reservoir reoperation and water banking), or water demand management technologies, projects, or processes (such as water reuse and recycling, adaptive conservation pricing, and groundwater banking) that maintain or increase water supply or improve water quality;

(8) modifying or replacing existing systems or constructing new systems for existing communities

or land currently in agricultural production to improve water supply, reliability, storage, or conveyance in a manner that—

(A) promotes conservation or improves the efficiency of utilization of available water supplies; and

(B) does not further exacerbate stresses on ecosystems or cause redirected impacts by degrading water quality or increasing net greenhouse gas emissions;

(9) supporting practices and projects, such as improved irrigation systems, water banking and other forms of water transactions, groundwater recharge, stormwater capture, groundwater conjunctive use, and reuse or recycling of drainage water, to improve water quality or promote more efficient water use on land currently in agricultural production;

(10) reducing flood damage, risk, and vulnerability by—

(A) restoring floodplains, wetlands, and uplands integral to flood management, protection, prevention, and response;

(B) modifying levees, floodwalls, and other structures through setbacks, notches, gates, re-

moval, or similar means to facilitate reconnection of rivers to floodplains, reduce flood stage height, and reduce damage to properties and populations;

(C) providing for acquisition and easement of flood-prone lands and properties in order to reduce damage to property and risk to populations; or

(D) promoting land use planning that prevents future floodplain development;

(11) conducting and completing studies or assessments to project how changing hydrologic conditions may impact the future operations and sustainability of water systems; or

(12) developing and implementing measures to increase the resilience of water systems and regional and hydrological basins, including the Colorado River Basin, to rapid hydrologic change or a natural disaster (such as tsunami, earthquake, flood, or volcanic eruption).

(d) APPLICATION.—To seek a grant under this section, the owner or operator of a water system shall submit to the Administrator an application that—

(1) includes a proposal of the program, strategy, or infrastructure improvement to be planned,

designed, constructed, implemented, or maintained by the water system;

(2) cites the best available research or data that demonstrate—

(A) the risk to the water resources or infrastructure of the water system as a result of ongoing or forecasted changes to the hydrological system of a region, including rising sea levels and changes in precipitation patterns; and

(B) how the proposed program, strategy, or infrastructure improvement would perform under the anticipated hydrologic conditions;

(3) explains how the proposed program, strategy, or infrastructure improvement is expected—

(A) to enhance the resiliency of the water system, including source water protection for community water systems, to the anticipated hydrologic conditions; or

(B) to increase efficiency in the use of energy or water of the water system; and

(4) describes how the proposed program, strategy, or infrastructure improvement is consistent with an applicable State, tribe, or local climate adaptation plan, if any.

(e) PRIORITY.—

(1) WATER SYSTEMS AT GREATEST AND MOST IMMEDIATE RISK.—In selecting grantees under this section, subject to subsection (h)(2), the Administrator shall give priority to owners or operators of water systems that are, based on the best available research and data, at the greatest and most immediate risk of facing significant negative impacts due to changing hydrologic conditions.

(2) GOALS.—In selecting among applicants described in paragraph (1), the Administrator shall ensure that, to the maximum extent practicable, the final list of applications funded for each year includes a substantial number that propose to utilize innovative approaches to meet one or more of the following goals:

(A) Promoting more efficient water use, water conservation, water reuse, or recycling.

(B) Using decentralized, low-impact development technologies and nonstructural approaches, including practices that use, enhance, or mimic the natural hydrological cycle or protect natural flows.

(C) Reducing stormwater runoff or flooding by protecting or enhancing natural ecosystem functions.

(D) Modifying, upgrading, enhancing, or replacing existing water system infrastructure in response to changing hydrologic conditions.

(E) Improving water quality or quantity for agricultural and municipal uses, including through salinity reduction.

(F) Providing multiple benefits, including to water supply enhancement or demand reduction, water quality protection or improvement, increased flood protection, and ecosystem protection or improvement.

(f) COST-SHARING.—

(1) FEDERAL SHARE.—The share of the cost of any program, strategy, or infrastructure improvement that is the subject of a grant awarded by the Administrator to the owner or operator of a water system under subsection (b) paid through funds distributed under this section shall not exceed 50 percent of the cost of the program, strategy, or infrastructure improvement.

(2) CALCULATION OF NON-FEDERAL SHARE.—In calculating the non-Federal share of the cost of

a program, strategy, or infrastructure improvement proposed by a water system in an application submitted under subsection (d), the Administrator shall—

(A) include the value of any in-kind services that are integral to the completion of the program, strategy, or infrastructure improvement, including reasonable administrative and overhead costs; and

(B) not include any other amount that the water system involved receives from the Federal Government.

(g) REPORT TO CONGRESS.—Not later than 3 years after the date of the enactment of this Act, and every 3 years thereafter, the Administrator shall submit to the Congress a report on progress in implementing this section, including information on project applications received and funded annually.

(h) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—To carry out this section, there is authorized to be appropriated $50,000,000 for each of fiscal years 2016 through 2020.

(2) LIMITATION.—Of the amount made available to carry out this section for a fiscal year, not more than 20 percent may be made available to

grantees for activities described in subsection (c)(10) (relating to reducing flood damage, risk, and vulnerability).

FWRT 2nd Round Operational Concept

Objectives

1. Ensure all users of the Flint water distribution system have been personally contacted through state efforts to be provided water filters, replacement filters, water test kits, and bottled water.
2. Obtain usable data to ensure full understanding of what has been accomplished by FWRTs.
3. Build public confidence by revisiting all areas previously covered.
4. Ensure standardized water filter use.

Single Family Residence

- Canvass using only National Guard personnel.
- Provide maps to each team daily to identify the area they are to canvass to avoid gaps and overlaps.
- Assign one person per team to collect data using the iPad application developed by GIS.
- Develop and use a standardized "script" will be to ensure consistency of
    - Replacement cartridges available
    - Number of cartridges available
    - Brand filter installed
    - Number of residents

Multi-unit residence

- Canvass using volunteer agencies using locations provided by City of Flint Building & Safety Department.
- Provide maps to each team daily to identify the area they are to canvass to avoid gaps and overlaps.
- Assign one person per team to collect data using the iPad application developed by GIS.
- Provide specialized training to team members.
- Develop a different approach than used in single family residence canvassing
- Contact each property owner or the designated agent (property manager) to identify the number of units occupied.
- Canvass each occupied unit at the address.
- Develop and use a standardized "script" will be to ensure consistency of
    - Replacement cartridges available
    - Number of cartridges available
    - Brand filter installed
    - Number of residents

Other Targeted Locations (Schools, Churches, Day Care Centers, Restaurants, Hospitals)

- Canvass using volunteer agencies using locations provided by City of Flint Building & Safety Department.
- Provide maps to each team daily to identify the area they are to canvass to avoid gaps and overlaps.
- Assign one person per team to collect data using the iPad application developed by GIS.
- Provide specialized training to team members.
- Develop and use a standardized "script" will be to ensure consistency of
    - Replacement cartridges available
    - Number of cartridges available
    - Brand filter installed

- Number of residents

Issues to Resolve

- Identify a lead contact for FWRT 2nd round operations.
- Establish a target date for completion for each of the target groups (single family residence, multi-unit residence, and all other targeted locations).
- Incorporate additional data fields into the iPad application and assign an individual to be responsible for developing data and coordinating with GIS.
- Develop a plan to address functional needs populations within each of the identified target groups.
- Determine how to effectively and accurately correlate from PODs with the data from other canvassing efforts.

FWRT 2nd Round Operational Concept

Objectives

1. Ensure all users of the Flint water distribution system have been personally contacted through state efforts to be provided water filters, replacement filters, water test kits, and bottled water.
2. Obtain usable data to ensure full understanding of what has been accomplished by FWRTs.
3. Build public confidence by revisiting all areas previously covered.
4. Ensure standardized water filter use.

Single Family Residence

- Canvass using only National Guard personnel.
- Provide maps to each team daily to identify the area they are to canvass to avoid gaps and overlaps.
- Assign one person per team to collect data using the iPad application developed by GIS.
- Develop and use a standardized "script" will be to ensure consistency of
    - Replacement cartridges available
    - Number of cartridges available
    - Brand filter installed
    - *Number of residents*

Multi-unit residence

- Canvass using volunteer agencies using locations provided by City of Flint Building & Safety Department.
- Provide maps to each team daily to identify the area they are to canvass to avoid gaps and overlaps.
- Assign one person per team to collect data using the iPad application developed by GIS.
- Provide specialized training to team members.
- Develop a different approach than used in single family residence canvassing
- Contact each property owner or the designated agent (property manager) to identify the number of units occupied.
- Canvass each occupied unit at the address.
- Develop and use a standardized "script" will be to ensure consistency of
    - Replacement cartridges available
    - Number of cartridges available
    - Brand filter installed
    - Number of residents

Other Targeted Locations (Schools, Churches, Day Care Centers, Restaurants, Hospitals)

- Canvass using volunteer agencies using locations provided by City of Flint Building & Safety Department.
- Provide maps to each team daily to identify the area they are to canvass to avoid gaps and overlaps.
- Assign one person per team to collect data using the iPad application developed by GIS.
- Provide specialized training to team members.
- Develop and use a standardized "script" will be to ensure consistency of
    - Replacement cartridges available
    - Number of cartridges available
    - Brand filter installed

- Number of residents

Issues to Resolve

- Identify a lead contact for FWRT 2nd round operations.
- Establish a target date for completion for each of the target groups (single family residence, multi-unit residence, and all other targeted locations).
- Incorporate additional data fields into the iPad application and assign an individual to be responsible for developing data and coordinating with GIS.
- Develop a plan to address functional needs populations within each of the identified target groups.
- Determine how to effectively and accurately correlate from PODs with the data from other canvassing efforts.

Operational Concept

Single Family Residence

- Canvassing by National Guard teams supported by MSP and local sheriff
- Maps to be provided by GIS to each team (daily) to identify the area they are to canvass to avoid gaps and/or overlaps
- Each team will have one person tasked with data collection using the iPad and application developed by GIS
- A "script" will be provided for consistency of canvassing (e.g. Do you have a filter kit? What type of filter do you have? Has the filter been installed? Do you have replacement cartridges for your filter kit? How many cartridges do you have? How many people reside at this address? etc.)
- Currently, do not believe attribute changes are needed to form fields for collection. Major concern is individual filter burn rates for replacement. Potentially add an item for total number of residents in a home.

Multi-unit residence

- Canvassing by volunteer agencies
- Locations provided by City of Flint (Building & Safety Department) who can assist in coordination with local complex owners and assist in coordinating the collection of water for testing
- Maps to be provided by GIS to each team (daily) to ~~identify the area they are to canvass to avoid gaps and/or overlaps~~indicate where multi-unit housing is and the status of team activities from the prior day (percent complete)
- Each team will have one person tasked with data collection ~~using the iPad~~per complex and a results will be aggregated by address and sent to SEOC planning to update facility statuses using ESRI for Office to update dashboards and metrics ~~and application developed by GIS~~
- Specialized training provided to team members (different approach than single family residence canvassing)
- Contact made with each property owner or their designated agent (property manager) to identify the number of units occupied
- Each occupied unit at the address will be canvassed and water samples gathered for occupied and non-occupied units in coordination with landlord and maintenance staff.
- A "script" will be provided for consistency of canvassing (e.g. Do you have a filter kit? What type of filter do you have? Has the filter been installed? Do you have replacement cartridges for your filter kit? How many cartridges do you have? How many people reside at this address? etc.)

All other targeted locations (Schools, churches, day care centers, restaurants, hospitals etc.)

- Canvassing by volunteer agencies in coordination with state agency overseeing specific facility type
- Locations provided by City of Flint (Building & Safety Department)
- Maps to be provided by GIS to each team (daily) to identify the area they are to canvass to avoid gaps and/or overlaps
- Each ~~team will have one person tasked with data collection using the iPad and application developed by GIS~~facility type will be tracked by the state agency who oversees that facility (i.e. ~ MDARD maintains master list for food and water facilities and updates status, MDCH maintains master list of hospitals, etc) Results will be tracked by state agency using ESRI for office to update dashboards and metrics.
- Specialized training provided to team members (different approach than single family residence canvassing)
- A "script" will be provided for consistency of canvassing (e.g. Do you have a filter kit? What type of filter do you have? Has the filter been installed? Do you have replacement cartridges for your filter kit? How many cartridges do you have? How many people reside at this address? etc.)

Comment [PGCS1]: Consideration for this process if day of the week and time. If a big push is not on the weekend we will still run into the same issue with individuals who work.

Comment [PGCS2]: I thinking tracking should still be done by teams. The state agencies should be identifying the POC for each specialized facility.

Other considerations

- Who will be the lead for this canvassing effort?
- What is the target date for completion for each of the target groups (single family residence, multi-unit residence, and all other targeted locations)?
- What additional data fields will be added to the iPad application and who is responsible for developing the data and coordinating with GIS for inclusion in the application?
- What (if anything) is needed to address functional needs populations within each of the identified target groups/
- How do we effectively and accurately merge the data form the PODs with the data from the canvassing teams?

January 19, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

I am submitting this letter of appeal in response to FEMA Administrator W. Craig Fugate's letter to me dated January 16, 2016. In that letter, he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint. I respectfully submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, to request a reconsideration of that decision.

Respectfully, I appeal the determination that the event "does not meet the legal definition of a 'major disaster' under 42 U.S.C. § 5122." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery.

While the definition under 44 C.F.R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster is analogous to the flood category, given that qualities within the water, over a long term, flooded and damaged the city's infrastructure in ways that were not immediately or easily detectable. Likewise, this disaster is a natural catastrophe in the sense that the contamination arose from the natural decay of Flint's aging infrastructure. These impacts will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. A narrow reading of this definition, restricting the hazards to which we can provide relief, does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

As additional support of this appeal, I offer the following information:

State and Local Government Capabilities

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions for much of the public water system damages can only come about with significant federal assistance made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million. The State is in the process of approving a second appropriation.

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local and state government Unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated there will be significant unmet needs as identified in the following areas of impacts. The only other possible option would be a special Congressional appropriation.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues. The ability of a community to recover with such a large percentage of its citizens living in poverty requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged. Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives.

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system. FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President. Any other Federal programs of assistance would be welcome.

Mitigation

With federal disaster relief, Michigan could provide funding under the Hazard Mitigation Grant Program or PAGP to the affected utility to implement cutting edge measures to mitigate the vulnerabilities of the water system against all types of physical threats. Without such assistance, such measures will not be possible.

Economic Injury

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

The economic injury to the affected communities from this disaster is significant. As I indicated in my declaration request letter, impacts including further decreases in property values, lost business activity, loss of employment and further loss in population will severely impact Flint and Genesee County.

As part of the disaster declaration request, I included assistance from the Small Business Administration (SBA) to provide financial relief to the scores of businesses impacted by this disaster. If such assistance were approved, the low-interest loans would provide much needed working capital to many businesses to allow them to continue to operate until their business picks up.

This disaster also comes on the heels of another Major Disaster (4195-DR-MI) that occurred in August of 2014. The state and those nearby counties and local municipalities are still recovering from that event

and now they have another major disaster to deal with, and few available resources to address the significant impacts to the health of the citizens and damages to public facilities.

Direct Federal Assistance

The federal government is highly engaged in event responses, such as the BP Deepwater Horizon disaster. The federal government established a National Response Team of 16 federal departments and agencies, ranging from the EPA to the SBA to the Department of Labor. Such engagement was critical to restoring public confidence to avoid further economic damage from perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in the use of tap water.

Conclusion

I sincerely believe that a Presidential Major Disaster Declaration is warranted due to the extraordinary circumstances involved in this disaster – the widespread and damage to public facilities, the potential long term damages to public health, and the substantial additional economic injury upon an already affected community. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, continues to be my designated State Coordinating Officer for this request. He will work with FEMA on program implementation and provide further information or justification on my behalf, as requested.

Sincerely,

Richard D. Snyder
Governor

January 19, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

In response to W. Craig Fugate's letter to me dated January 16, 2016, in which he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint, I submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, requesting a reconsideration of that decision. (I believe the letter should identify Mr. Fugate as the Administrator of FEMA, his official title. This opening paragraph is one long run-on sentence. I think it should be rewritten as two or more succinct sentences.)

Respectfully, I appeal the determination that the event "does not meet the legal definition of a "major disaster" under 42 U.S.C. § 5122, as implemented at 44 C.F.R. § § 206.2(17), the incident was not caused by a natural catastrophe, nor was it caused by fire, flood, or explosion." This unique disaster *poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration* for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery.

While the definition under 44 C.F.R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster expands and fits both within the categories of a storm and flood given that it was qualities within the water that, over a long term, flooded and damaged the city's infrastructure in a way that was not immediately or easily detectable and will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. I feel a A more narrow reading of this definition ~~I feel~~ does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels, if our primary mechanism for relief is read in a way that limits the hazards to which we can provide relief. (Again, the first sentence is a long run-on sentence and should be rewritten.)

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope ~~that~~ you will determine that providing assistance beyond "*appropriate assistance for required emergency measures...to save lives and to protect property and* public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

While I greatly appreciate the emergency declaration and the assistance it provides for the city of Flint, I am disappointed that no other assistance is being offered or suggested, whether through Stafford Act measures or through programs of other federal agencies.

As additional support of this appeal, I offer the following information:

<u>State and Local Government Capabilities</u>

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions ~~to~~ for much of the ~~public facility damage~~ public water system damages can only come about with significant federal assistance made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water ~~and is preparing a second~~. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million. The State is in the process of approving a second appropriation ...

NOTE: What do we know about the new appropriation/what can we include?

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local, state and federal government. Unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated there will be significant unmet needs as identified in the following areas of impacts. The only other possible option would be a special Congressional appropriation, which is unlikely.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues. The ability of a community to recover with such a large percentage of its citizens living in poverty ~~to recover~~ requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged. Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives.

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President. Any other Federal programs of assistance would be welcome.

Mitigation

With federal disaster relief, Michigan could provide funding under the Hazard Mitigation Grant Program or PAGP to the affected utility to implement cutting edge measures to mitigate the vulnerabilities of the water system against all types of physical threats. Without such assistance, such measures will not be possible.

Economic Injury

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment "

The economic injury to the affected communities from this disaster is significant. As I indicated in my declaration request letter, impacts including further decreases in property values, lost business activity, loss of employment and further loss in population will severely impact Flint and Genesee County.

As part of the disaster declaration request, I included assistance from the Small Business Administration (SBA) to provide financial relief to the scores of businesses impacted by this disaster. If such assistance were approved, the low-interest loans would provide much needed working capital to many businesses to allow them to continue to operate until their business picks up.

This disaster also comes on the heels of another Major Disaster (4195-DR-MI) that occurred in August of 2014. The state and those nearby counties and local municipalities are still recovering from that event and now they have another major disaster to deal with, and few available resources to address the ~~damages~~ significant impacts to the health of the citizens and damages to public facilities.

Direct Federal Assistance

The federal government is highly engaged in event responses, such as the BP Deepwater Horizon disaster. The federal government established a National Response Team of 16 federal departments and agencies, ranging from the EPA to the SBA to the Department of Labor. Such engagement was critical to restoring public confidence to avoid further economic damage from perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in the use of tap water.

Conclusion

I sincerely believe that a Presidential Major Disaster Declaration is warranted due to the extraordinary circumstances involved in this disaster – the widespread and damage to public facilities, the potential long term damages to public health, and the substantial additional economic injury upon an already affected community. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division continues to be my designated State Coordinating Officer for this request. He will work with FEMA on program implementation and provide further information or justification on my behalf, as requested.

Sincerely,

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope you will determine that providing assistance beyond "*appropriate assistance for required emergency measures...to save lives and to protect property and* public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

As additional support of this appeal, I offer the following information:

State and Local Government Capabilities

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions for much of the public water system damages can only come about with significant federal assistance made available under a *Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided* thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million. The State is in the process of approving a second appropriation.

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local and state government. Unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated there will be significant unmet needs as identified in the following areas of impacts. The only other possible option would be a special Congressional appropriation.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues. The ability of a community to recover with such a large percentage of its citizens living in poverty requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged. Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives.

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system. FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President. Any other Federal programs of assistance would be welcome.

Mitigation

With federal disaster relief, Michigan could provide funding under the Hazard Mitigation Grant Program or PAGP to the affected utility to implement cutting edge measures to mitigate the vulnerabilities of the water system against all types of physical threats. Without such assistance, such measures will not be possible.

Economic Injury

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

The economic injury to the affected communities from this disaster is significant. As I indicated in my declaration request letter, impacts including further decreases in property values, lost business activity, loss of employment and further loss in population will severely impact Flint and Genesee County.

As part of the disaster declaration request, I included assistance from the Small Business Administration (SBA) to provide financial relief to the scores of businesses impacted by this disaster. If such assistance were approved, the low-interest loans would provide much needed working capital to many businesses to allow them to continue to operate until their business picks up.

This disaster also comes on the heels of another Major Disaster (4195-DR-MI) that occurred in August of 2014. The state and those nearby counties and local municipalities are still recovering from that event

and now they have another major disaster to deal with, and few available resources to address the significant impacts to the health of the citizens and damages to public facilities.

Direct Federal Assistance

The federal government is highly engaged in event responses, such as the BP Deepwater Horizon disaster. The federal government established a National Response Team of 16 federal departments and agencies, ranging from the EPA to the SBA to the Department of Labor. Such engagement was critical to restoring public confidence to avoid further economic damage from perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in the use of tap water.

Conclusion

I sincerely believe that a Presidential Major Disaster Declaration is warranted due to the extraordinary circumstances involved in this disaster – the widespread and damage to public facilities, the potential long term damages to public health, and the substantial additional economic injury upon an already affected community. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, continues to be my designated State Coordinating Officer for this request. He will work with FEMA on program implementation and provide further information or justification on my behalf, as requested.

Sincerely,

Richard D. Snyder
Governor

Chicago, IL, 60605

Dear Mr. President:

I am submitting this letter of appeal in response to FEMA Administrator W. Craig Fugate's letter to me dated January 16, 2016. In that letter, he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint. I respectfully submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, to request a reconsideration of that decision.

Respectfully, I appeal the determination that the event "does not meet the legal definition of a 'major disaster' under 42 U.S.C. § 5122." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery.

While the definition under 44 C.F.R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster is analogous to the flood category, given that qualities within the water, over a long term, flooded and damaged the city's infrastructure in ways that were not immediately or easily detectable. Likewise, this disaster is a natural catastrophe in the sense that the contamination arose from the natural decay of Flint's aging infrastructure. These impacts will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. A narrow reading of this definition, restricting the hazards to which we can provide relief, does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

As additional support of this appeal, I offer the following information:

State and Local Government Capabilities

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions for much of the public water system damages can only come about with significant federal assistance made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. Chicago, IL, 60605

Dear Mr. President:

In response to W. Craig Fugate's letter to me dated January 16, 2016, in which he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint, I submit this letter of appeal, *in accordance with the provisions set forth in 44 CFR § 206.46,* requesting a reconsideration of that decision. (I believe the letter should identify Mr. Fugate as the Administrator of FEMA, his official title. This opening paragraph is one long run-on sentence. I think it should be rewritten as two or more succinct sentences.)

Respectfully, I appeal the determination that the event "does not meet the legal definition of a "major disaster" under 42 U.S C. § 5122, as implemented at 44 C.F.R. § § 206.2(17), the incident was not caused by a natural catastrophe, nor was it caused by fire, flood, or explosion." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery.

While the definition under 44 C.F.R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster expands and fits both within the categories of a storm and flood given that it was qualities within the water that, over a long term, flooded and damaged the city's infrastructure in a way that was not immediately or easily detectable and will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, *county, or state have the capacity to conduct.* I *feel a* A *more narrow reading of this definition* ~~I feel~~ does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels, if our primary mechanism for relief is read in a way that limits the hazards to *which we can provide relief. (Again, the first sentence is a long run-on sentence and should be rewritten.)*

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope ~~that~~ *you will determine that providing assistance beyond* "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

While I greatly appreciate the emergency declaration and the assistance it provides for the city of Flint, I am disappointed that no other assistance is being offered or suggested, whether through Stafford Act measures or through programs of other federal agencies.

As additional support of this appeal, I offer the following information:

<u>State and Local Government Capabilities</u>

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions ~~to~~ for much of the ~~public facility damage~~ public water system damages can only come about with significant federal assistance made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water ~~and is preparing a second~~. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million. The State is in the process of approving a second appropriation ...

NOTE: What do we know about the new appropriation/what can we include?

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local, state and federal government. Unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated there will be significant unmet needs as identified in the following areas of impacts. The only other possible option would be a special Congressional appropriation, which is unlikely.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues. The ability of a community to recover with such a large percentage of its citizens living in poverty ~~to recover~~ requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged. Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives.

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system. FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President. Dear Mr. President.

In response to W. Craig Fugate's letter to me dated January 16, 2016, in which he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint, I submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, requesting a reconsideration of that decision.

Respectfully, I appeal the determination that the event "does not meet the legal definition of a "major disaster" under 42 U.S.C. § 5122, as implemented at 44 C.F.R. § § 206.2(17), the incident was not caused by a natural catastrophe, nor was it caused by fire, flood, or explosion " This unique disaster poses imminent and long-term threat to the citizens of Flint Its severity warrants special consideration for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery.

While the definition under 44 C.F.R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster expands and fits both within the categories of a storm and flood given that it was qualities within the water that, over a long term, flooded and damaged the city's infrastructure in a way that was not immediately or easily detectable and will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. A more narrow reading of this definition I feel does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels, if our primary mechanism for relief is read in a way that limits the hazards to which we can provide relief.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope that you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

While I greatly appreciate the emergency declaration and the assistance it provides for the city of Flint, I am disappointed that no other assistance is being offered or suggested, whether through Stafford Act measures or through programs of other federal agencies.

As additional support of this appeal, I offer the following information:

State and Local Government Capabilities

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions to much of the public facility

damage can only come about with significant federal assistance made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water and is preparing a second The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million.

NOTE: What do we know about the new appropriation/what can we include?

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local, state and federal government unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated. The only other possible option would be a special Congressional appropriation, which is unlikely.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues The ability of a community with such a large percentage of its citizens living in poverty to recover requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged. Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives.

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system. FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President. Any other Federal programs of assistance would be welcome.

Mitigation

With federal disaster relief, Michigan could provide funding under the Hazard Mitigation Grant Program or PAGP to the affected utility to implement cutting edge measures to mitigate the vulnerabilities of the water system against all types of physical threats. Without such assistance, such measures will not be possible.

Economic Injury

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

The economic injury to the affected communities from this disaster is significant. As I indicated in my declaration request letter, impacts including further decreases in property values, lost business activity, loss of employment and further loss in population will severely impact Flint and Genesee County.

As part of the disaster declaration request, I included assistance from the Small Business Administration (SBA) to provide financial relief to the scores of businesses impacted by this disaster. If such assistance were approved, the low-interest loans would provide much needed working capital to many businesses to allow them to continue to operate until their business picks up.

This disaster also comes on the heels of another Major Disaster (4195-DR-MI) that occurred in August of 2014. The state and those nearby counties and local municipalities are still recovering from that event and now they have another major disaster to deal with and few available resources to address the damages to health and public facilities.

Direct Federal Assistance

The federal government is highly engaged in event responses, such as the BP Deepwater Horizon disaster. The federal government established a National Response Team of 16 federal departments and agencies, ranging from the EPA to the SBA to the Department of Labor. Such engagement was critical to restoring public confidence to avoid further economic damage from perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in the use of tap water.

Conclusion

I sincerely believe that a Presidential Major Disaster Declaration is warranted due to the extraordinary circumstances involved in this disaster – the widespread and damage to public facilities, the potential long term damages to public health, and the substantial additional economic injury upon an already affected community. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division continues to be my designated State Coordinating Officer for this request. He will work with FEMA on program implementation and provide further information or justification on my behalf, as requested

Sincerely,

Richard D. Snyder
Governor

Chicago, IL, 60605

Dear Mr. President:

In response to W. Craig Fugate's letter to me dated January 16, 2016, in which he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint, I submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, requesting a reconsideration of that decision.

Respectfully, I appeal the determination that the event "does not meet the legal definition of a "major disaster" under 42 U.S.C. § 5122, as implemented at 44 C.F.R. § § 206.2(17), the incident was not caused by a natural catastrophe, nor was it caused by fire, flood, or explosion." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery.

While the definition under 44 C.F.R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster expands and fits both within the categories of a storm and flood given that it was qualities within the water that, over a long term, flooded and damaged the city's infrastructure in a way that was not immediately or easily detectable and will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope that you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

While I greatly appreciate the emergency declaration and the assistance it provides for the city of Flint, I am disappointed no other assistance is being offered or suggested, whether through Stafford Act measures or through programs of other federal agencies. In addition to this appeal through Stafford Act measures, I respectfully request assistance beyond providing "water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days."

As additional support of this appeal, I offer the following information:

State and Local Government Capabilities

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions to much of the public facility damage can only come about with significant federal assistance made available under a Presidential

Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water and is preparing a second. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million.

NOTE: What do we know about the new appropriation/what can we include?

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local, state and federal government unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated. The only other possible option would be a special Congressional appropriation, which is unlikely.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues. The ability of a community with such a large percentage of its citizens living in poverty to recover requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged. Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system. FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President. Any other Federal programs of assistance would be welcome.

Mitigation

With federal disaster relief, Michigan could provide funding under the Hazard Mitigation Grant Program or PAGP to the affected utility to implement cutting edge measures to mitigate the vulnerabilities of the water system against all types of physical threats. Without such assistance, such measures will not be possible.

Economic Injury

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

The economic injury to the affected communities from this disaster is significant. As I indicated in my declaration request letter, impacts including further decreases in property values, lost business activity, loss of employment and further loss in population will severely impact Flint and Genesee County.

As part of the disaster declaration request, I included assistance from the Small Business Administration (SBA) to provide financial relief to the scores of businesses impacted by this disaster. If such assistance were approved, the low-interest loans would provide much needed working capital to many businesses to allow them to continue to operate until their business picks up

This disaster also comes on the heels of another Major Disaster (4195-DR-MI) that occurred in August of 2014. The state and those nearby counties and local municipalities are still recovering from that event and now they have another major disaster to deal with and few available resources to address the damages to health and public facilities.

Direct Federal Assistance

The federal government is highly engaged in event responses, such as the BP Deepwater Horizon disaster. The federal government established a National Response Team of 16 federal departments and agencies, ranging from the EPA to the SBA to the Department of Labor. Such engagement was critical to restoring public confidence to avoid further economic damage from perceived contamination In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in the use of tap water.

Conclusion

I sincerely believe that a Presidential Major Disaster Declaration is warranted due to the extraordinary circumstances involved in this disaster – the widespread and damage to public facilities, the potential long term damages to public health, and the substantial additional economic injury upon an already affected community. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division continues to be my designated State Coordinating Officer for this request. He will work with FEMA on program implementation and provide further information or justification on my behalf, as requested.

Sincerely,

Richard D. Snyder
Governor

Dear Mr. President:

In response to W. Craig Fugate's letter to me dated January 16, 2016, in which he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint, I hereby respectively submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, requesting a reconsideration of that decision. While this unique disaster did not result from natural catastrophe, fire, flood or explosion, it poses imminent and long-term threat to the citizens of Flint. I believe the severity of this disaster warrants all categories of the Individual and Public Assistance Programs in order to facilitate suitable recovery. In support of this appeal, I offer the following information:

State and Local Government Capabilities

While I agree with Mr. Brown's assessment that considerable local and state resources were brought to bear in response to this situation, I strongly disagree with the assertion that "effective response does not appear to exceed the combined capabilities of the State and local governments." In fact, nothing could be farther from the truth. State agencies and local governments were able to provide short-term solutions to many problems related to this flooding. However, permanent solutions to much of the public facility damage and environmental degradation can only come about if significant federal assistance is made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by the U.S. Army Corps of Engineers (USACE) and Natural Resources Conservation Service (NRCS), those efforts are simply not sufficient to meet the long-term recovery needs of this situation.

Limited Federal Assistance Has Not Addressed All Needs

The NRCS has identified eight "urgent and compelling" stream bank stabilization sites, totaling $733,000 in project costs, that it intends to address with Emergency Watershed Program (EWP) funding. The NRCS share of these eight projects would total $550,000, and the local governments would be expected to contribute the remaining $183,000. However, this assistance is only intended to provide a temporary "band-aid" for the affected sites until permanent restorative work can be completed. Unfortunately, the NRCS does not have provisions for that type of assistance under its emergency relief authorities and funding mechanisms. As a result, the affected counties are left without a ready funding source for the permanent restorative work unless the Public Assistance Grant Program (PAGP) is activated under a federal declaration.

The amount of permanent restorative work that needs to be done in the Dead River Watershed greatly exceeds available local, state and federal financial resources, absent a Presidential Major Disaster Declaration. The Central Lake Superior Watershed Partnership estimates the total flood-related damages in the Dead River Watershed to be $28.3 million. Of that total, $4 5 million is for temporary stream bank stabilization measures, $19 million is for soil restoration (1.9+ million cubic yards), $800,000 is for

sediment removal measures to be implemented over a five-year period, and $4 million is for habitat restoration projects. (It should be noted that the $19 million soil restoration estimate does not include over 1 million cubic yards of soil lost in the Silver Lake dike and Tourist Park dam. If that is included, the total soil restoration cost approaches $30 million. Also, the $4.5 million in stream bank stabilization measures are for stabilizing the stream banks in their current condition and not restoring them to their original, pre-flood condition.) As you can see, the considerable environmental needs brought about by this flooding greatly exceed the collective funding resources of local, state and federal government unless a Presidential Major Disaster Declaration is granted and the PAGP is activated. The only other possible option might be a special Congressional appropriation, which is highly unlikely given the current difficult status of the federal budget

The dredging assistance provided thus far by the USACE has been instrumental in restoring the basic navigability of the Dead River and the Marquette Harbor, but it has not removed all impediments to navigation nor permanently restored the areas ravaged by the Dead River floodwater. Again, additional federal assistance is required to restore the Dead River and Lake Superior waters to their pre-flood conditions, thereby providing an acceptable level of safety for commercial navigation interests and boating public alike.

To help address a portion of the road and bridge damage in the four affected counties, the Michigan Department of Transportation (MDOT) will be submitting a formal request for $2.5 million in Federal Highway Administration (FHWA) funding assistance under the FHWA Emergency Relief Program. However, that assistance – if granted – will only address those damaged facilities that are part of the Federal-Aid System (FAS). The FAS damage amounted to approximately 50 percent of the identified $4.8 million in public road and bridge damage, leaving the remaining 50 percent of road and bridge damage (approximately $2.3 million) with no ready means of permanent repair, restoration and replacement In addition, another $2 1 million in other public damages (under PAGP Categories A, B, D, E, F and G) have been left unfunded by the denial of our declaration request. The State of Michigan and the affected local governments do not have the available funding to address these unmet public damage needs and bring the affected facilities back to full operational status. As I indicated in my declaration request letter, the State and these same four counties are still dealing with another major flood disaster that occurred in this same area only a year earlier (1413-DR-MI) and we simply don't have the financial resources to address this additional, unexpected public facility damage.

Damage to Dams Not Completely Addressed

The Preliminary Damage Assessment (PDA) conducted for this disaster identified only $145,306 in damage to dams and other water control facilities, even though the flooding completely destroyed two publicly-owned and operated dams I believe this damage figure is far too low and apparently does not include the complete cost of rebuilding the two dams (the Tourist Park Dam in Marquette and the Loughs Lake Dam in Baraga County) to their pre-flood condition The Marquette Board of Light and Power estimates that the cost of restoring the earthen fill to the Tourist Park Dam alone will approach $1.1 million – far in excess of the $145,306 in total damage identified under PAGP Category D in the PDA. These dams together provide valuable water control and recreation functions for the local communities and the region; therefore, it is imperative that they be rebuilt as quickly as possible.

Unfortunately, the State and the affected local communities do not have the funding at this time to undertake such a project, and as you know, funding under the National Dam Safety Program cannot be used for this purpose because physical improvements and construction activities are not eligible grant activities. The USACE and NRCS have not identified or offered ready sources of funding for the reconstruction of these two dams. I believe FEMA's PAGP provides the best source of funding for rebuilding and restoring these valuable and needed public facilities, and that program can only be activated through the declaration of a Major Disaster by the President.

Lingering Public Health, Safety, and Environmental Threats

Although strides have been made in addressing the many public safety threats and the environmental degradation brought about by this severe flooding, there are considerable lingering issues yet to be addressed. For example, local governments have done an excellent job in identifying and cordoning off unstable stream banks and other unsafe areas. However, as I indicated earlier, permanent

solutions for those dangerous sites will not come about in a timely manner unless significant federal funding resources are made available to restore, repair and permanently stabilize the areas.

Similarly, while the Dead River is open for recreational use and warning signs have been posted at boat launch sites warning boaters and swimmers to be alert for dangerous conditions, those temporary preventive measures are hardly a final, permanent solution to the problem of subsurface flood debris, sedimentation, siltation, bacteria and chemical pollution brought about by the flooding Again, permanent solutions are needed to eliminate these significant threats to public health and safety and the environment

The environmental damage to the Dead River Watershed may also adversely affect future flood control activities because the river has changed its course and characteristics in many areas upstream of and in and around the city of Marquette. Unless the failed water control structures and stream banks are replaced / restored to their pre-flood condition, it will be difficult to predict exactly how well the Watershed will handle future flooding events. It is entirely possible that previously flood-free areas and structures will now be flood prone due to the new Watershed characteristics, and the generation of hydro power may be affected as well. These are all distinct possibilities unless the Watershed is restored to its pre-flood condition In its pre-flood condition, the Watershed performed in a predictable manner and the flood control and power generation characteristics and capabilities were well documented. In its current post-flood condition, the Watershed has unknown characteristics and capabilities that may adversely affect the citizens of the city of Marquette and Marquette County in the years to come. I do not want to take a "wait and see" attitude in this situation, and I am certain the affected local citizenry does not want to be part of such an experiment either Prompt and prudent action is called for to help rebuild and restore the environmental and hydraulic / hydrologic characteristics of the Dead River Watershed.

Unfortunately, the State and the affected local governments are in no position to provide those solutions without a significant infusion of federal disaster relief assistance. I believe that the direct federal debris removal assistance I requested in my June 4, 2003 letter would have addressed the majority of the health and safety concerns related to debris, sedimentation, siltation and water quality. Activation of the PAGP would have provided the ready means to restore many of the damaged public facilities that provide critical water control, power generation and transportation functions

Vulnerable Power Generation and Distribution Capabilities

This flood disaster exposed the relatively fragile nature of the Upper Peninsula's power generation and distribution network Even as bad as the situation has been, it could have been much worse had one or both of the remaining dams on the Dead River failed and severely damaged or destroyed the Presque Isle Power Plant in Marquette. Fortunately, the power plant survived mostly intact from a physical standpoint, but it took a major hit from an operational standpoint. The plant has been off-line for several weeks, and even now only six of the nine generating units are back on-line. As you know, the power generation situation has been precarious at best since the flooding occurred and has caused millions of dollars in economic injury to the central and western Upper Peninsula and temporarily idled two major iron ore mines that produce 20 percent of the U. S iron ore supply.

Although the region voluntarily adjusted its power consumption to cope with the reduction in electrical power availability and it generally succeeded in that regard, had this disaster occurred in colder weather the situation could have been much more serious To prevent that type of situation from ever occurring again and to reduce the vulnerability of this plant and the regional distribution network to all types of natural and manmade threats (up to and including acts of sabotage and terrorism), I believe that prudent mitigation measures may be called for. If federal disaster relief assistance is made available, we may be able to provide funding (under the Hazard Mitigation Grant Program or PAGP) to the affected utilities in the region to undertake needed measures to mitigate the vulnerabilities of the power generation and distribution facilities to all types of physical threats Without such assistance, those measures will not likely be taken due to lack of funding.

Economic Injury to the Region

The economic injury to the four affected counties and the region from this flood disaster is significant. Only now are many of the negative economic impacts coming to light. As I indicated in my June 4 declaration request letter, the estimated economic impact to Marquette County alone is in excess of $80 million. I have requested that the Small Business Administration (SBA) activate its Economic Injury Loan Program, under its own statutory authority, to provide much needed financial relief to the dozens of businesses negatively impacted by this flood disaster. That request is currently pending. Even if the request is approved, the assistance rendered will be in the form of low-interest loans which must be paid back. For many struggling businesses, another loan is often the last thing that they need However, for many other businesses the loans will provide much needed working capital and a margin of safety that will allow them to continue to operate until their business picks up.

One form of economic injury that will not be addressed by the SBA Economic Injury Loan Program is the increased costs of electric power generation and distribution brought about by this flood disaster. The two private utilities primarily affected by the flooding – the Upper Peninsula Power Company (UPPCO) and Wisconsin Electric (WE Energies) – have incurred increased costs in excess of $10 million. In all likelihood, the bulk of those costs will be passed on to electrical customers – individuals, families, businesses and institutions – in the form of electric rate increases allowed by the Power Supply Cost Recovery mechanism administered by the Michigan Public Service Commission. That $10+ million is $10+ million that will not be spent in other segments of the local and regional economy – at restaurants, retail establishments and other businesses, at colleges / universities, at travel and tourism destinations, etc. – effectively taking the money out of widespread economic circulation.

The economic injury to public agencies in the affected area is significant as well and unfortunately is also not covered under the SBA Economic Injury Loan Program. Unless the PAGP is activated, the State and the affected local communities will not have a ready funding source for repairing, rebuilding and restoring the many critical public facilities damaged or destroyed in this disaster As I indicated earlier, this disaster comes on the heels of another Major Disaster (1413-DR-MI) that occurred just a year earlier in these same four counties. The counties and local municipalities are still recovering from that event, and now they have yet another major flooding disaster to deal with and not much in the way of available resources to address the public facility damage and the many public health, safety, and environmental threats.

I sincerely believe that a Presidential Major Disaster Declaration is warranted in this situation due to the extraordinary circumstances involved in this flooding disaster – the catastrophic failure of two dams, the widespread and severe public facility damage and environmental degradation, the prolonged reduction in electric power generation capability, and the severe economic injury inflicted upon the affected communities and the region. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act

I have designated First Lieutenant Ralph Hobrat of the Michigan State Police, Emergency Management Division as the State Coordinating Officer for this appeal request. He can be reached by telephone at (517) 333-5048 and by e-mail at hobratr@michigan.gov. F/Lt. Hobrat will work with the FEMA in conducting additional damage assessments as necessary and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

In response to W. Craig Fugate's letter to me dated January 16, 2016, in which he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint, I hereby respectively submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, requesting a reconsideration of that decision. While this unique disaster did not result from natural catastrophe, fire, flood or explosion, it poses imminent and long-term threat to the citizens of Flint. I believe the severity of this disaster warrants all categories of the Individual and Public Assistance Programs in order to facilitate suitable recovery. In support of this appeal, I offer the following information:

State and Local Government Capabilities

While I agree with Mr. Brown's assessment that considerable local and state resources were brought to bear in response to this situation, I strongly disagree with the assertion that "effective response does not appear to exceed the combined capabilities of the State and local governments " In fact, nothing could be farther from the truth. State agencies and local governments were able to provide short-term solutions to many problems related to this flooding. However, permanent solutions to much of the public facility damage and environmental degradation can only come about if significant federal assistance is made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by the U.S. Army Corps of Engineers (USACE) and Natural Resources Conservation Service (NRCS), those efforts are simply not sufficient to meet the long-term recovery needs of this situation.

Limited Federal Assistance Has Not Addressed All Needs

The NRCS has identified eight "urgent and compelling" stream bank stabilization sites, totaling $733,000 in project costs, that it intends to address with Emergency Watershed Program (EWP) funding The NRCS share of these eight projects would total $550,000, and the local governments would be expected to contribute the remaining $183,000 However, this assistance is only intended to provide a temporary "band-aid" for the affected sites until permanent restorative work can be completed Unfortunately, the NRCS does not have provisions for that type of assistance under its emergency relief authorities and funding mechanisms As a result, the affected counties are left without a ready funding source for the permanent restorative work unless the Public Assistance Grant Program (PAGP) is activated under a federal declaration.

The amount of permanent restorative work that needs to be done in the Dead River Watershed greatly exceeds available local, state and federal financial resources, absent a Presidential Major Disaster Declaration. The Central Lake Superior Watershed Partnership estimates the total flood-related damages in the Dead River Watershed to be $28.3 million. Of that total, $4.5 million is for temporary stream bank stabilization measures, $19 million is for soil restoration (1.9+ million cubic yards), $800,000 is for

sediment removal measures to be implemented over a five-year period, and $4 million is for habitat restoration projects (It should be noted that the $19 million soil restoration estimate does not include over 1 million cubic yards of soil lost in the Silver Lake dike and Tourist Park dam. If that is included, the total soil restoration cost approaches $30 million. Also, the $4.5 million in stream bank stabilization measures are for stabilizing the stream banks in their current condition and not restoring them to their original, pre-flood condition) As you can see, the considerable environmental needs brought about by this flooding greatly exceed the collective funding resources of local, state and federal government unless a Presidential Major Disaster Declaration is granted and the PAGP is activated. The only other possible option might be a special Congressional appropriation, which is highly unlikely given the current difficult status of the federal budget.

The dredging assistance provided thus far by the USACE has been instrumental in restoring the basic navigability of the Dead River and the Marquette Harbor, but it has not removed all impediments to navigation nor permanently restored the areas ravaged by the Dead River floodwater. Again, additional federal assistance is required to restore the Dead River and Lake Superior waters to their pre-flood conditions, thereby providing an acceptable level of safety for commercial navigation interests and boating public alike.

To help address a portion of the road and bridge damage in the four affected counties, the Michigan Department of Transportation (MDOT) will be submitting a formal request for $2.5 million in Federal Highway Administration (FHWA) funding assistance under the FHWA Emergency Relief Program. However, that assistance – if granted – will only address those damaged facilities that are part of the Federal-Aid System (FAS). The FAS damage amounted to approximately 50 percent of the identified $4.8 million in public road and bridge damage, leaving the remaining 50 percent of road and bridge damage (approximately $2.3 million) with no ready means of permanent repair, restoration and replacement. In addition, another $2.1 million in other public damages (under PAGP Categories A, B, D, E, F and G) have been left unfunded by the denial of our declaration request The State of Michigan and the affected local governments do not have the available funding to address these unmet public damage needs and bring the affected facilities back to full operational status. As I indicated in my declaration request letter, the State and these same four counties are still dealing with another major flood disaster that occurred in this same area only a year earlier (1413-DR-MI) and we simply don't have the financial resources to address this additional, unexpected public facility damage.

Damage to Dams Not Completely Addressed

The Preliminary Damage Assessment (PDA) conducted for this disaster identified only $145,306 in damage to dams and other water control facilities, even though the flooding completely destroyed two publicly-owned and operated dams. I believe this damage figure is far too low and apparently does not include the complete cost of rebuilding the two dams (the Tourist Park Dam in Marquette and the Loughs Lake Dam in Baraga County) to their pre-flood condition. The Marquette Board of Light and Power estimates that the cost of restoring the earthen fill to the Tourist Park Dam alone will approach $1.1 million – far in excess of the $145,306 in total damage identified under PAGP Category D in the PDA. These dams together provide valuable water control and recreation functions for the local communities and the region; therefore, it is imperative that they be rebuilt as quickly as possible.

Unfortunately, the State and the affected local communities do not have the funding at this time to undertake such a project, and as you know, funding under the National Dam Safety Program cannot be used for this purpose because physical improvements and construction activities are not eligible grant activities. The USACE and NRCS have not identified or offered ready sources of funding for the reconstruction of these two dams. I believe FEMA's PAGP provides the best source of funding for rebuilding and restoring these valuable and needed public facilities, and that program can only be activated through the declaration of a Major Disaster by the President.

Lingering Public Health, Safety, and Environmental Threats

Although strides have been made in addressing the many public safety threats and the environmental degradation brought about by this severe flooding, there are considerable lingering issues yet to be addressed. For example, local governments have done an excellent job in identifying and cordoning off unstable stream banks and other unsafe areas. However, as I indicated earlier, permanent

solutions for those dangerous sites will not come about in a timely manner unless significant federal funding resources are made available to restore, repair and permanently stabilize the areas

Similarly, while the Dead River is open for recreational use and warning signs have been posted at boat launch sites warning boaters and swimmers to be alert for dangerous conditions, those temporary preventive measures are hardly a final, permanent solution to the problem of subsurface flood debris, sedimentation, siltation, bacteria and chemical pollution brought about by the flooding. Again, permanent solutions are needed to eliminate these significant threats to public health and safety and the environment

The environmental damage to the Dead River Watershed may also adversely affect future flood control activities because the river has changed its course and characteristics in many areas upstream of and in and around the city of Marquette Unless the failed water control structures and stream banks are replaced / restored to their pre-flood condition, it will be difficult to predict exactly how well the Watershed will handle future flooding events. It is entirely possible that previously flood-free areas and structures will now be flood prone due to the new Watershed characteristics, and the generation of hydro power may be affected as well. These are all distinct possibilities unless the Watershed is restored to its pre-flood condition. In its pre-flood condition, the Watershed performed in a predictable manner and the flood control and power generation characteristics and capabilities were well documented. In its current post-flood condition, the Watershed has unknown characteristics and capabilities that may adversely affect the citizens of the city of Marquette and Marquette County in the years to come. I do not want to take a "wait and see" attitude in this situation, and I am certain the affected local citizenry does not want to be part of such an experiment either. Prompt and prudent action is called for to help rebuild and restore the environmental and hydraulic / hydrologic characteristics of the Dead River Watershed.

Unfortunately, the State and the affected local governments are in no position to provide those solutions without a significant infusion of federal disaster relief assistance. I believe that the direct federal debris removal assistance I requested in my June 4, 2003 letter would have addressed the majority of the health and safety concerns related to debris, sedimentation, siltation and water quality. Activation of the PAGP would have provided the ready means to restore many of the damaged public facilities that provide critical water control, power generation and transportation functions

Vulnerable Power Generation and Distribution Capabilities

This flood disaster exposed the relatively fragile nature of the Upper Peninsula's power generation and distribution network. Even as bad as the situation has been, it could have been much worse had one or both of the remaining dams on the Dead River failed and severely damaged or destroyed the Presque Isle Power Plant in Marquette. Fortunately, the power plant survived mostly intact from a physical standpoint, but it took a major hit from an operational standpoint The plant has been off-line for several weeks, and even now only six of the nine generating units are back on-line As you know, the power generation situation has been precarious at best since the flooding occurred and has caused millions of dollars in economic injury to the central and western Upper Peninsula and temporarily idled two major iron ore mines that produce 20 percent of the U. S. iron ore supply.

Although the region voluntarily adjusted its power consumption to cope with the reduction in electrical power availability and it generally succeeded in that regard, had this disaster occurred in colder weather the situation could have been much more serious. To prevent that type of situation from ever occurring again and to reduce the vulnerability of this plant and the regional distribution network to all types of natural and manmade threats (up to and including acts of sabotage and terrorism), I believe that prudent mitigation measures may be called for. If federal disaster relief assistance is made available, we may be able to provide funding (under the Hazard Mitigation Grant Program or PAGP) to the affected utilities in the region to undertake needed measures to mitigate the vulnerabilities of the power generation and distribution facilities to all types of physical threats Without such assistance, those measures will not likely be taken due to lack of funding.

Economic Injury to the Region

The economic injury to the four affected counties and the region from this flood disaster is significant. Only now are many of the negative economic impacts coming to light As I indicated in my June 4 declaration request letter, the estimated economic impact to Marquette County alone is in excess of $80 million. I have requested that the Small Business Administration (SBA) activate its Economic Injury Loan Program, under its own statutory authority, to provide much needed financial relief to the dozens of businesses negatively impacted by this flood disaster. That request is currently pending. Even if the request is approved, the assistance rendered will be in the form of low-interest loans which must be paid back. For many struggling businesses, another loan is often the last thing that they need. However, for many other businesses the loans will provide much needed working capital and a margin of safety that will allow them to continue to operate until their business picks up.

One form of economic injury that will not be addressed by the SBA Economic Injury Loan Program is the increased costs of electric power generation and distribution brought about by this flood disaster. The two private utilities primarily affected by the flooding – the Upper Peninsula Power Company (UPPCO) and Wisconsin Electric (WE Energies) – have incurred increased costs in excess of $10 million. In all likelihood, the bulk of those costs will be passed on to electrical customers – individuals, families, businesses and institutions – in the form of electric rate increases allowed by the Power Supply Cost Recovery mechanism administered by the Michigan Public Service Commission That $10+ million is $10+ million that will not be spent in other segments of the local and regional economy – at restaurants, retail establishments and other businesses, at colleges / universities, at travel and tourism destinations, etc. – effectively taking the money out of widespread economic circulation.

The economic injury to public agencies in the affected area is significant as well and unfortunately is also not covered under the SBA Economic Injury Loan Program. Unless the PAGP is activated, the State and the affected local communities will not have a ready funding source for repairing, rebuilding and restoring the many critical public facilities damaged or destroyed in this disaster As I indicated earlier, this disaster comes on the heels of another Major Disaster (1413-DR-MI) that occurred just a year earlier in these same four counties. The counties and local municipalities are still recovering from that event, and now they have yet another major flooding disaster to deal with and not much in the way of available resources to address the public facility damage and the many public health, safety, and environmental threats.

I sincerely believe that a Presidential Major Disaster Declaration is warranted in this situation due to the extraordinary circumstances involved in this flooding disaster – the catastrophic failure of two dams, the widespread and severe public facility damage and environmental degradation, the prolonged reduction in electric power generation capability, and the severe economic injury inflicted upon the affected communities and the region. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

I have designated First Lieutenant Ralph Hobrat of the Michigan State Police, Emergency Management Division as the State Coordinating Officer for this appeal request. He can be reached by telephone at (517) 333-5048 and by e-mail at hobratr@michigan.gov. F/Lt. Hobrat will work with the FEMA in conducting additional damage assessments as necessary and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River on April 25, 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it can not be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing

warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency.

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MDTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MDTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, MDTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain

blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water on April 25, 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and

will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The current focus is on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating replacement costs which could be as much as $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges. Seven trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More of the above resources are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water – 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuild efforts and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5 9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U S Census Bureau American Community Survey 2010-2014, Selected Social Charactenstics in the U S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, there could be an estimated need as much as $53 million to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief

assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

Enclosures

OMB No. 1660-0009/FEMA Form 010-0-13

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

RICK SNYDER
GOVERNOR

BRIAN CALLEY
LT. GOVERNOR

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (*Stafford Act*), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River on April 25, 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it cannot be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate.

The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be

copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through

the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35 4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MDTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MDTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, the MDTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs

With input from the Department of Treasury, the MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act The City of Flint began using the Flint River for drinking water on April 25, 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, the MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The current focus is on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating replacement costs which could be as much as $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges. Seven trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More of the above resources are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water – 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuild efforts and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26 3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, the need could be as much as $53 million to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

OMB No. 1660-0009/FEMA Form 010-0-13

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River on April 25, 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it can not be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing

warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition)

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MDTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MDTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, MDTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain

blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water on April 25, 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and

will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The current focus is on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating replacement costs which could be as much as $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges. Seven trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More of the above resources are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water – 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuild efforts and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26 3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, there could be an estimated need as much as $53 million to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief

assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

Enclosures

OMB No. 1660-0009/FEMA Form 010-0-13

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River on April 25, 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it can't be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing

warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition)

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25 4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, MTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain

blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water in May 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and

will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The primary focus is and should be on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating replacement costs which could be as much as $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges, 7 trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water - 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuilds and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6 4%	13.7%	12.3%	9.2%
State of Michigan	16 9%	$49,087	5.9%	14 6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26 3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, there could be an estimated need as much as $53,000,000 to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief

assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

Enclosures

OMB No. 1660-0009/FEMA Form 010-0-13

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River on April 25, 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it can't be used for potable purposes Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing

warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, MTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain

blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act The City of Flint began using the Flint River for drinking water in May 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and

will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The primary focus is and should be on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating replacement costs which could be as much as $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges, 7 trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water - 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuilds and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16 9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16 1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, there could be an estimated need as much as $53,000,000 to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief

assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date _____

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R.. §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

6. Declaration Request For. ☐ Major Disaster (Stafford Act Sec. 401) ☐ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date _____ End Date _____ or ☐ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding)

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must include Enclosure D Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm

☐ Other (please specify) _____

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

10. Joint Preliminary Damage Assessment*

☐ Individual Assistance Dates Performed **Requested** _____ **Start** _____ **End** _____

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☐ Debris Removal (Category A) ☐ Emergency Protective Measures (Category B) ☐ Permanent Work (Categories C-G)* *(not available for Emergency Declaration Requests)*

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).

Please see **Enclosure B: Supplemental Information for Public Assistance** for additional information in support of this request*.

Indemnification for Debris Removal Activity

☐ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☐ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work, (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement ; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☐ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

Please see **Enclosure D: Historic and Current Snowfall Data** for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☐ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas

12 Mitigation Plan Information*

a. Mitigation Plan Expiration Date _____ b. Type of Plan ☐ Enhanced ☐ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☐ I do anticipate requirements from Other Federal Agencies

Please see **Enclosure C:** Requirements for Other Federal Agency Programs for additional information in support of this request*.

14 Findings and Certifications

☐ I certify the following:

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on _____ in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

☐ Cover Letter ☐ Enclosure A (Individual Assistance)* ☐ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

☐ Additional Supporting Documentation _____

_____ _____

Governor's or Tribal Chief Executive's Signature Date

If anyone except the Governor or Tribal Chief Executive signs this document, please provide the documentation that establishes that this individual has the legal authority to act on behalf of the Governor or Tribal Chief Executive.

☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm
☒ Other (please specify) Contamination and Damage to Public Water System

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

On April 25, 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under age 6 are in a high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting elevated blood lead levels. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:

Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.

State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. In accordance with 44 C.F.R. § 206 208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

Please see Enclosure D: Historic and Current Snowfall Data for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☐ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009) **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R.. §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s)
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kelenske Office:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office Cell:

6. Declaration Request For: ☒ Major Disaster (Stafford Act Sec. 401) ☐ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date Apr 25, 2014 End Date _____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ *Tidal Wave* ☐ *Tornado* ☐ Tropical Depression ☐ *Tropical Storm* ☐ *Tsunami* ☐ *Volcanic Eruption* ☐ Winter Storm

☒ Other (please specify) Contamination and Damage to Public Water System

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

On April 25, 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under age 6 are in a high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting elevated blood lead levels. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9 Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, *Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs,* Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

10. Joint Preliminary Damage Assessment*

☐ *Individual Assistance* Dates Performed Requested _____ Start _____ End _____

Individual Assistance Accessibility Problems (Areas that could not be accessed, and why)
Expedited Major Disaster Declaration Request

☐ Public Assistance Dates Performed Requested _____ Start _____ End _____

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)
Expedited Major Disaster Declaration Request

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☒ Crisis Counseling Program ☒ Disaster Unemployment Assistance

☒ *All* ☒ *Disaster Case Management* ☒ *Disaster Legal Services*

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

Townships of Flint, Genesee and Mt. Morris; Cities of Burton and Flint; County of Genesee

We request all available programs. The Individual Assistance programs will be needed to assist residents/water service customers with an estimated cost as much as $54,619,500 to repair damaged lead service lines on private property. The damage estimate is based on damage assessments conducted by the City of Flint with the Genesee County Equalization Department.

For States, Identify Federally-recognized Tribes in the requested counties (if applicable).
N/A

Please see **Enclosure A: Supplemental Information for Individual Assistance** for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☒ Debris Removal (Catagory A) ☒ Emergency Protective Measures (Category B) ☒ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

Townships of Flint, Genesee and Mt. Morris; Cities of Burton and Flint; County of Genesee

We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs which could be in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, cartridges, and water test kits. Damage assessments conducted by the City of Flint with the Genesee County Equalization Department concluded that the total potential damages to the City of Flint water distribution infrastructure is *estimated at $712,800,000.*

For States, Identify Federally-recognized Tribes included in the requested counties (if applicable).

N/A

Please see Enclosure B: Supplemental Information for Public Assistance for additional information in support of this request.*

Indemnification for Debris Removal Activity

☐ I do not anticipate the need for debris removal.

☒ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on current U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under 6 are high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting EBL. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☒ Crisis Counseling Program ☒ Disaster Unemployment Assistance

☒ All ☒ Disaster Case Management ☒ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities, for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

Townships of Flint, Genesee and Mt. Morris; Cities of Burton and Flint; County of Genesee

We request all available programs. The Individual Assistance programs will be needed to assist residents/water service customers with an estimated cost as much as $54,619,500 to repair damaged lead service lines on private property. The damage estimate is based on damage assessments conducted by the City of Flint with the Genesee County Equalization Department.

For States, identify Federally-recognized Tribes in the requested counties (if applicable).
N/A

Please see **Enclosure A: Supplemental Information for Individual Assistance** for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☒ Debris Removal (Category A) ☒ *Emergency Protective* Measures (Category B) ☒ *Permanent* Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions, please enclose additional documentation.

Townships of Flint, Genesee and Mt. Morris; Cities of Burton and Flint, County of Genesee

We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs which could be in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, cartridges, and water test kits. Damage assessments conducted by the City of Flint with the Genesee County Equalization Department concluded that the total potential damages to the City of Flint water distribution infrastructure is estimated at $712,800,000.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).

N/A

Please see **Enclosure B: Supplemental Information for Public Assistance** for additional information in support of this request*.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an *unconditional authorization for the* removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and.

a. I request the following type(s) of assistance:

Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.

State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. *In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance:* (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work, (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work, (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement ; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

OMB No. 1660-0009 Expires March 31,2016

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R.. §§ 206 35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal *government requesting declaration.*	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A Kelenske Office: Cell:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: Cell.

6. Declaration Request For: ☐ Major Disaster (Stafford Act Sec. 401) ☒ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date Apr 25, 2014 End Date ____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e g , United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must include Enclosure D Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm

☒ Other (please specify) Contamination and Damage to Public Water System

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

On April 25, 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under age 6 are in a high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting elevated blood lead levels. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. Not Required for Emergency Declaration Request

DEPARTMENT OF HOMELAND SECURITY
FEDERAL EMERGENCY MANAGEMENT AGENCY

OMB No. 1660-0009 Expires March 31,2016

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1 Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is *required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number.* Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). NOTE: Do not send your completed form to this address.

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R.. §§ 206.35 and 206 36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kelenske Office: Cell:

5 Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: Cell:

6. Declaration Request For: ☐ Major Disaster (Stafford Act Sec. 401) ☒ Emergency (Stafford Act Sec. 501(a))

7. Incident Period. Beginning Date: Apr 25, 2014 End Date: or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e g , United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide
☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must Include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds
☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm
☒ Other (please specify) Contamination and Damage to Public Water System

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

On April 25, 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under age 6 are in a high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting elevated blood lead levels. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

Individual Assistance Accessibility Problems (Areas that could not be accessed, and why)
N/A

☐ Public Assistance Dates Performed **Requested** _____ **Start** _____ **End** _____

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)
N/A

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☐ Crisis Counseling Program ☐ Disaster Unemployment Assistance
☐ All ☐ Disaster Case Management ☐ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton; County of Genesee
We request all available programs. The Individual and Households Program will be needed to assist residents/water service customers with an estimated cost as much as $54,619,500 over a period of 1 year to repair damaged lead service lines on private property.

For States, identify Federally-recognized Tribes in the requested counties (if applicable)
N/A

Please see Enclosure A: Supplemental Information for Individual Assistance for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☐ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☐ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities, for Indian tribal government, list tribe(s) and/or tribal area(s)). *If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.*

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton; County of Genesee
We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs which could be in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, filter cartridges, and water test kits.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).
N/A

Please see Enclosure B: Supplemental Information for Public Assistance for additional information in support of this request*.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. *I request the following type(s) of assistance:*
Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.
State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. *In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance:* (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

Please see Enclosure D: Historic and Current Snowfall Data for additional information in support of this request.*

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☐ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.
N/A

12 Mitigation Plan Information*

a. Mitigation Plan Expiration Date April 23, 2019 b Type of Plan ☐ Enhanced ☒ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☒ I do anticipate requirements from Other Federal Agencies

Please see Enclosure C: Requirements for Other Federal Agency Programs for additional information in support of this request*.

14. Findings and Certifications

☒ I certify the following:

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Jan 5, 2016 in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

☒ Cover Letter ☐ Enclosure A (Individual Assistance)* ☐ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and.

a. I request the following type(s) of assistance
Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments, including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.
State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement , and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

Please see **Enclosure D: Historic and Current Snowfall Data** for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☐ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.
N/A

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date April 23, 2019 b. Type of Plan ☐ Enhanced ☒ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☒ I do anticipate requirements from Other Federal Agencies

Please see **Enclosure C:** Requirements for Other Federal Agency Programs for additional information in support of this request*.

14. Findings and Certifications

☒ I certify the following

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Jan 5, 2016 in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

☒ Cover Letter ☐ Enclosure A (Individual Assistance)* ☐ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

☐ *Additional Supporting Documentation* _____

Governor's or Tribal Chief Executive's Signature

Jan 14, 2016
Date

If anyone except the Governor or Tribal Chief Executive signs this document, please provide the documentation that establishes that this individual has the legal authority to act on behalf of the Governor or Tribal Chief Executive.

Not Required for Emergency Declaration Request

DEPARTMENT OF HOMELAND SECURITY
FEDERAL EMERGENCY MANAGEMENT AGENCY

OMB No. 1660-0009 Expires March 31,2016

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R.. §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kelenske Office ! Cell

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: ! , Cell: ·1

6 Declaration Request For. ☐ Major Disaster (Stafford Act Sec 401) ☒ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date Apr 25, 2014 End Date _____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must include Enclosure D Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm

☒ Other (please specify) Contamination and Damage to Public Water System

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

On April 25, 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under 6 are in a high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting EBL. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

10. Joint Preliminary Damage Assessment*

☐ Individual Assistance Dates Performed **Requested** _____ **Start** _____ **End** _____

Individual Assistance Accessibility Problems (Areas that could not be accessed, and why)
N/A

☐ Public Assistance Dates Performed ***Requested*** _____ **Start** _____ **End** _____

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)
N/A

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☐ Crisis Counseling Program ☐ Disaster Unemployment Assistance

☐ All ☐ Disaster Case Management ☐ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation)

Townships of Mt. Morris, Flint and Genesee, Cities of Flint and Burton; County of Genesee
We request all available programs. The Individual and Households Program will be needed to assist residents/water service customers with an estimated cost as much as $54,619,500 over a period of 1 year to repair damaged lead service lines on private property.

For States, identify Federally-recognized Tribes in the requested counties (if applicable)
N/A

Please see **Enclosure A: Supplemental Information for Individual Assistance** for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☐ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☐ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions, please enclose additional documentation.

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton, County of Genesee
We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs which could be in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, filter cartridges, and water test kits.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable)
N/A

Please see **Enclosure B: Supplemental Information for Public Assistance** *for additional information in support of this request**.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and

a. I request the following type(s) of assistance:
Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

Joel,

The numbers you put together were assuming 90 days, yes?

We had talked about this, and I forgot to put that in the letter, which Cap noticed right away and FEMA had said to put in.

The 90 days might work with the emergency measures, but how could we put a limit on the water testing kits? And as far as that goes, how could we put a limit on the HA for residents?

Pepper, Joel (MSP)

From: Pepper, Joel (MSP)
Sent: Wednesday, January 13, 2016 8:42 PM
To: Kelenske, Chris (MSP)
Subject: Status on request (revised)

Captain,
Per your request, please see the following status report and analysis. Let me know if you need anything additional regarding the same.

Status on Governor's request letter to the President

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
- State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
- Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
- Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16?

Likely response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a realistic possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Respectfully submitted,

Joel Pepper
Asst. State Hazard Mitigation Officer

See responses below.

Kirby- I need to know how much a test kit costs (or a box of test kits). $26 to run a Lead and Copper sample at the State Drinking Water Lab.
Also, is the recommendation to conduct the initial test, then wait six months and test again? I can't answer this question. George Krisztian may be able to provide direction.
Also, how many tests per residential house? One? Two? I can't answer this question. George Krisztian may be able to provide direction.

Thanks,
Kirby

To: Weber, Thomas (MSP)
Subject: status request

This is what I sent to the Captain.

Captain,
Per your request, please see the following status report and analysis. Let me know if you need anything additional regarding the same.

Status on Governor's request letter to the President

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
- State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
- Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
- Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16?

Likely response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested by the State (technical assistance and administration, but no direct reimbursement of disaster costs)

- *Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs* (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a realistic possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster for the State of Michigan

Respectfully submitted,

Joel Pepper

$1 per kit. $26 cost of analysis. The question of retesting has been brought up and it is too early to know. Need to factor in the tests for schools etc where they are drawing four tests per test point just for the initial test. Alesha can inform some on the schools.

From: Deacon, Brad (MDARD)
Sent: Tuesday, January 12, 2016 5:14 PM
To: Weber, Thomas (MSP)
Subject: RE: Flint water crisis impacts

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Dept. of Ed) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). In both cases we can identify higher priorities and have been doing that. All of those received the letter in October with guidance; all of them will receive the revised guidance as soon as it is approved. There are 97 gas stations within the city and we think all of those are within those food license numbers and we are planning additional outreach to them as part of our efforts.

Correct, no animal shelters in the water service area from what we've been told. The primary focus is and should be on homeowners/residences where they also have pets. There are two vet clinics in the City and we were making individualized follow up calls to them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

We don't have anything definitive on next steps for the Flint Farmers' Market. We have provided them assistance in the past few years (trying to get a historical document for what that's been) but we've helped them to expand and grow their facility. We'll be talking with them about potential next steps.

Yes, MDARD has been in close coordination with DEQ, DHHS, and Genesee Co. Health Dept. on the protocol for using water (washing dishes is ok; using it in a pop machine may not be). The guidance put out last fall was jointly issued by all four agencies. We have also worked with them on protocol for us to use when collecting samples – same protocols as other sampling going on.

As for restaurants, it may be all of the things you mentioned. That will be part of our follow up to evaluate compliance.

From: Weber, Thomas (MSP)
Sent: Tuesday, January 12, 2016 4:04 PM

To: Deacon, Brad (MDARD)
Subject: RE: Flint water crisis impacts

Thanks Brad,

Are there any numbers we could put to number of messages or populations reached by messaging?

I think I saw a number, but can't find it at the moment, there are no animal shelters in the water service area, is that correct? So the impact would be on homes and vet offices. Do we know how many vet offices there are?

Are there any plans or strategies in the works for increasing the number of distribution points for the Farmers' Market?

Does the Department have the number of food related businesses in the City? Is MDARD involved in any way of identifying their protocol for using water? i.e., where do most restaurants get water from for cooking, do they have required filtration systems? Or are they bringing water in?

Thanks very much for all your help.

Tom – some of these sentences / phrases may help – let me know if you need more.
Part of our coordinated outreach also includes contact with businesses, particularly food related businesses, to evaluate the safety of the water they use in their products.
Water safety also impacts animals. As a precautionary measure, we have included pets, service animals, and other domestic animals in our messages to families about water. We have also reached out to the veterinary and animal care communities to bring their attention to this issue.
Through Michigan's funds and USDA's Rural Development's programs we have been working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system.

Good morning all,

We are preparing the draft of the letter from the governor to the president to request assistance. We are attempting to send this as quickly as humanly possible.

What we need from each agency is a complete but as brief as possible summary of the impacts to the people and economy of Flint resulting from the water crisis, prepared by the best qualified person in your agency.

This would include quantification of past, current, and future or potential future impacts including:

Health
Economic
Insurance (is there any coverage on the part of individuals, or the city or state that might help to cover damages?)
Contributions of voluntary agencies
Environmental; and
Infrastructure

There will be an opportunity to review the entire draft as it is pieced together, to make sure we are including every potential impact that will help to describe the severity of this crisis to the City of Flint and State of Michigan.

If there's any chance of getting summaries by the end of today (let me know what the minimum timeline is that you need), that would be great.

Thanks very much for your assistance,

Subject: RE: Flint water crisis impacts
Importance: High

Good afternoon.
The Michigan Department of Talent and Economic Development (MTED) is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

Our combined efforts are focused on short and long-term assistance to the City of Flint and/or Genesee County through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources, MTED has assessed potential impacts to the economy of Flint resulting from the water crisis. We developed the attached analysis that looked at 4 potential long term costs associated with certain blood lead levels, which are:

- Lifetime earnings loss total
- Lead Health Care Treatment Costs
- ADHD Treatment Costs
- Special Education Costs

This analysis was based on a study by the University of Michigan Risk Science Center and the Michigan Network for Children's Environmental Health. The study, linked below, cited studies that showed the direct correlation in loss of IQ with elevated lead levels. This loss of IQ was directly correlated to loss of lifetime income potential, as well as costs for treatment, costs for special education, and ADHD treatment for cohorts under 5 years old.

The excel chart uses the findings from this study and applies it to Flint's population of 0-5 year olds. We're not sure what number to use in the field labeled "estimated percent of population impacted", but it's saved at 6% of 0-5 year olds impacted. Depending on the lead levels, the lifetime earnings loss ranges from $33 Million to over $89 Million if 6% of 0-5 year olds were impacted. The % of population can be changed for each blood lead level to get the impact.

http://www.riskscience.umich.edu/wp-content/uploads/2013/12/Economic-Impact-of-Lead-in-Michigan-Web.pdf

Again, this analysis is based on the study linked above. If the findings and methodology of the study aren't acceptable, then the attached Excel calculations shouldn't be used. Also, we have not reached out to UM to see if any of their assumptions have changed since this was done in 2014 or if our correlations and methodology are acceptable. With additional time, we would confirm our method with the UM team.

With input from the Department of Treasury, we assessed that the most significant immediate negative impact will be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water like restaurants will be hurt), lost employment, population loss (renters will leave the city). Residents and businesses are also having to pay extra for bottled water, so the extra spending on water will take away from other spending. It is relatively easy for residents to move some of their economic/spending activity outside the city, so the Flint economy will be hurt. These impacts will create an economic downturn in Flint. In terms of personal income losses, a three to four percent loss in nominal personal income in the City of Flint seems reasonable, which would equal a negative impact of $85 million to $115 million per year in lost economic activity. Long-term there would be the cost of a new water system, which would have a significant cost. Direct health related costs would be on top of this estimate.

This is a very rough estimate. With additional time and information/data, we can develop a more thorough estimate.

Subject: Flint water crisis impacts

Good morning all,

We are preparing the draft of the letter from the governor to the president to request assistance. We are attempting to send this as quickly as humanly possible.

What we need from each agency is a complete but as brief as possible summary of the impacts to the people and economy of Flint resulting from the water crisis, prepared by the best qualified person in your agency.

This would include quantification of past, current, and future or potential future impacts including:

Health
Economic
Insurance (is there any coverage on the part of individuals, or the city or state that might help to cover damages?)
Contributions of voluntary agencies
Environmental; and
Infrastructure

There will be an opportunity to review the entire draft as it is pieced together, to make sure we are including every potential impact that will help to describe the severity of this crisis to the City of Flint and State of Michigan.

If there's any chance of getting summaries by the end of today (let me know what the minimum timeline is that you need), that would be great.

Thanks very much for your assistance,

Tom Weber, PEM

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Sent:	Tuesday, January 12, 2016 4:43 PM
To:	Weber, Thomas (MSP); Deacon, Brad (MDARD); Wahl, Kathy (DHHS); Lixey-Terrill, Jennifer (DHHS); Thelen, Richard (DHHS); Wolfinger, Carol (MSP); Wells, Eden (DHHS); Krisztian, George (DEQ); Kirby, Catherine (DIFS); Holmes, Virginia (DHHS)
Cc:	Pepper, Joel (MSP); Lisabeth, Nicole (MSP)
Subject:	RE: Flint water crisis impacts
Attachments:	Economic Impact - UM Risk Science Method - Lead.xlsx
Importance:	High

Good afternoon.
The Michigan Department of Talent and Economic Development (MTED) is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

Our combined efforts are focused on short and long-term assistance to the City of Flint and/or Genesee County through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources, MTED has assessed potential impacts to the economy of Flint resulting from the water crisis. We developed the attached analysis that looked at 4 potential long term costs associated with certain blood lead levels, which are:

- Lifetime earnings loss total
- Lead Health Care Treatment Costs
- ADHD Treatment Costs
- Special Education Costs

This analysis was based on a study by the University of Michigan Risk Science Center and the Michigan Network for Children's Environmental Health. The study, linked below, cited studies that showed the direct correlation in loss of IQ with elevated lead levels. This loss of IQ was directly correlated to loss of lifetime income potential, as well as costs for treatment, costs for special education, and ADHD treatment for cohorts under 5 years old.

The excel chart uses the findings from this study and applies it to Flint's population of 0-5 year olds. We're not sure what number to use in the field labeled "estimated percent of population impacted", but it's saved at 6% of 0-5 year olds impacted. Depending on the lead levels, the lifetime earnings loss ranges from $33 Million to over $89 Million if 6% of 0-5 year olds were impacted. The % of population can be changed for each blood lead level to get the impact.

http://www.riskscience.umich.edu/wp-content/uploads/2013/12/Economic-Impact-of-Lead-in-Michigan-Web.pdf

Again, this analysis is based on the study linked above. If the findings and methodology of the study aren't acceptable, then the attached Excel calculations shouldn't be used. Also, we have not reached out to UM to see if any of their assumptions have changed since this was done in 2014 or if our correlations and methodology are acceptable. With additional time, we would confirm our method with the UM team.

With input from the Department of Treasury, we assessed that the most significant immediate negative impact will be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water like restaurants will be hurt), lost employment, population loss (renters will leave the city). Residents and businesses are also having to pay extra for bottled water, so the extra spending on water will take away from other spending. It is relatively easy for residents to move some of their economic/spending activity outside the city, so the Flint economy will be hurt. These impacts will create an economic downturn in Flint. In terms of personal income losses, a three to four percent loss in nominal personal income in the City of Flint seems reasonable, which would equal a negative impact of $85 million to $115 million per year in lost economic activity. Long-term there would be the cost of a new water system, which would have a significant cost. Direct health related costs would be on top of this estimate.

This is a very rough estimate. With additional time and information/data, we can develop a more thorough estimate.

Subject: Revised: Volunteers needed for water resource teams in Flint

Note: Dates are January 14 and January 15.

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

Cc: Pepper, Joel (MSP); Lisabeth, Nicole (MSP)
Subject: Flint water crisis impacts

Good morning all,

We are preparing the draft of the letter from the governor to the president to request assistance. We are attempting to send this as quickly as humanly possible.

What we need from each agency is a complete but as brief as possible summary of the impacts to the people and economy of Flint resulting from the water crisis, prepared by the best qualified person in your agency.

This would include quantification of past, current, and future or potential future impacts including:

Health
Economic

Insurance (is there any coverage on the part of individuals, or the city or state that might help to cover damages?)
Contributions of voluntary agencies
Environmental; and
Infrastructure

There will be an opportunity to review the entire draft as it is pieced together, to make sure we are including every potential impact that will help to describe the severity of this crisis to the City of Flint and State of Michigan.

If there's any chance of getting summaries by the end of today (let me know what the minimum timeline is that you need), that would be great.

Thanks very much for your assistance,

Subject: RE: Flint water crisis impacts

Tom,
The Department of Insurance and Financial Services (DIFS) offers the following in response to your request for a summary of agency information relating to the water crisis in Flint:

Similar to Medicaid coverage, individuals with private health insurance would have testing and treatment covered as long as a doctor ordered the services. Anyone with questions regarding their health insurance coverage or any health insurance claims that are not approved by their health insurer can contact DIFS toll free at 1-877-999-6442 for assistance.

A homeowner's policy insures property against risks of direct physical loss that are not specifically excluded under the policy. A homeowner's policy excludes "discharge, disbursable, seepage, migration or escape of pollutants" unless it was caused by a covered cause of loss. The situation that occurred in the City of Flint would not be a covered loss.

DIFS stands ready to assist anyone who has questions regarding their health or property insurance.
Let me know if you have any questions.
Cathy

Subject: sba

The other question was what type of assistance might sba be able to provide? And do you have ideas on how that could be quantified? I'm assuming low cost loans, for example, for businesses to replace lead service lines?

DEPARTMENT OF HOMELAND SECURITY
FEDERAL EMERGENCY MANAGEMENT AGENCY

OMB No. 1660-0009 Expires March 31,2016

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R.. §§ 206.35 and 206 36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4 Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A Kelenske Office Cell:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: ; Cell:

6. Declaration Request For. ☐ Major Disaster (Stafford Act Sec. 401) ☒ Emergency (Stafford Act Sec. 501(a))

7. *Incident Period:* *Beginning Date* _____ *End Date* _____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g , United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm

☒ Other (please specify) Public Health

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

In early May 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer. Based on the 2010 U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children in under 6 are high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting EBL. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

10. Joint Preliminary Damage Assessment*

☐ Individual Assistance *Dates Performed* **Requested** _____ **Start** _____ *End* _____

Individual Assistance Accessibility Problems (Areas that could not be accessed, and why)
N/A

☐ *Public Assistance* Dates Performed **Requested** _____ **Start** _____ End _____

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)
N/A

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☐ Crisis Counseling Program ☐ Disaster Unemployment Assistance

☐ All ☐ Disaster Case Management ☐ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation)

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton, County of Genesee
We request all available programs. The Individual and Households Program will be needed to assist residents/water service customers with an estimated $53,000,000 over a period of 1 year to repair damaged lead service lines on private property.

For States, identify Federally-recognized Tribes in the requested counties (if applicable).
N/A

Please see **Enclosure A: Supplemental Information for Individual Assistance** for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☐ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☐ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities, for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions, please enclose additional documentation.

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton, County of Genesee
We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, filter cartridges, and water test kits.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).
N/A

Please see **Enclosure B: Supplemental Information for Public Assistance** for additional information in support of this request*.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and.

a. I request the following type(s) of assistance.
Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services
State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work, (2) Hold and save the *United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work,* (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement ; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

Please see **Enclosure D: Historic and Current Snowfall Data** for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☐ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.
N/A

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date April 23, 2019 b. Type of Plan ☐ Enhanced ☒ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☒ I do anticipate requirements from Other Federal Agencies

*Please see **Enclosure C:** Requirements for Other Federal Agency Programs for additional information in support of this request**.

14. Findings and Certifications

☒ I certify the following

a. I have determined that this incident is of such seventy and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Jan 5, 2016 in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

☒ Cover Letter ☐ Enclosure A (Individual Assistance)* ☐ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

☐ *Additional Supporting Documentation* _____

Governor's or Tribal Chief Executive's Signature

Jan 14, 2016
Date

If anyone except the Governor or Tribal Chief Executive signs this document, please provide the documentation that establishes that this individual has the legal authority to act on behalf of the Governor or Tribal Chief Executive.

**Not Required for Emergency Declaration Request*

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
COVER LETTER
MAJOR DISASTER OR EMERGENCY

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River in 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it can't be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best) For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified

allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, MTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water in May 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help

address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area The primary focus is and should be on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating the cost for replacement at $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges, 7 trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits More are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water - 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuilds and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* *U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)*

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, there is an estimated need of approximately $53,000,000 to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief

assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

Enclosures

OMB No. 1660-0009/FEMA Form 010-0-13

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
COVER LETTER
MAJOR DISASTER OR EMERGENCY

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River in 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it can't be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified

allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, MTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water in May 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help

address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The primary focus is and should be on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating the cost for replacement at $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges, 7 trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water - 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuilds and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6 2%	14.7%	16.1%	15 5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, there is an estimated need of approximately $53,000,000 to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief

assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

Enclosures

OMB No. 1660-0009/FEMA Form 010-0-13

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
COVER LETTER
MAJOR DISASTER OR EMERGENCY

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River in 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it can't be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance ~~—IHP~~, and Public Assistance ~~—Category B~~, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified

allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, MTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water in May 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help

address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The primary focus is and should be on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating the cost for replacement at $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges, 7 trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water - 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuilds and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S. Census Bureau American Community Survey 2010-2014, *Selected Social Characteristics in the U S. (5 year estimates)*

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, there is an estimated need of approximately $53,000,000 to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief

assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

Enclosures

OMB No. 1660-0009/FEMA Form 010-0-13

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
COVER LETTER
MAJOR DISASTER OR EMERGENCY

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Section [Major Disaster citation (401), Emergency citation (501)]of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207] (Stafford Act), and implemented by 44 CFR § [Major Disaster citation (206.36), Emergency citation (206.35)], I request that you declare a Disaster for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint which was demonstrated in October, 2015.

Impact and Trauma

As a result of the cooperative monitoring efforts in place by the City, State and EPA, and the painstaking work of doctors at Hurly medical center, elevated blood lead levels (EBLs) were discovered, and the County issued a do not drink order on October 1, 2015. As of the most recent update of January 8, 2016, 2,182 Flint residents have been tested for lead levels and 43 residents have exhibited elevated blood lead levels. Of those, 23 were children under the age of six, the most likely age group to be impacted long term. One child was hospitalized, treated, and released. No deaths have been associated with this emergency.

The situation becomes more complex as the Michigan Department of Health and Human Services has observed a spike in the Flint area of Legionella which also occurred in roughly the same time frame. This too will be investigated for any potential link to the water system. While unlikely to be related to the water system, this new problem adds to the negative psychological impacts on mental health that have become extensive.

Additionally, the economic and psychological impact this has had on the community is severe. While water is flowing through the tap, it is considered unusable for any purposes

by a large percentage of the populace. Mistrust in government is at a heightened level due to the mistakes made, and so, while water is safe for non-consumptive uses, people are understandably leery of the system. Special populations are especially vulnerable in this crisis as they are often unable to access available vital nutrition or water resources. Assistance with Individuals and Households Program, Crisis Counseling, Disaster Unemployment, Disaster Case Management, and Disaster Legal Services will be vital to recovery.

With the extent of time between the inception of Flint River water until the return to Detroit Water and Sewerage Department and re-treatment of the mains and pipes by the City, it is impossible to know the extent of those individuals who suffered the effects of EBL. The duration of an EBL can vary significantly depending on season, diet and other factors. The detection of substantial increases in EBLs suggests a much higher rate over the duration of the emergency is likely.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management, volunteers for canvassing and water distribution, and is also working to establish a Volunteer Reception Center (VRC). On January 13, 2016, with the establishment of the VRC, the MI-VOAD is conducting a conference call to determine how it can more fully activate (several member organizations have already activated) Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

A State of Emergency was declared on January 5, 2016 for the County of Genesee and City of Flint. Pursuant to Michigan's Public Act 390, both the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2015, respectively.

The effect of this emergency has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities. And it even includes all pets and other domestic animals living in the city.

The City of Flint has estimated the cost of replacing corroded infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate by the Genesee County Department of Equalization estimates of $25 per linear foot to remove and replace damaged private service lines. Both Individual Assistance and Public Assistance will be crucial to helping the city and her residents recover. The State has also invested over $10 million so far in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

Recognizing their responsibility to make their community as disaster-resilient as possible, be advised that both affected jurisdictions that are the subject of this request have in place a current, federally/FEMA approved, Disaster Mitigation Act of 2000-compliant Hazard Mitigation Plan. The plan was adopted January 26, 2015, and under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included in Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has also made a strong commitment to mitigate hazards and has met applicable federal standards: the Michigan Hazard Mitigation Plan was approved by FEMA on April 23, 2014 as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000. If appropriate funding can be secured, this emergency will provide an opportunity to implement hazard mitigation projects identified in these plans, in order to reduce the impact of future emergencies of this nature.

The following information is furnished on the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households.

EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – GIS Unit

On Friday, January 8, 2016 GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present needs significant updating before an accurate picture can be created.

DPW estimated that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, we have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, the older areas of the city tend to have sparse concentrations of lead, but often the records for these areas are incomplete.

In order to effectively determine where the affected area is EMHSD is working with DPW and the University of Michigan – Flint to digitize many of DPW's old analog maps to extract the pipe status. However, we will likely not have a clear picture until the end of the week. Even

when this initiative is complete, it will remain unclear if the data will prove to be very accurate as the source data is considerably out of date. With the comprehensive water testing plan that the DEQ is implementing, problem areas for the city will be identified so that manual inspections of the underground pipes can be done to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services – Health (MDHHS – H)

MDHHS-H is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. The unique aspect is the potential additional impact to the department's work due to the water emergency.

The MDHHS continues to work closely with local partners to ensure that impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). Including working closely with the local primary care provider community and WIC clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The department updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October, community outreach was initiated for distribution of educational materials for parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready to Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

MDHHS-H has generated the potential expected impact of this emergency on future health costs. They include as much as $12,000,000 in secondary prevention – education; $1,575,000 in secondary and tertiary prevention – nutrition; Direct medical health costs are estimated at $18,280,849 with $120,875,000 in secondary and tertiary medical expenses;

Department of Talent and Economic Development (MTED)

MTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

Our combined efforts are focused on short and long-term assistance to the Townships of Mt. Morris, Flint, and Genesee; the Cities of Flint and Burton; and Genesee County through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources, MTED has assessed potential impacts to the economy of Flint resulting from the water crisis. We developed the attached analysis that looked at 4 potential long term costs associated with certain blood lead levels, which are:

- Lifetime earnings loss total
- Lead Health Care Treatment Costs
- ADHD Treatment Costs
- Special Education Costs

With input from the Department of Treasury, MDTED assessed that the most significant immediate negative impact will be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters will leave the city). Residents and businesses will also have to pay extra for bottled water, so the extra spending on water will take away from other spending. It is relatively easy for residents to move some of their economic/spending activity outside the city, so the Flint economy will be hurt. These impacts will create an economic downturn in Flint. In terms of personal income losses, a three to four percent loss in nominal personal income in the City of Flint seems a reasonable estimate, which would equal a negative impact of $85 million to $115 million per year in lost economic activity. Long-term, there will be the significant cost of a new water system. Direct health related costs, estimated by MDHHS, are in addition to this estimate.

Department of Environmental Quality (MDEQ)

Historically, the Flint Water Treatment Plant utilized the Flint River as the source for providing drinking water to its customers. In 1967, the city of Flint (City) started to purchase treated water from the Detroit Water and Sewerage Department (DWSD). The DWSD water source is Lake Huron. The Flint River supply infrastructure to the water treatment plant was continuously maintained as an emergency backup source to the system.

Over time, the DWSD source became financially strenuous to the City and in January 2006 discussions ensued regarding utilizing the proposed Karegnondi Water Authority, which was not yet constructed, as an alternative primary long-term water supply for Genesee County and the Flint Water Treatment Plant customers. In 2009, the Lake Huron water supply study for the Karegnondi Water Authority was conducted and an Executive Summary and Preliminary

Engineering Report were generated. Due to the financial strains the City was experiencing, they resolved to end their contract with DWSD and temporarily convert the water supply back to the Flint River as the source for the Flint Water Treatment Plant prior to the completion of the Karegnondi Water Authority. In April 2014 the Michigan Department of Environmental Quality (MDEQ) issued the Flint Water Treatment Plant construction permits for full time operation enhancements. In May 2014, the conversion of the source was implemented and the Flint Water Treatment Plant began distributing water to its customers.

To ensure compliance with the federal Lead and Copper Rule requirements for corrosion control, The City commenced two 6-month lead and copper monitoring periods. A first 6-month monitoring period ended on December 31, 2014, and the City's report was due to the MDEQ on January 10, 2015. The results from this report indicated the lead level (90^{th} percentile) was 6 ppb, just over the 5 ppb level deemed as having optimized corrosion control. On March 30, 2015 the MDEQ notified the City of the 6ppb results.

On June 30, 2015, second 6-month lead and copper monitoring period ended. After consultation with the EPA on July 21, the MDEQ notified the City of the results on August 17, 2015. At that time the MDEQ, reported that their analysis indicated a lead level of 11 ppb (90^{th} percentile), and required the City to install corrosion control equipment and begin treatment.

On July 28, 2015 the MDEQ received information from the Michigan Department of Health and Human Services (MDHHS) indicating blood lead levels in City of Flint residents were consistent with past years seasonal variations.

On September 24, 2015 Hurley Children's Hospital revealed data indicating elevated blood lead levels in children who reside in certain zip codes in the City. This same date the MDHHS reaffirms that their data is more comprehensive than that of Hurley Children's Hospital and remained consistent with past year seasonal variations. On September 25, the City announced a lead advisory regarding the drinking water to its citizens.

On October 1, 2015 the State Chief Medical Officer confirms Hurley Children's Hospital blood lead level data. On this same date the Genesee County Health Department issued the customers of the Flint Water Treatment Plant a "Do Not Drink" advisory. On October 2, the state announces the Governor's Flint action plan. On October 15, 2015 the state legislature authorizes $9.35 million to help fund the City's return to purchasing treated water from the DWSD, and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services.

On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karegnondi Water Authority is scheduled to be completed in mid to late 2016.

MDEQ estimates cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Health and Human Services – Human Services (MDHHS- HS)

MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods. MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card and can utilize the double up food bucks but it still requires additional healthy fruits and vegetables. Some residents who have the elevated blood levels may not have a Bridge Card and purchasing fresh fruits and vegetables is a burden due to higher costs.

In some homes the plumbing is very poor; as a result the faucet filters may not fit. The cost of paying for city water that the residents can't use is astronomical. As a scenario, residents have to make a choice to buy food, or pay for water to flush toilets, bathe, wash clothes etc. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of 4 with leaks etc. it could be about $150 or more per month.

Additional ongoing testing will be required for those with EBLs - treatment long-term, tutoring, behavior specialists, and mental health services are all long-term effects.

The state and city's poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially:
  - 2012: 31.8%
  - 2006: 25.4%
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP)
  - 2013: 47%
  - 2006: 35.4%
- 21.8% of students did not graduate on time in 2013.

- The following table, "MDHHS Program Data" shows the numbers of recipients of programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP)	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Agriculture and Rural Development (MDARD)

Part of MDARD's coordinated outreach includes contact with businesses, particularly food related businesses, to evaluate the safety of the water they use in their products.

Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). In both cases we are identify higher priorities. All of those received a letter in October with guidance; all of them will receive revised guidance as soon as it is approved. There are 97 gas stations within the city which are within those food license numbers, but we are planning additional outreach to them as part of our efforts. MDARD will be working with on potential next steps with the Flint Farmers' Market.

No animal shelters exist in the water service area that we are aware of. The primary focus is and should be on residences where they also have pets. There are two vet clinics in the City, and we were making individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

MDARD has been in close coordination with DEQ, DHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all

four agencies. MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Insurance and Financial Services (DIFS)

DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer.

The losses experienced in Flint would not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the Department of Environmental Quality of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges, 7 trucks and drivers have been deployed to assist with delivering supplies to PODs and assisting with neighborhood visits. More are being procured.

DTMB also facilitated the establishment of the JIC at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:
Truckloads of water - 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
Brita faucet filters – 27,000
Brita Replacement filters – 1,600
PUR faucet filters – 12,500
PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014.

The State, in addition to Stafford Act assistance from DR-4195, has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau successfully responded to the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges.

Several voluntary organizations work in Detroit proper to continue rebuilds and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG) in cooperation with the Urban Studies Center at Wayne State University estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Individual Assistance/Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is nearly double the county's. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially of lead, which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5 year average a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U S Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U S (5 year estimates)

[The following information is required for requests for Public Assistance.]

Public Assistance

The two relevant categories under PA are B, Emergency Protective Measures, and F, Public Utilities.

In the October to December time frame, the State received an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures are require approximately $ in one time costs and $ in daily expenditures.

The City's water system was damaged by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source decomposed and underlying lead pipes and lead solders began to leach into the water. Ultimately, this lead to the significant EBL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The map attached as Figure 2, shows pipe composition in the northwest part of the city (the newest), so the percentage would be lower here than in older parts of the city. The University of Michigan – Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource in times of emergency. The County, from which we could normally obtain insurance coverage information, does not track this. In any case, per the Department of Insurance and Financial Services referenced above, normal property insurance would have this type of damage as an exclusion. The likelihood of coverage is very low.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance with Section 401 of the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that emergency federal relief assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount

of Individual Assistance and Public Assistance needed under the Stafford Act are tabulated at Enclosures A and B, respectively.

No PDA has been conducted or requested at this point in time due to the obvious severity of the emergency and the immediacy of the need for emergency protective measures. I am requesting Direct Federal Assistance from other agencies who's resources and expertise can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act. Total non-federal share expenditures are expected to equal or exceed $178,000,000, in accordance with the tables at Enclosures A and B.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

Enclosures

OMB No. 1660-0009/FEMA Form 010-0-13

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
COVER LETTER
MAJOR DISASTER OR EMERGENCY

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Section [Major Disaster citation (401), Emergency citation (501)]of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207] (Stafford Act), and implemented by 44 CFR § [Major Disaster citation (206.36), Emergency citation (206.35)], I request that you declare a Disaster for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint which was demonstrated in October, 2015.

Impact and Trauma

As a result of the cooperative monitoring efforts in place by the City, State and EPA, and the painstaking work of doctors at Hurly medical center, elevated blood lead levels (EBLs) were discovered, and the County issued a do not drink order on October 1, 2015. As of the most recent update of January 8, 2016, 2,182 Flint residents have been tested for lead levels and 43 residents have exhibited elevated blood lead levels. Of those, 23 were children under the age of six, the most likely age group to be impacted long term. One child was hospitalized, treated, and released. No deaths have been associated with this emergency.

The situation becomes more complex as the Michigan Department of Health and Human Services has observed a spike in the Flint area of Legionella which also occurred in roughly the same time frame. This too will be investigated for any potential link to the water system. While unlikely to be related to the water system, this new problem adds to the negative psychological impacts on mental health that have become extensive.

Additionally, the economic and psychological impact this has had on the community is severe. While water is flowing through the tap, it is considered unusable for any purposes

by a large percentage of the populace. Mistrust in government is at a heightened level due to the mistakes made, and so, while water is safe for non-consumptive uses, people are understandably leery of the system. Special populations are especially vulnerable in this crisis as they are often unable to access available vital nutrition or water resources. Assistance with Individuals and Households Program, Crisis Counseling, Disaster Unemployment, Disaster Case Management, and Disaster Legal Services will be vital to recovery.

With the extent of time between the inception of Flint River water until the return to Detroit Water and Sewerage Department and re-treatment of the mains and pipes by the City, it is impossible to know the extent of those individuals who suffered the effects of EBL. The duration of an EBL can vary significantly depending on season, diet and other factors. The detection of substantial increases in EBLs suggests a much higher rate over the duration of the emergency is likely.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management, volunteers for canvassing and water distribution, and is also working to establish a Volunteer Reception Center (VRC). On January 13, 2016, with the establishment of the VRC, the MI-VOAD is conducting a conference call to determine how it can more fully activate (several member organizations have already activated) Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

A State of Emergency was declared on January 5, 2016 for the County of Genesee and City of Flint. Pursuant to Michigan's Public Act 390, both the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2015, respectively.

The effect of this emergency has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities. And it even includes all pets and other domestic animals living in the city.

The City of Flint has estimated the cost of replacing corroded infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate by the Genesee County Department of Equalization estimates of $25 per linear foot to remove and replace damaged private service lines. Both Individual Assistance and Public Assistance will be crucial to helping the city and her residents recover. The State has also invested over $10 million so far in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

Recognizing their responsibility to make their community as disaster-resilient as possible, be advised that both affected jurisdictions that are the subject of this request have in place a current, federally/FEMA approved, Disaster Mitigation Act of 2000-compliant Hazard Mitigation Plan. The plan was adopted January 26, 2015, and under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included in Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has also made a strong commitment to mitigate hazards and has met applicable federal standards: the Michigan Hazard Mitigation Plan was approved by FEMA on April 23, 2014 as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000. If appropriate funding can be secured, this emergency will provide an opportunity to implement hazard mitigation projects identified in these plans, in order to reduce the impact of future emergencies of this nature.

The following information is furnished on the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households.

EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – GIS Unit

On Friday, January 8, 2016 GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present needs significant updating before an accurate picture can be created.

DPW estimated that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, we have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, the older areas of the city tend to have sparse concentrations of lead, but often the records for these areas are incomplete.

In order to effectively determine where the affected area is EMHSD is working with DPW and the University of Michigan – Flint to digitize many of DPW's old analog maps to extract the pipe status. However, we will likely not have a clear picture until the end of the week. Even

when this initiative is complete, it will remain unclear if the data will prove to be very accurate as the source data is considerably out of date. With the comprehensive water testing plan that the DEQ is implementing, problem areas for the city will be identified so that manual inspections of the underground pipes can be done to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services – Health (MDHHS – H)

MDHHS-H is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. The unique aspect is the potential additional impact to the department's work due to the water emergency.

The MDHHS continues to work closely with local partners to ensure that impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). Including working closely with the local primary care provider community and WIC clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The department updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October, community outreach was initiated for distribution of educational materials for parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready to Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

MDHHS-H has generated the potential expected impact of this emergency on future health costs. They include as much as $12,000,000 in secondary prevention – education; $1,575,000 in secondary and tertiary prevention – nutrition; Direct medical health costs are estimated at $18,280,849 with $120,875,000 in secondary and tertiary medical expenses;

Department of Talent and Economic Development (MTED)

MTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

Our combined efforts are focused on short and long-term assistance to the Townships of Mt. Morris, Flint, and Genesee; the Cities of Flint and Burton; and Genesee County through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources, MTED has assessed potential impacts to the economy of Flint resulting from the water crisis. We developed the attached analysis that looked at 4 potential long term costs associated with certain blood lead levels, which are:

- Lifetime earnings loss total
- Lead Health Care Treatment Costs
- ADHD Treatment Costs
- Special Education Costs

With input from the Department of Treasury, MDTED assessed that the most significant immediate negative impact will be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters will leave the city). Residents and businesses will also have to pay extra for bottled water, so the extra spending on water will take away from other spending. It is relatively easy for residents to move some of their economic/spending activity outside the city, so the Flint economy will be hurt. These impacts will create an economic downturn in Flint. In terms of personal income losses, a three to four percent loss in nominal personal income in the City of Flint seems a reasonable estimate, which would equal a negative impact of $85 million to $115 million per year in lost economic activity. Long-term, there will be the significant cost of a new water system. Direct health related costs, estimated by MDHHS, are in addition to this estimate.

Department of Environmental Quality (MDEQ)

Historically, the Flint Water Treatment Plant utilized the Flint River as the source for providing drinking water to its customers. In 1967, the city of Flint (City) started to purchase treated water from the Detroit Water and Sewerage Department (DWSD). The DWSD water source is Lake Huron. The Flint River supply infrastructure to the water treatment plant was continuously maintained as an emergency backup source to the system.

Over time, the DWSD source became financially strenuous to the City and in January 2006 discussions ensued regarding utilizing the proposed Karegnondi Water Authority, which was not yet constructed, as an alternative primary long-term water supply for Genesee County and the Flint Water Treatment Plant customers. In 2009, the Lake Huron water supply study for the Karegnondi Water Authority was conducted and an Executive Summary and Preliminary

Engineering Report were generated. Due to the financial strains the City was experiencing, they resolved to end their contract with DWSD and temporarily convert the water supply back to the Flint River as the source for the Flint Water Treatment Plant prior to the completion of the Karegnondi Water Authority. In April 2014 the Michigan Department of Environmental Quality (MDEQ) issued the Flint Water Treatment Plant construction permits for full time operation enhancements. In May 2014, the conversion of the source was implemented and the Flint Water Treatment Plant began distributing water to its customers.

To ensure compliance with the federal Lead and Copper Rule requirements for corrosion control, The City commenced two 6-month lead and copper monitoring periods. A first 6-month monitoring period ended on December 31, 2014, and the City's report was due to the MDEQ on January 10, 2015. The results from this report indicated the lead level (90^{th} percentile) was 6 ppb, just over the 5 ppb level deemed as having optimized corrosion control. On March 30, 2015 the MDEQ notified the City of the 6ppb results.

On June 30, 2015, second 6-month lead and copper monitoring period ended. After consultation with the EPA on July 21, the MDEQ notified the City of the results on August 17, 2015. At that time the MDEQ, reported that their analysis indicated a lead level of 11 ppb (90^{th} percentile), and required the City to install corrosion control equipment and begin treatment.

On July 28, 2015 the MDEQ received information from the Michigan Department of Health and Human Services (MDHHS) indicating blood lead levels in City of Flint residents were consistent with past years seasonal variations.

On September 24, 2015 Hurley Children's Hospital revealed data indicating elevated blood lead levels in children who reside in certain zip codes in the City. This same date the MDHHS reaffirms that their data is more comprehensive than that of Hurley Children's Hospital and remained consistent with past year seasonal variations. On September 25, the City announced a lead advisory regarding the drinking water to its citizens.

On October 1, 2015 the State Chief Medical Officer confirms Hurley Children's Hospital blood lead level data. On this same date the Genesee County Health Department issued the customers of the Flint Water Treatment Plant a "Do Not Drink" advisory. On October 2, the state announces the Governor's Flint action plan. On October 15, 2015 the state legislature authorizes $9.35 million to help fund the City's return to purchasing treated water from the DWSD, and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services.

On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karegnondi Water Authority is scheduled to be completed in mid to late 2016.

MDEQ estimates cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Health and Human Services – Human Services (MDHHS- HS)

MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods. MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card and can utilize the double up food bucks but it still requires additional healthy fruits and vegetables. Some residents who have the elevated blood levels may not have a Bridge Card and purchasing fresh fruits and vegetables is a burden due to higher costs.

In some homes the plumbing is very poor; as a result the faucet filters may not fit. The cost of paying for city water that the residents can't use is astronomical. As a scenario, residents have to make a choice to buy food, or pay for water to flush toilets, bathe, wash clothes etc. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of 4 with leaks etc. it could be about $150 or more per month.

Additional ongoing testing will be required for those with EBLs - treatment long-term, tutoring, behavior specialists, and mental health services are all long-term effects.

The state and city's poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially:
  - 2012: 31.8%
  - 2006: 25.4%
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP)
  - 2013: 47%
  - 2006: 35.4%
- 21.8% of students did not graduate on time in 2013.

- The following table, "MDHHS Program Data" shows the numbers of recipients of programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP)	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Agriculture and Rural Development (MDARD)

Part of MDARD's coordinated outreach includes contact with businesses, particularly food related businesses, to evaluate the safety of the water they use in their products.

Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). In both cases we are identify higher priorities. All of those received a letter in October with guidance; all of them will receive revised guidance as soon as it is approved. There are 97 gas stations within the city which are within those food license numbers, but we are planning additional outreach to them as part of our efforts. MDARD will be working with on potential next steps with the Flint Farmers' Market.

No animal shelters exist in the water service area that we are aware of. The primary focus is and should be on residences where they also have pets. There are two vet clinics in the City, and we were making individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

MDARD has been in close coordination with DEQ, DHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all

four agencies. MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Insurance and Financial Services (DIFS)

DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer.

The losses experienced in Flint would not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the Department of Environmental Quality of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges, 7 trucks and drivers have been deployed to assist with delivering supplies to PODs and assisting with neighborhood visits. More are being procured.

DTMB also facilitated the establishment of the JIC at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:
Truckloads of water - 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
Brita faucet filters – 27,000
Brita Replacement filters – 1,600
PUR faucet filters – 12,500
PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014.

The State, in addition to Stafford Act assistance from DR-4195, has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau successfully responded to the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges.

Several voluntary organizations work in Detroit proper to continue rebuilds and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG) in cooperation with the Urban Studies Center at Wayne State University estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Individual Assistance/Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is nearly double the county's. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially of lead, which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5 year average a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%
